Oceania

Free printable geography activities for grades 2-8
A digital companion app - JigsawGeo from squishLogic

Want to explore geography digitally? Try JigsawGeo for iPhone and iPad.

Table of Contents

Latitude/Longitude Map	4
<i>(Grades 6-8) Name the country/province at each listed latitude/longitude.</i>	
Grid Map	7
<i>(Grades 2-5) Name the country/province at each listed grid location.</i>	
Blank Map	10
<i>(Grades 2-8) A blank map. Younger grades can color it in, older grades can use as quiz for them to label the correct names.</i>	
Labeled Map	11
<i>(Grades 2-8) Use this labeled map as an answer key or coloring page</i>	
Map Colored In	12
<i>Example of a map that has been colored in.</i>	
Focus on One Region	13
<i>(Grades 3-8) Highlights selected regions in the map.</i>	
Heat Map	42
<i>(Grades 3-8) Create a heatmap (choropleth) representation.</i>	
Flashcards	48
<i>(Grades 2-6) Pages to cut out into flashcards of the regions in the map.</i>	
Crossword Puzzle	56
<i>(Grades 5-8) A crossword puzzle with clues to guess which country/province to fill in across or down.</i>	
Missing Vowels	66
<i>(Grades 4-8) Fill in the vowels for each country/province. Surprisingly good way to check spelling knowledge.</i>	
Word Scramble	67
<i>(Grades 2-5) Unscramble the name of the country/province. Two versions, with a harder version for the higher grades.</i>	
Cryptograms	83
<i>(Grades 3-7) Decipher the code!</i>	
Word Search	93
<i>(Grades 2-6) A word search puzzle. Two versions, with a harder version for the higher grades.</i>	

Take Geography Beyond the Worksheet

Enjoying these free printable activities? There's a digital way to explore them, too.

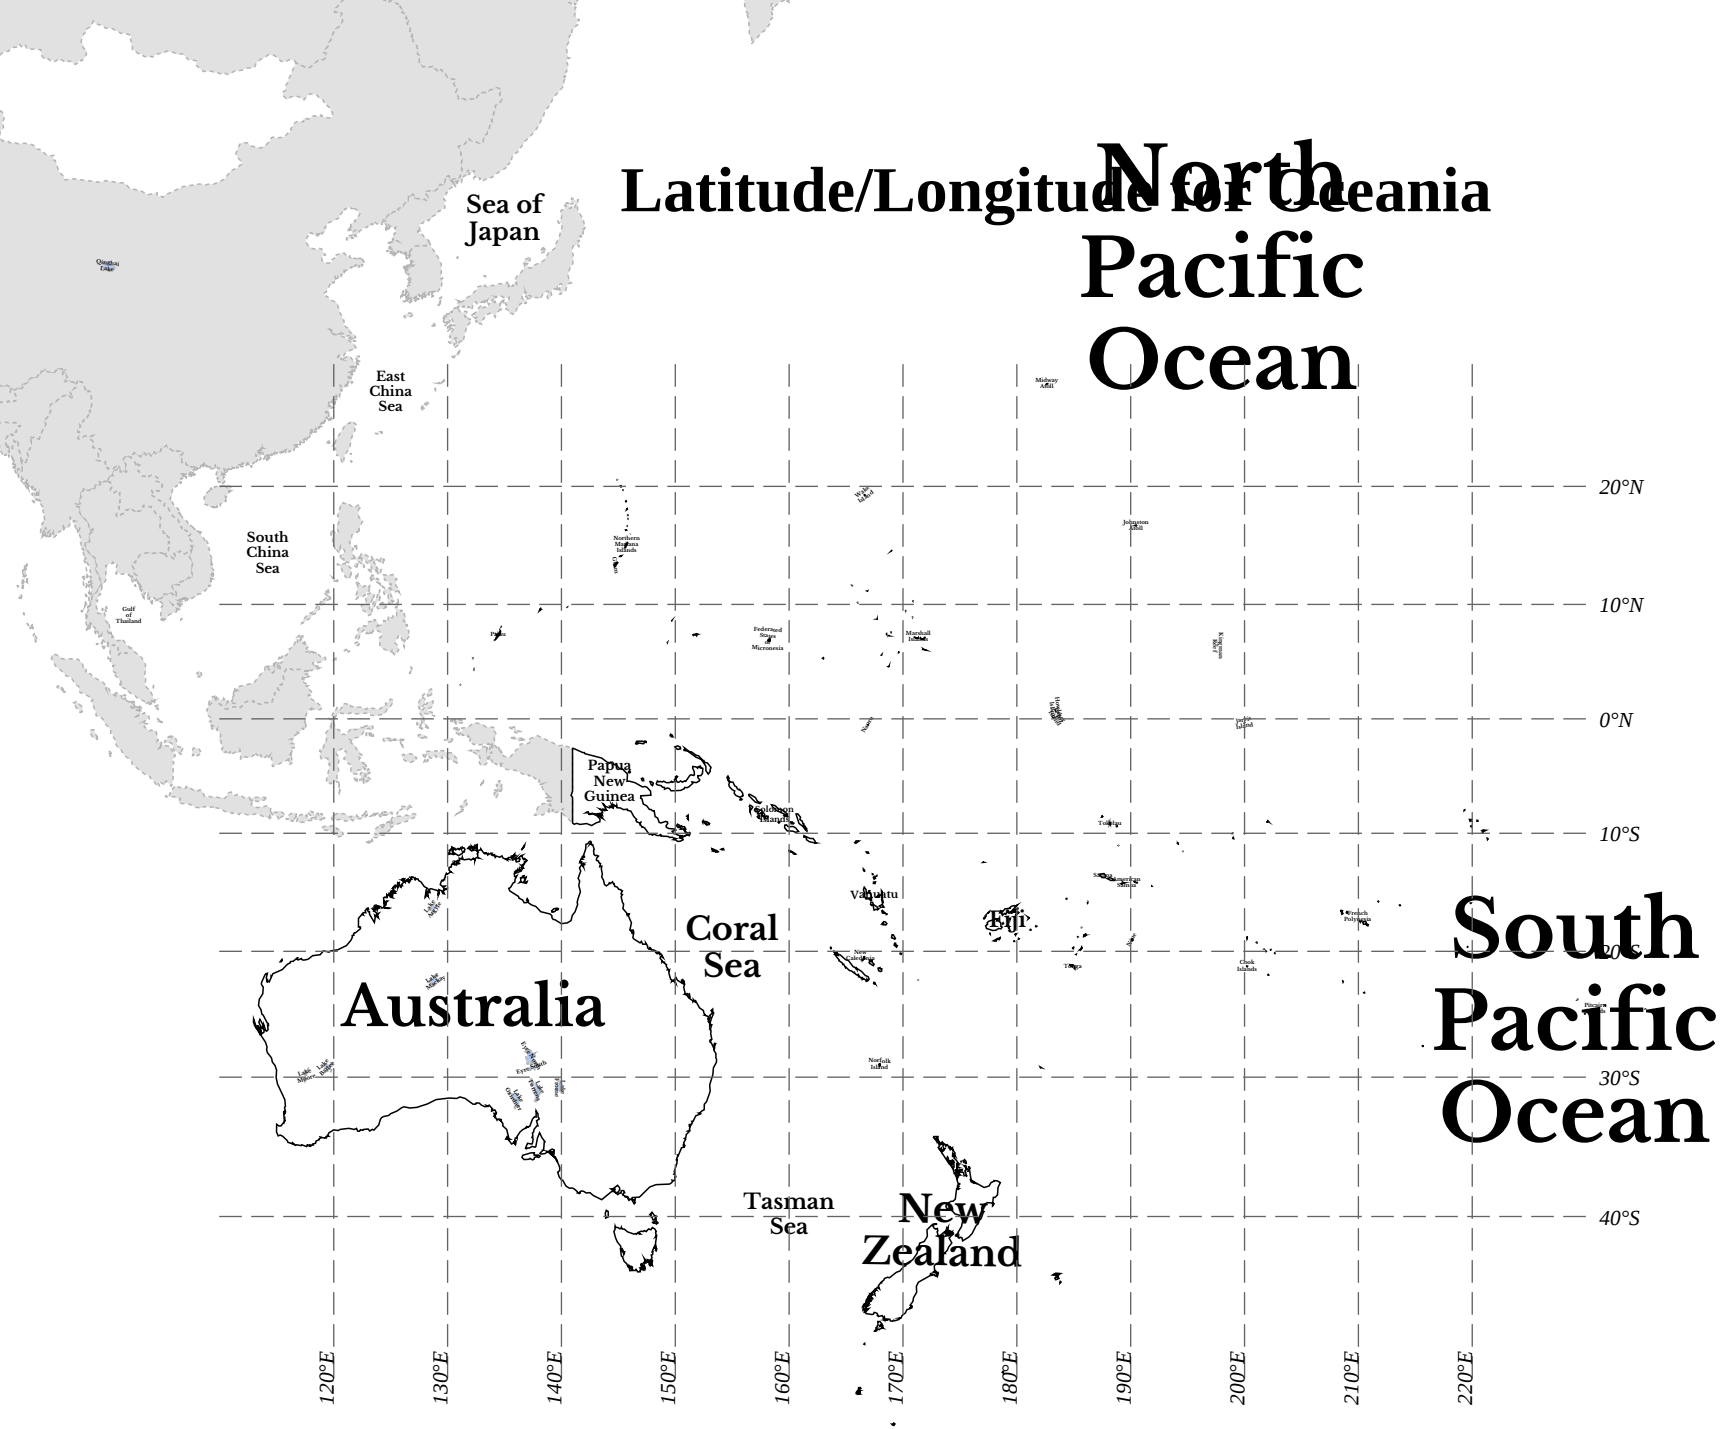

JigsawGeo turns the maps in this packet into interactive puzzles for iPhone and iPad. Assemble Oceania region by region, explore borders and flags, and learn geography at your own pace - at home or in the classroom. Six difficulty levels, from Traveler to Cartographer, let the app grow with your students from grade 2 through grade 8.

JigsawGeo - Interactive geography for curious minds.

Fun Facts about American Samoa

1. This U.S. territory consists of five volcanic islands and two coral atolls.
2. Pago Pago Harbor is one of the deepest natural deep-water ports in the South Pacific.
3. National Park of American Samoa protects 3,600 hectares of diverse tropical rainforest and coral reefs.
4. It covers a land area of 199 square kilometers.
5. Traditional communal living structures known as fales remain central to local social life.
6. The territory is located east of the International Date Line.
7. Tuna cannery is a foundational industrial pillar for the local economy.

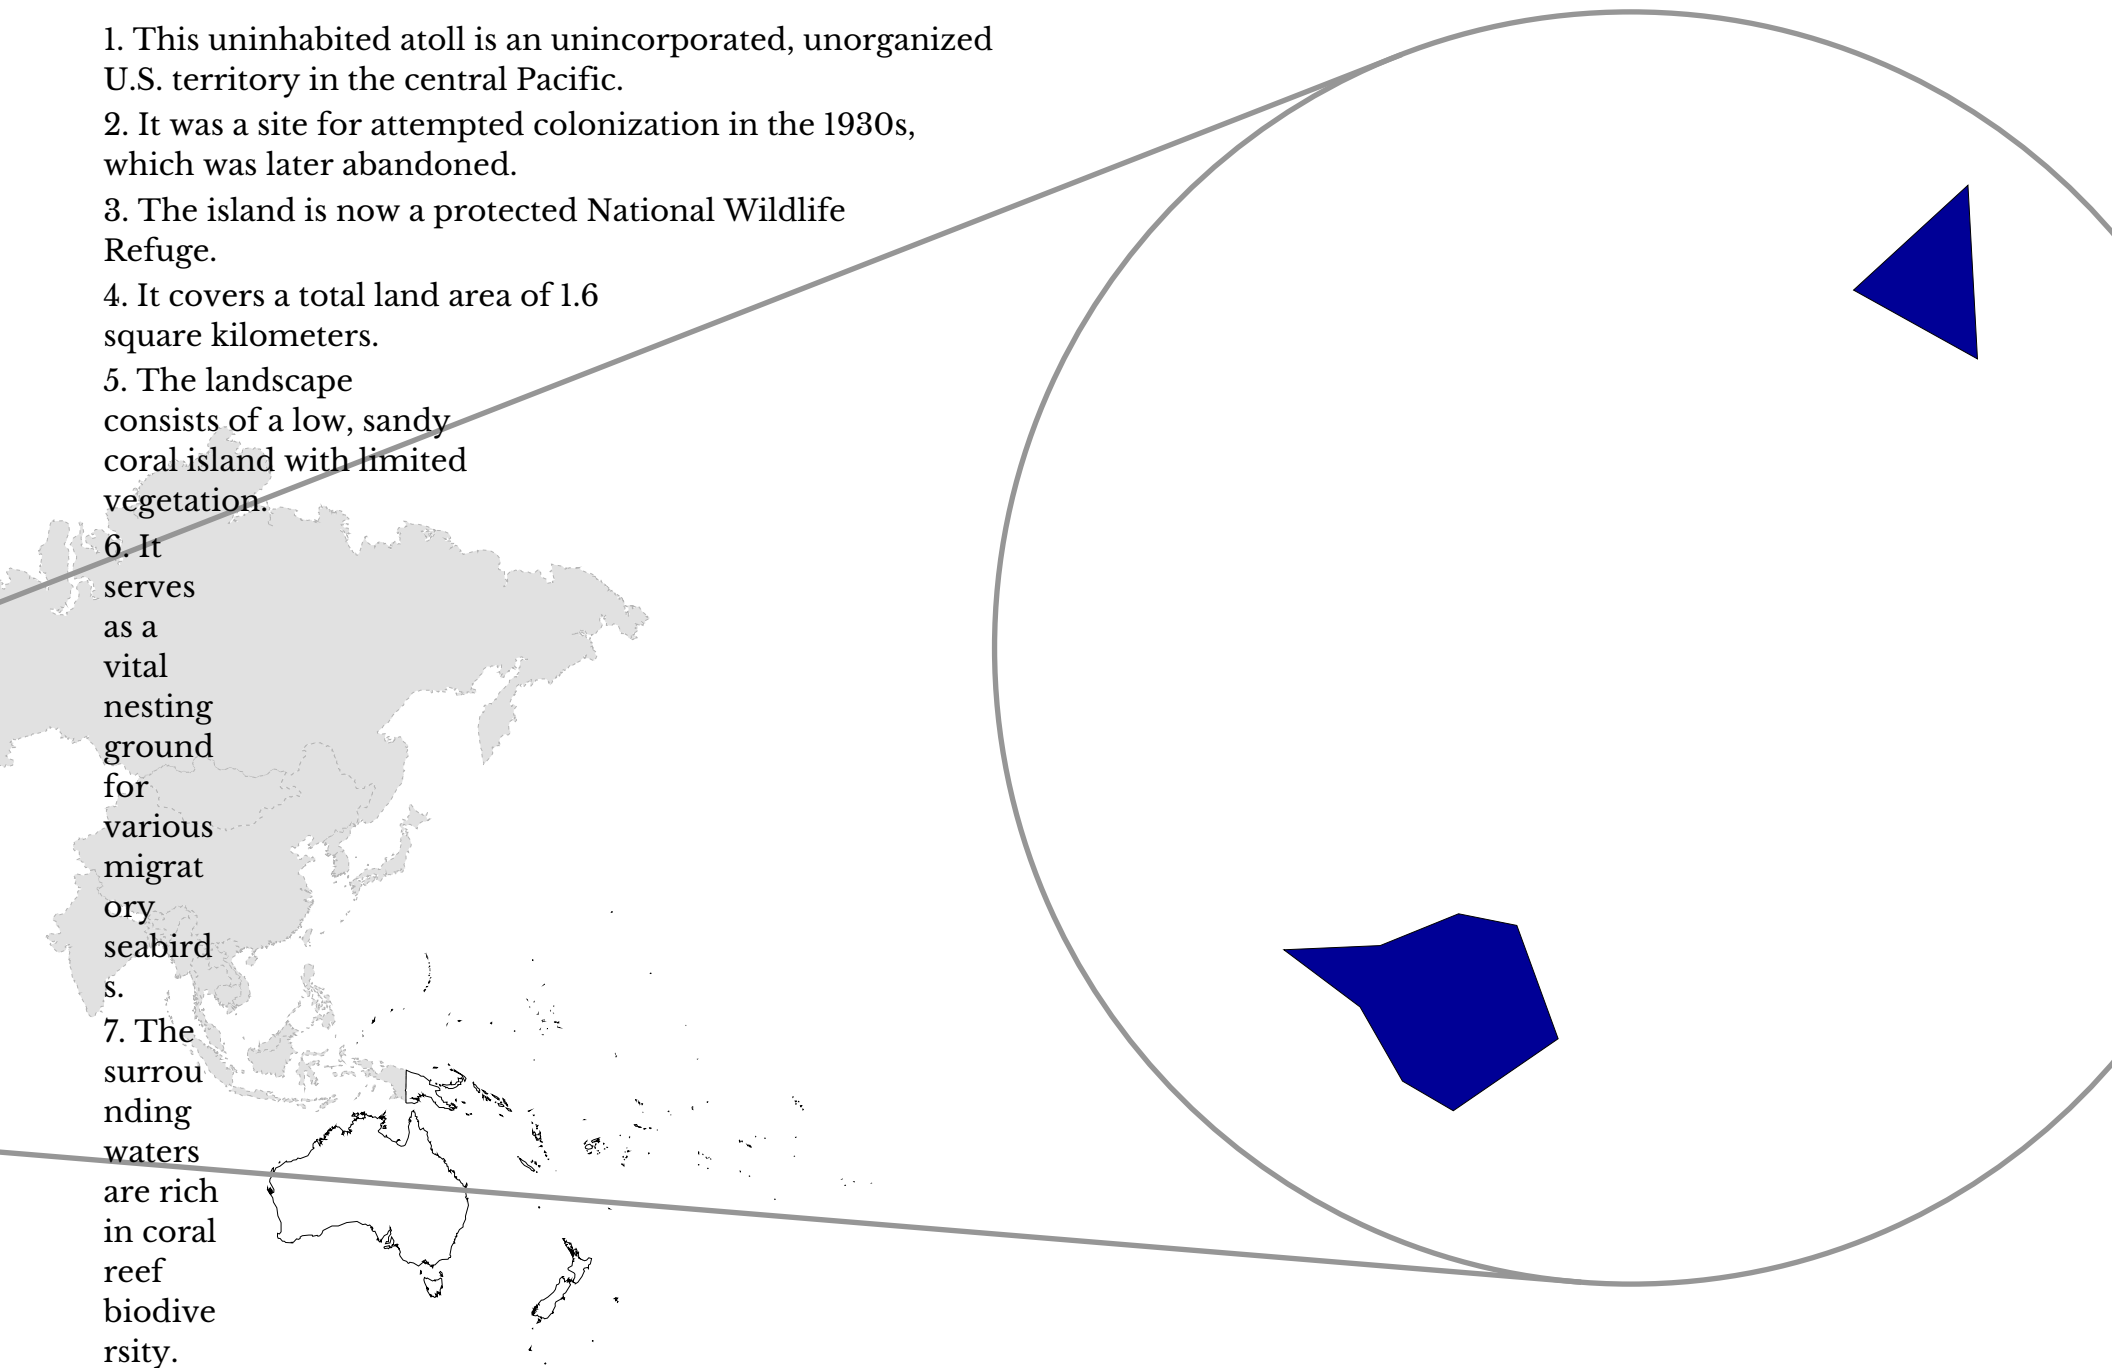

Fun Facts about Australia

1. This nation spans 7,692,024 square kilometers, making it the sixth-largest country globally.
2. It features the Great Barrier Reef, the world's largest coral system, stretching 2,300 kilometers.
3. The interior is dominated by vast, arid desert regions known as the Outback.
4. It hosts unique fauna, with 80 percent of its mammal and reptile species being endemic.
5. Canberra serves as the capital city, situated between the two largest urban centers.
6. Mining and natural resource exports drive a significant portion of the national economy.
7. The coastline extends for over 35,000 kilometers.

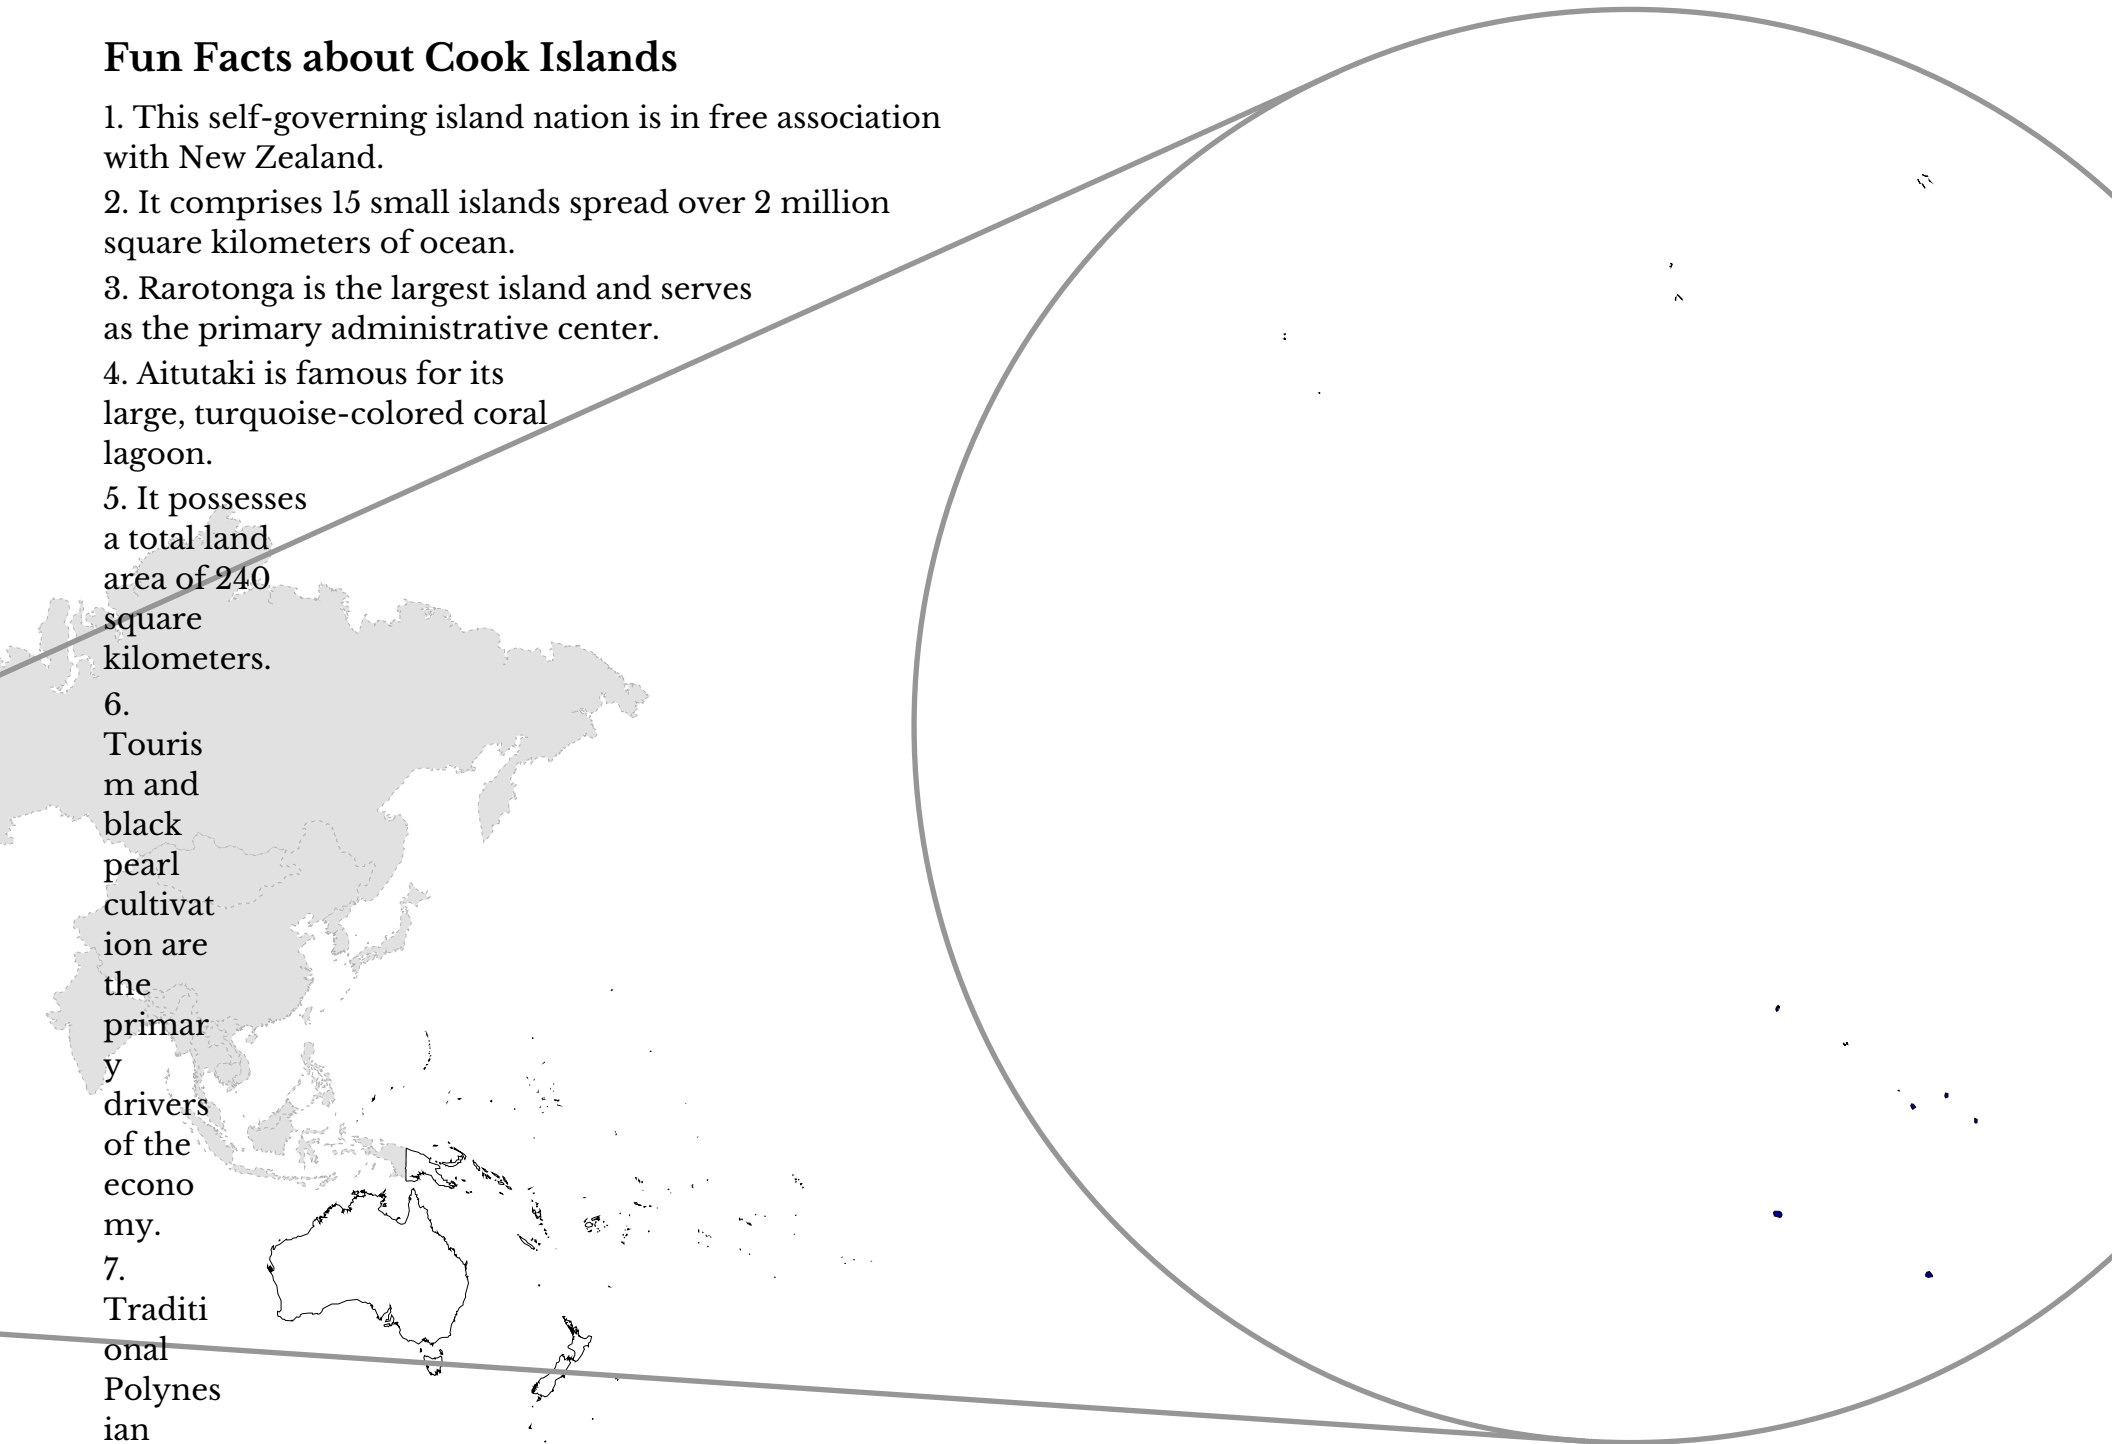

Fun Facts about Baker Island

1. This uninhabited atoll is an unincorporated, unorganized U.S. territory in the central Pacific.
2. It was a site for attempted colonization in the 1930s, which was later abandoned.
3. The island is now a protected National Wildlife Refuge.
4. It covers a total land area of 1.6 square kilometers.
5. The landscape consists of a low, sandy coral island with limited vegetation.
6. It serves as a vital nesting ground for various migratory seabirds.
7. The surrounding waters are rich in coral reef biodiversity.

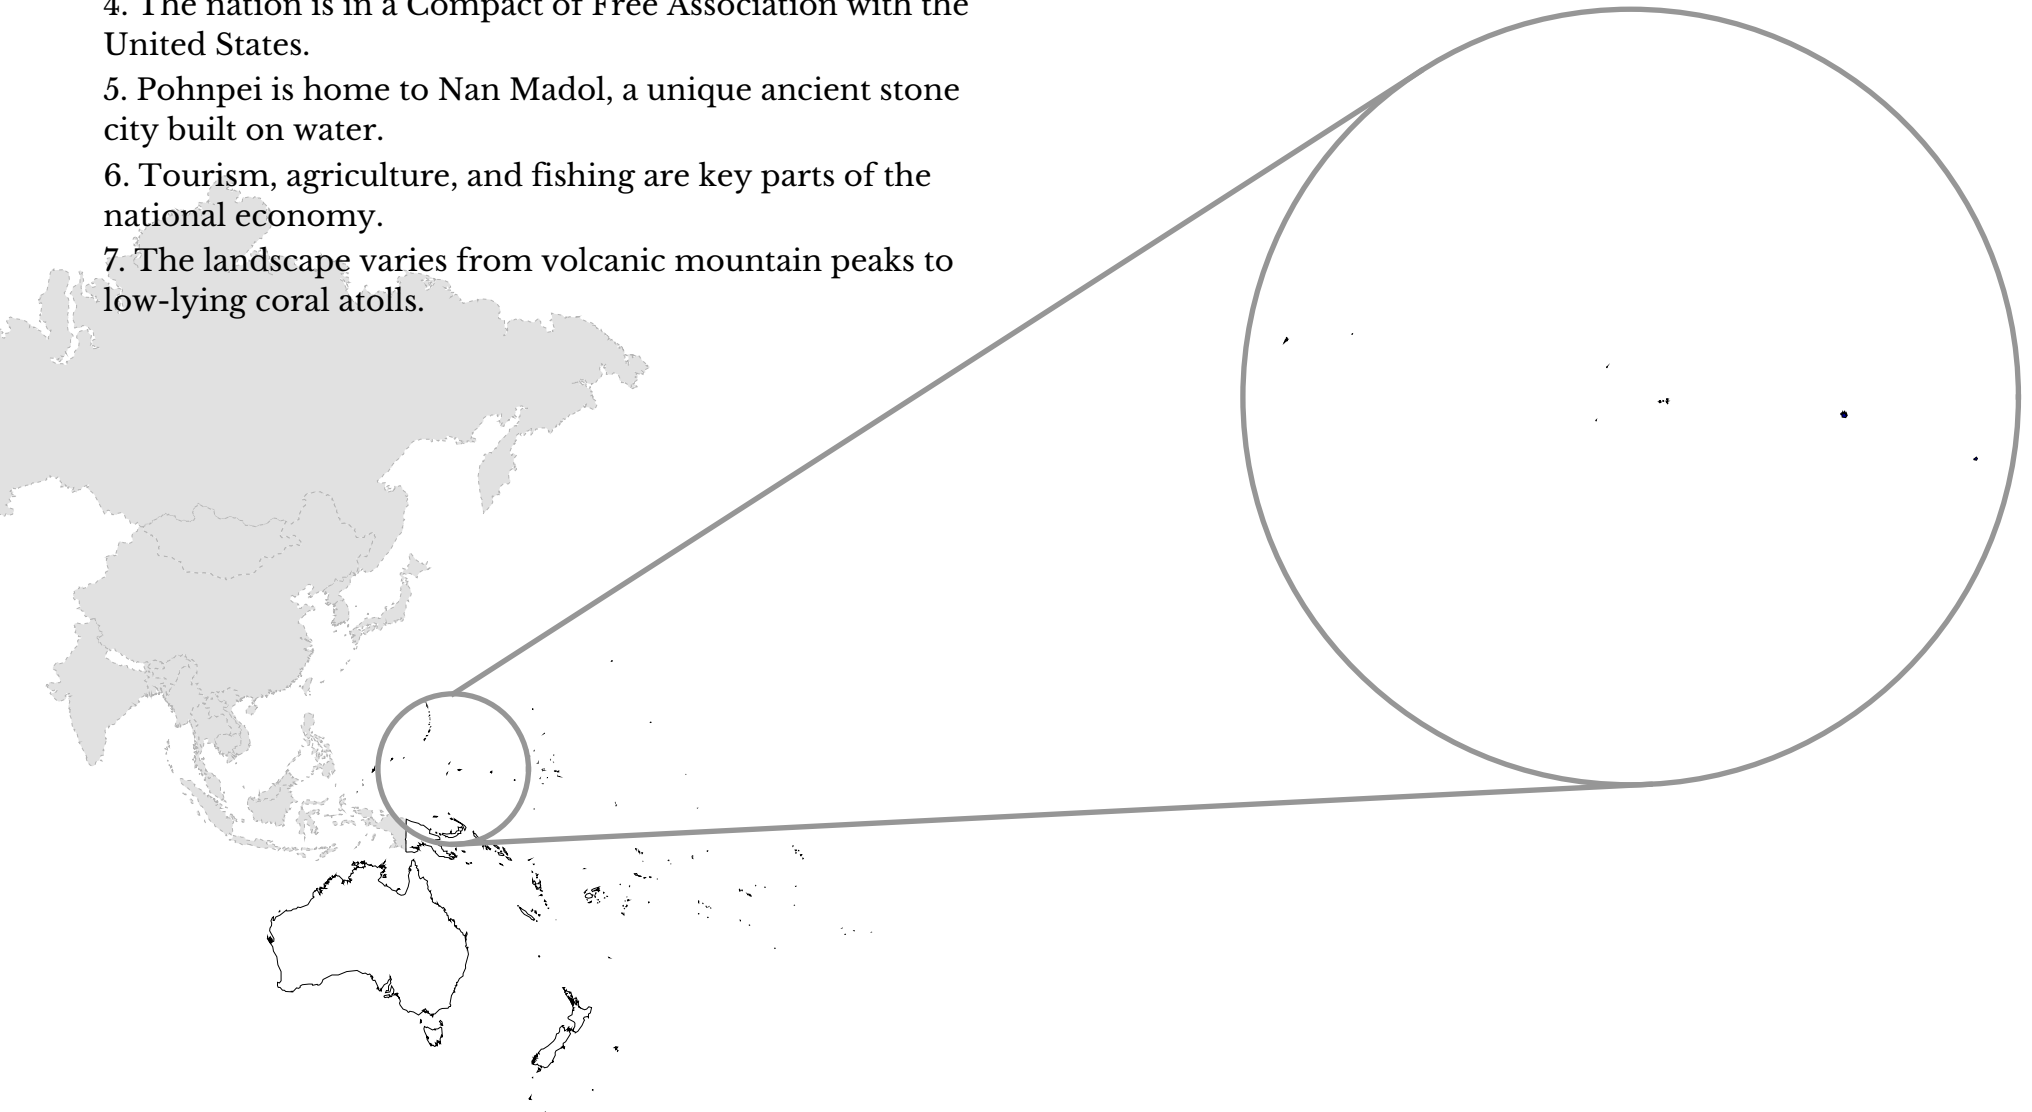

Fun Facts about Cook Islands

1. This self-governing island nation is in free association with New Zealand.
2. It comprises 15 small islands spread over 2 million square kilometers of ocean.
3. Rarotonga is the largest island and serves as the primary administrative center.
4. Aitutaki is famous for its large, turquoise-colored coral lagoon.
5. It possesses a total land area of 240 square kilometers.
6. Tourism and black pearl cultivation are the primary drivers of the economy.
7. Traditional Polynesian culture and

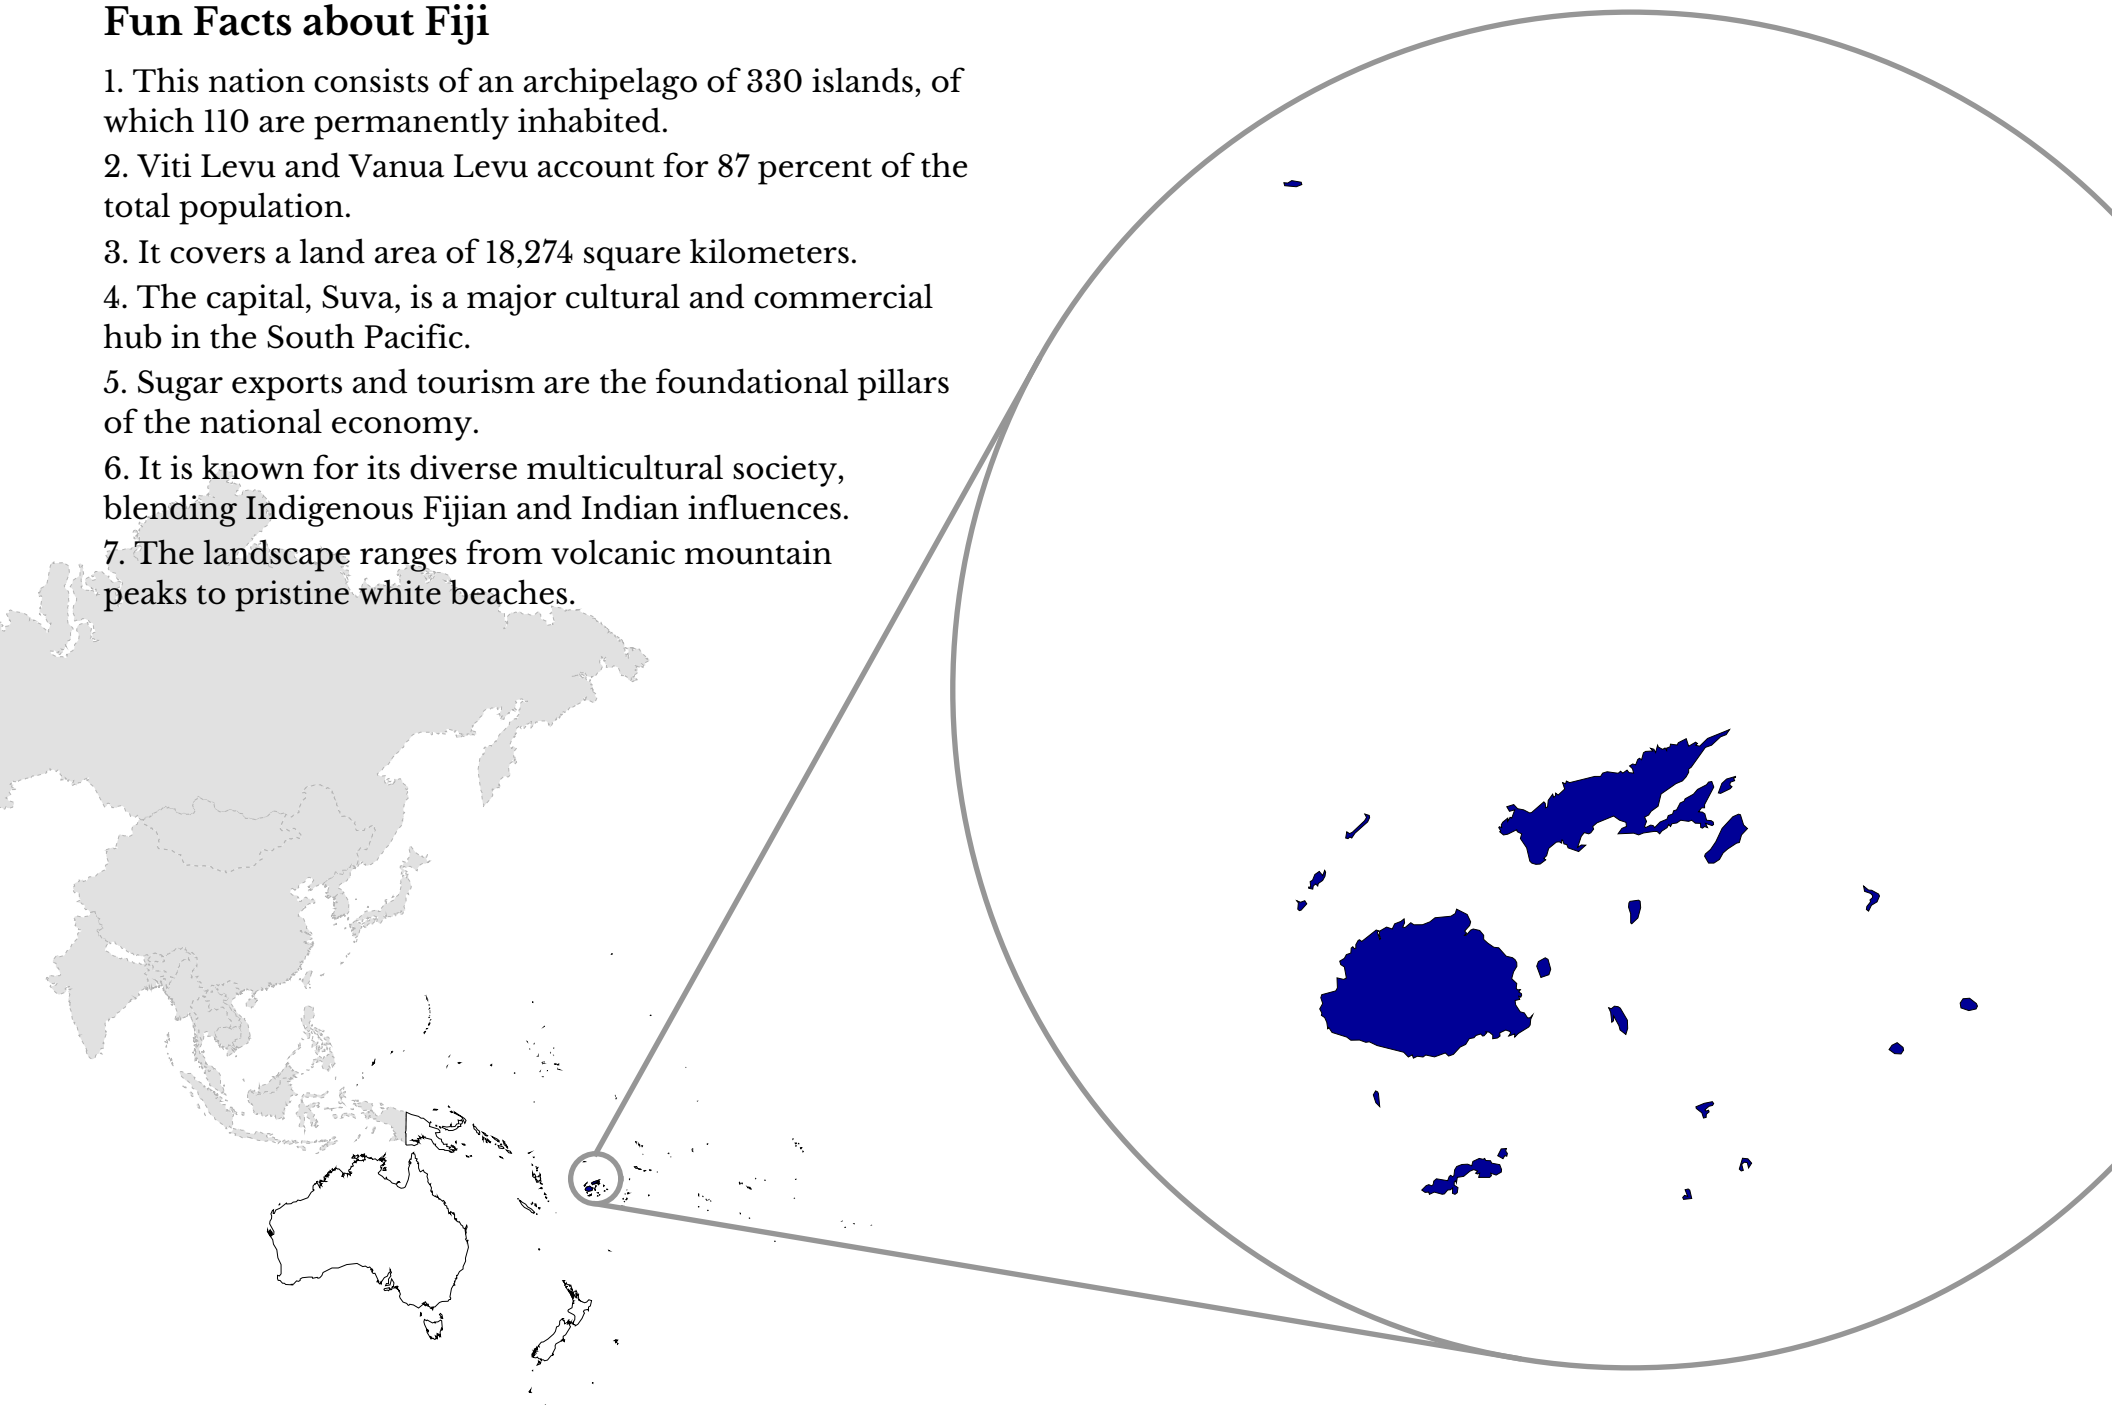

Fun Facts about Federated States of Micronesia

1. This sovereign nation comprises 607 islands divided into four states.
2. It covers a land area of 702 square kilometers spread across vast ocean.
3. Palikir serves as the administrative capital city.
4. The nation is in a Compact of Free Association with the United States.
5. Pohnpei is home to Nan Madol, a unique ancient stone city built on water.
6. Tourism, agriculture, and fishing are key parts of the national economy.
7. The landscape varies from volcanic mountain peaks to low-lying coral atolls.

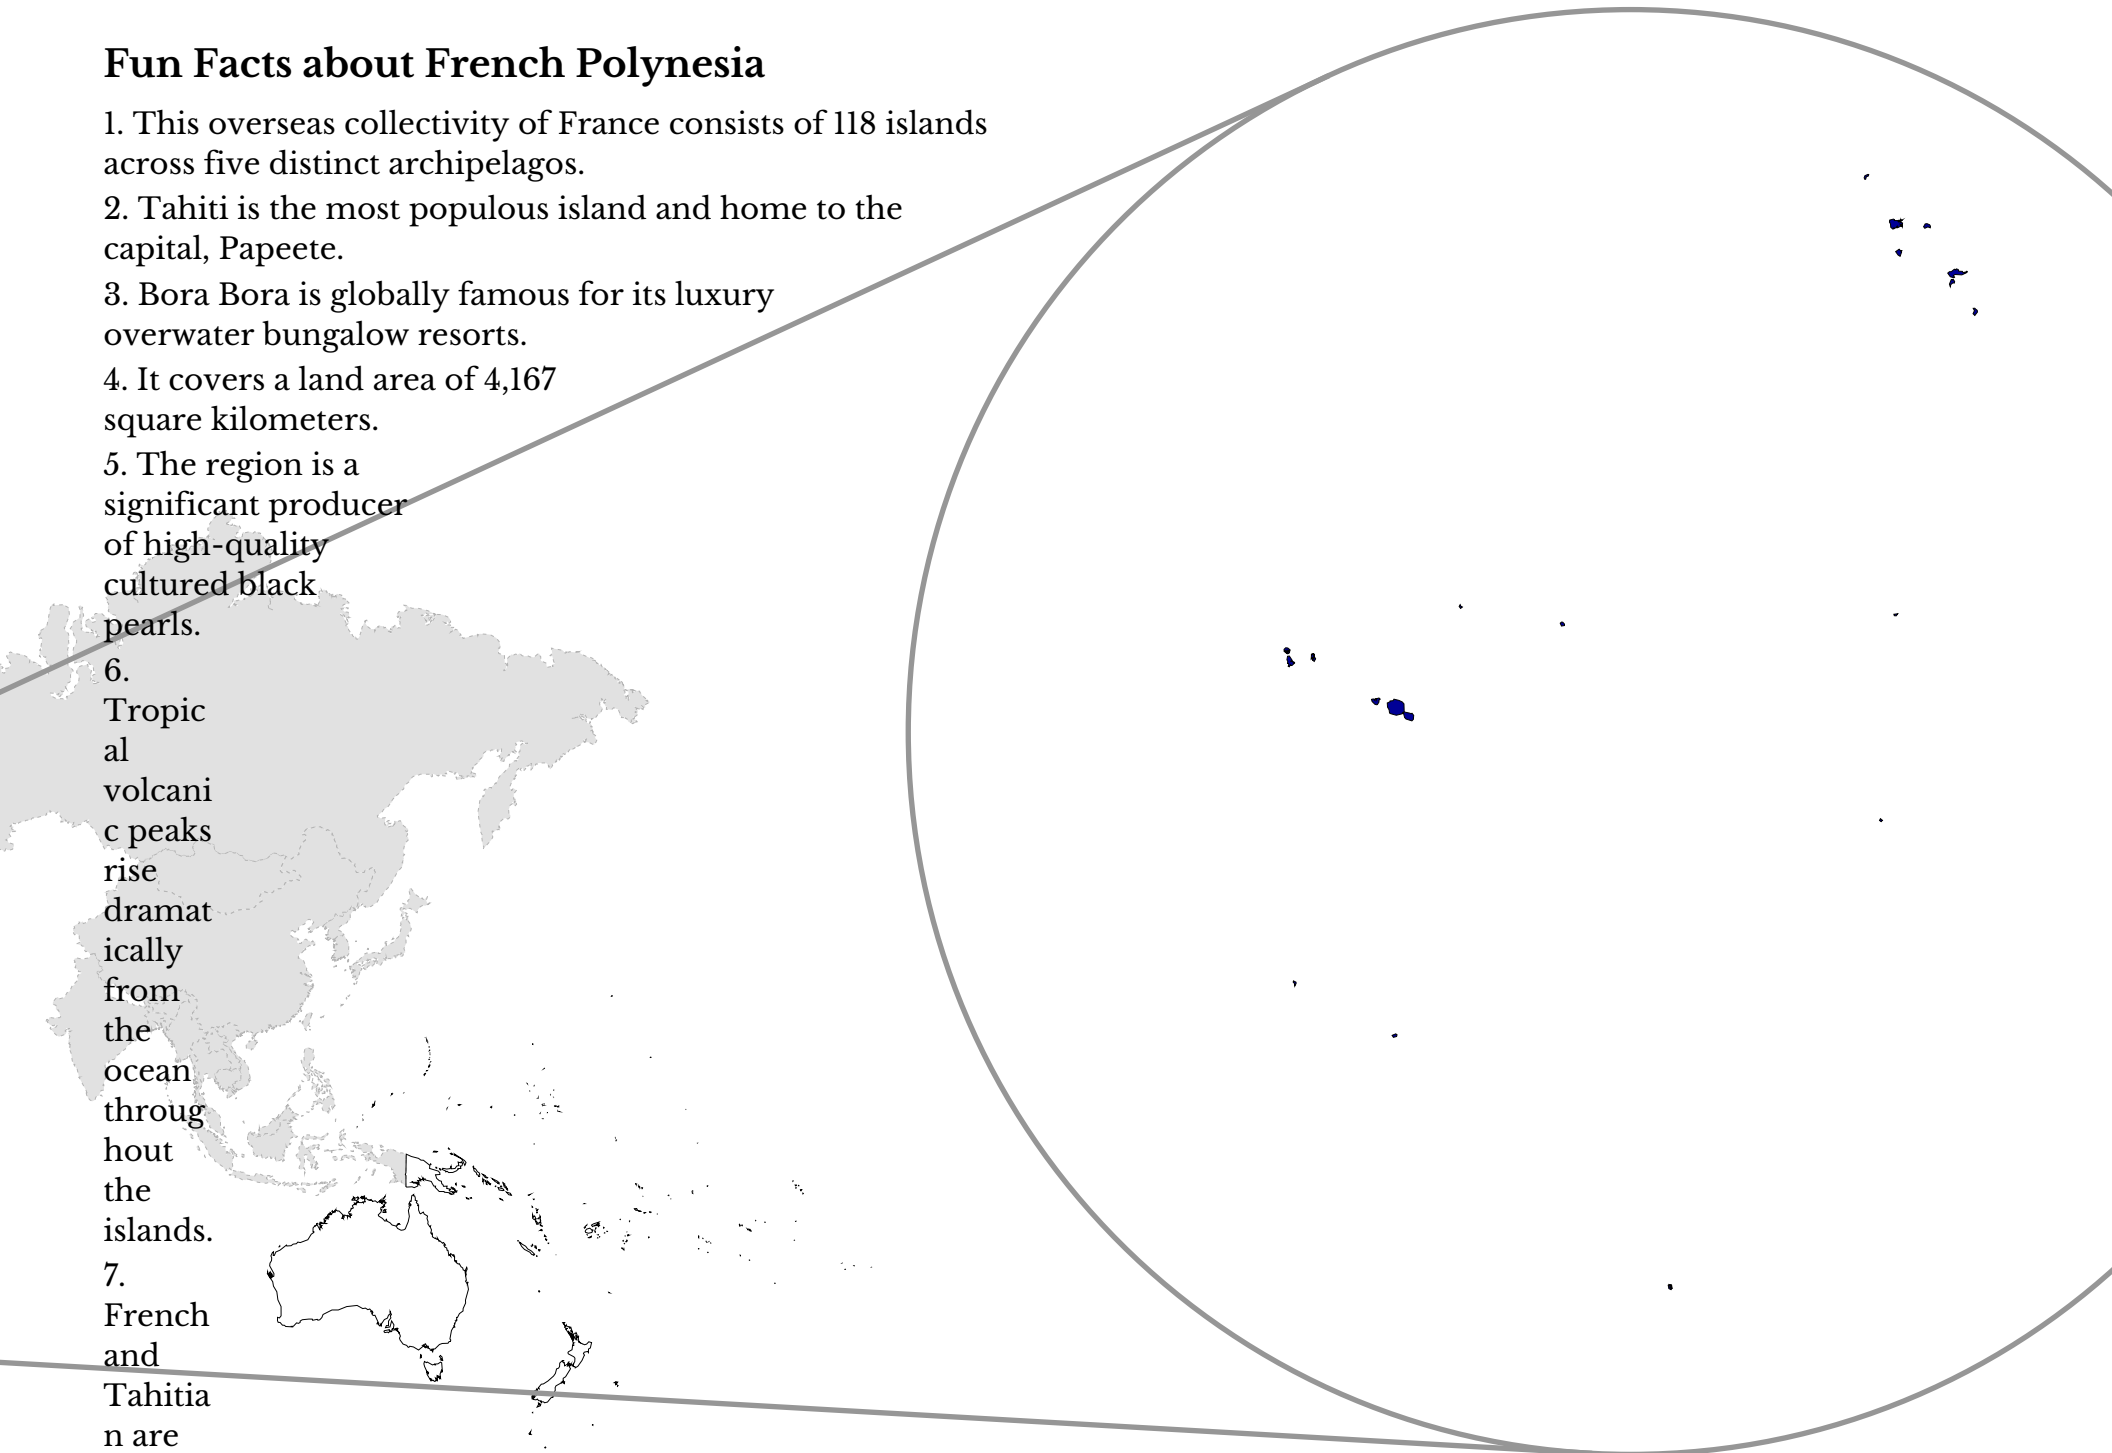

Fun Facts about Fiji

1. This nation consists of an archipelago of 330 islands, of which 110 are permanently inhabited.
2. Viti Levu and Vanua Levu account for 87 percent of the total population.
3. It covers a land area of 18,274 square kilometers.
4. The capital, Suva, is a major cultural and commercial hub in the South Pacific.
5. Sugar exports and tourism are the foundational pillars of the national economy.
6. It is known for its diverse multicultural society, blending Indigenous Fijian and Indian influences.
7. The landscape ranges from volcanic mountain peaks to pristine white beaches.

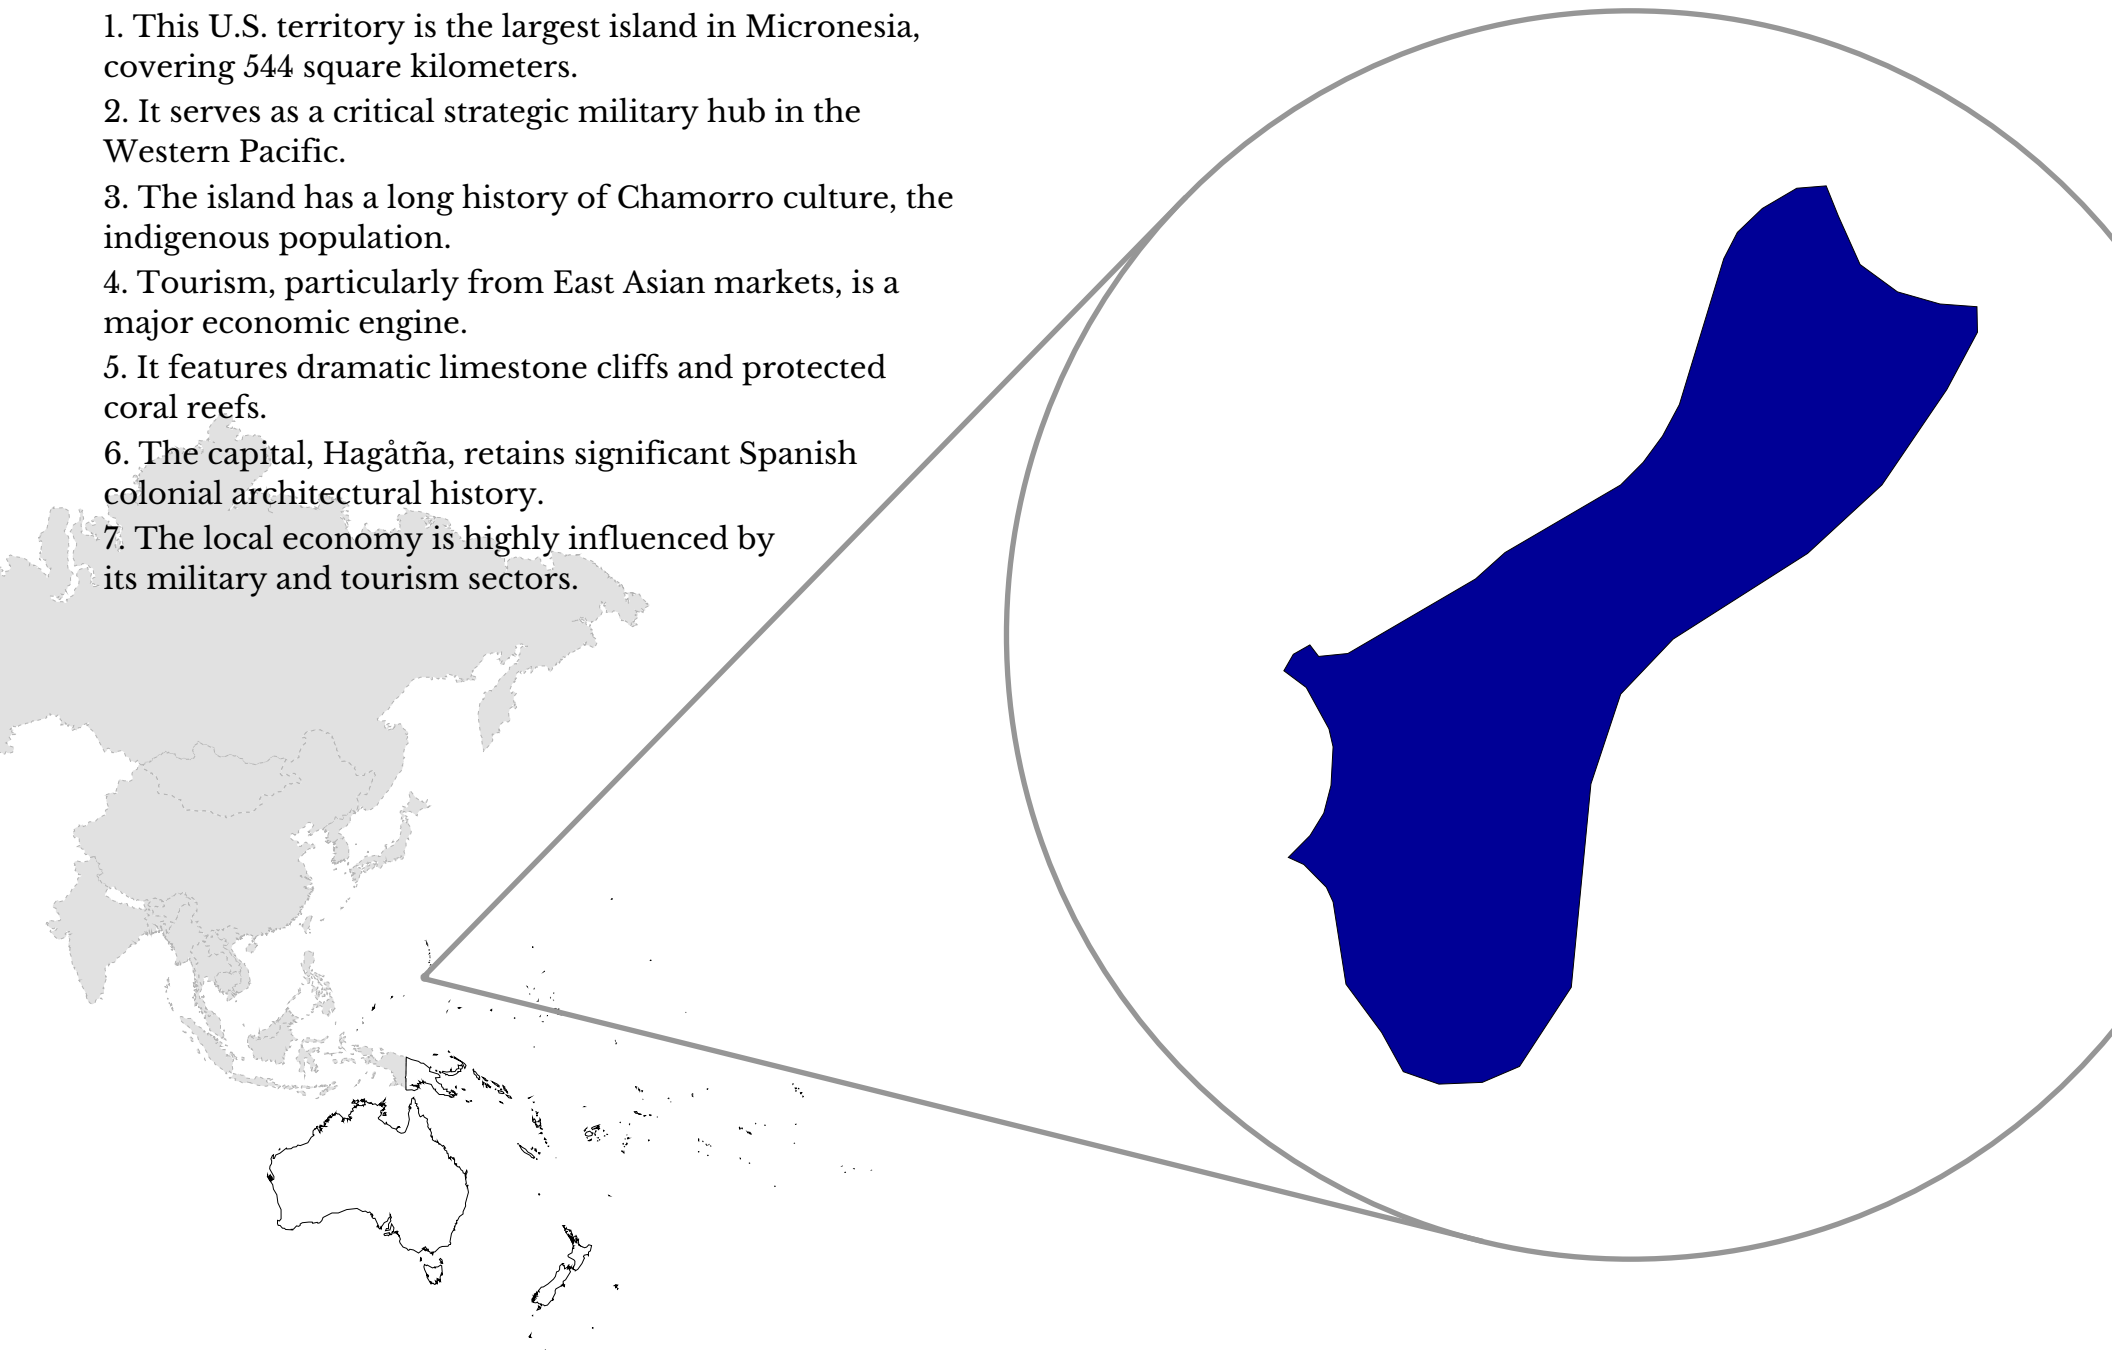

Fun Facts about French Polynesia

1. This overseas collectivity of France consists of 118 islands across five distinct archipelagos.
2. Tahiti is the most populous island and home to the capital, Papeete.
3. Bora Bora is globally famous for its luxury overwater bungalow resorts.
4. It covers a land area of 4,167 square kilometers.
5. The region is a significant producer of high-quality cultured black pearls.
6. Tropical volcanic peaks rise dramatically from the ocean throughout the islands.
7. French and Tahitian are both widely

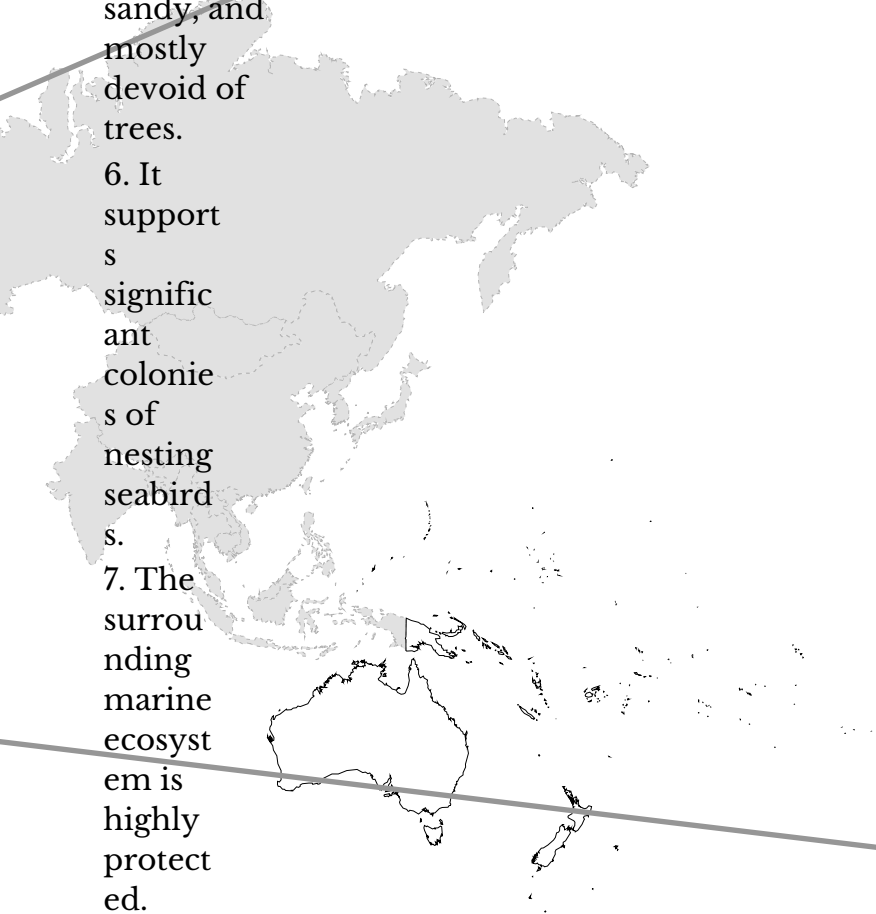

Fun Facts about Guam

1. This U.S. territory is the largest island in Micronesia, covering 544 square kilometers.
2. It serves as a critical strategic military hub in the Western Pacific.
3. The island has a long history of Chamorro culture, the indigenous population.
4. Tourism, particularly from East Asian markets, is a major economic engine.
5. It features dramatic limestone cliffs and protected coral reefs.
6. The capital, Hagåtña, retains significant Spanish colonial architectural history.
7. The local economy is highly influenced by its military and tourism sectors.

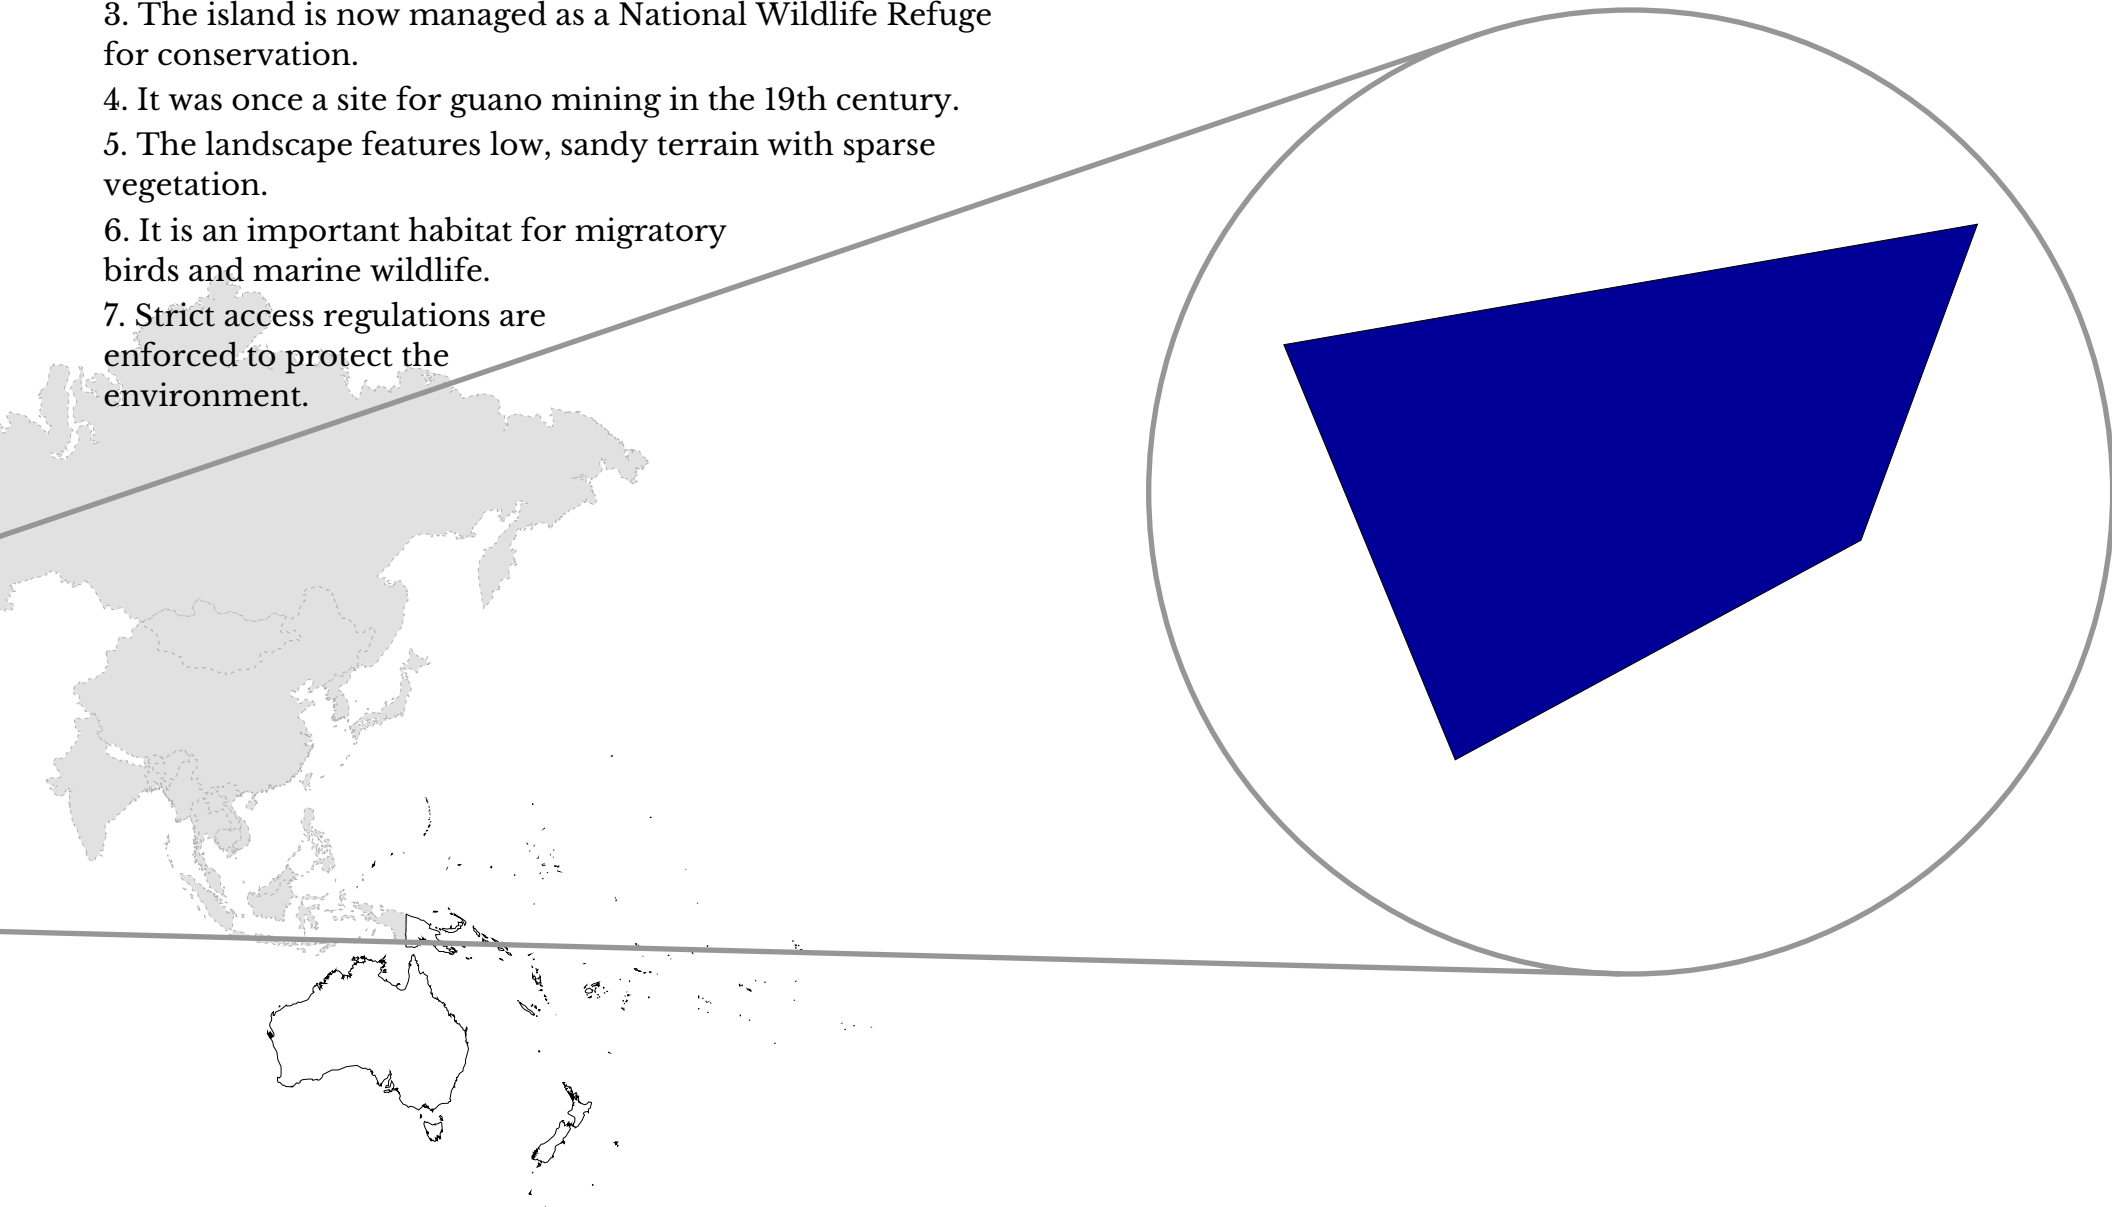

Fun Facts about Howland Island

1. This uninhabited coral atoll is an unincorporated U.S. territory near the equator.
2. It covers a land area of 1.8 square kilometers.
3. The island is officially managed as a National Wildlife Refuge.
4. It gained historical note as a planned refueling stop for aviation pioneers.
5. The terrain is flat, sandy, and mostly devoid of trees.
6. It supports significant colonies of nesting seabirds.
7. The surrounding marine ecosystem is highly protected.

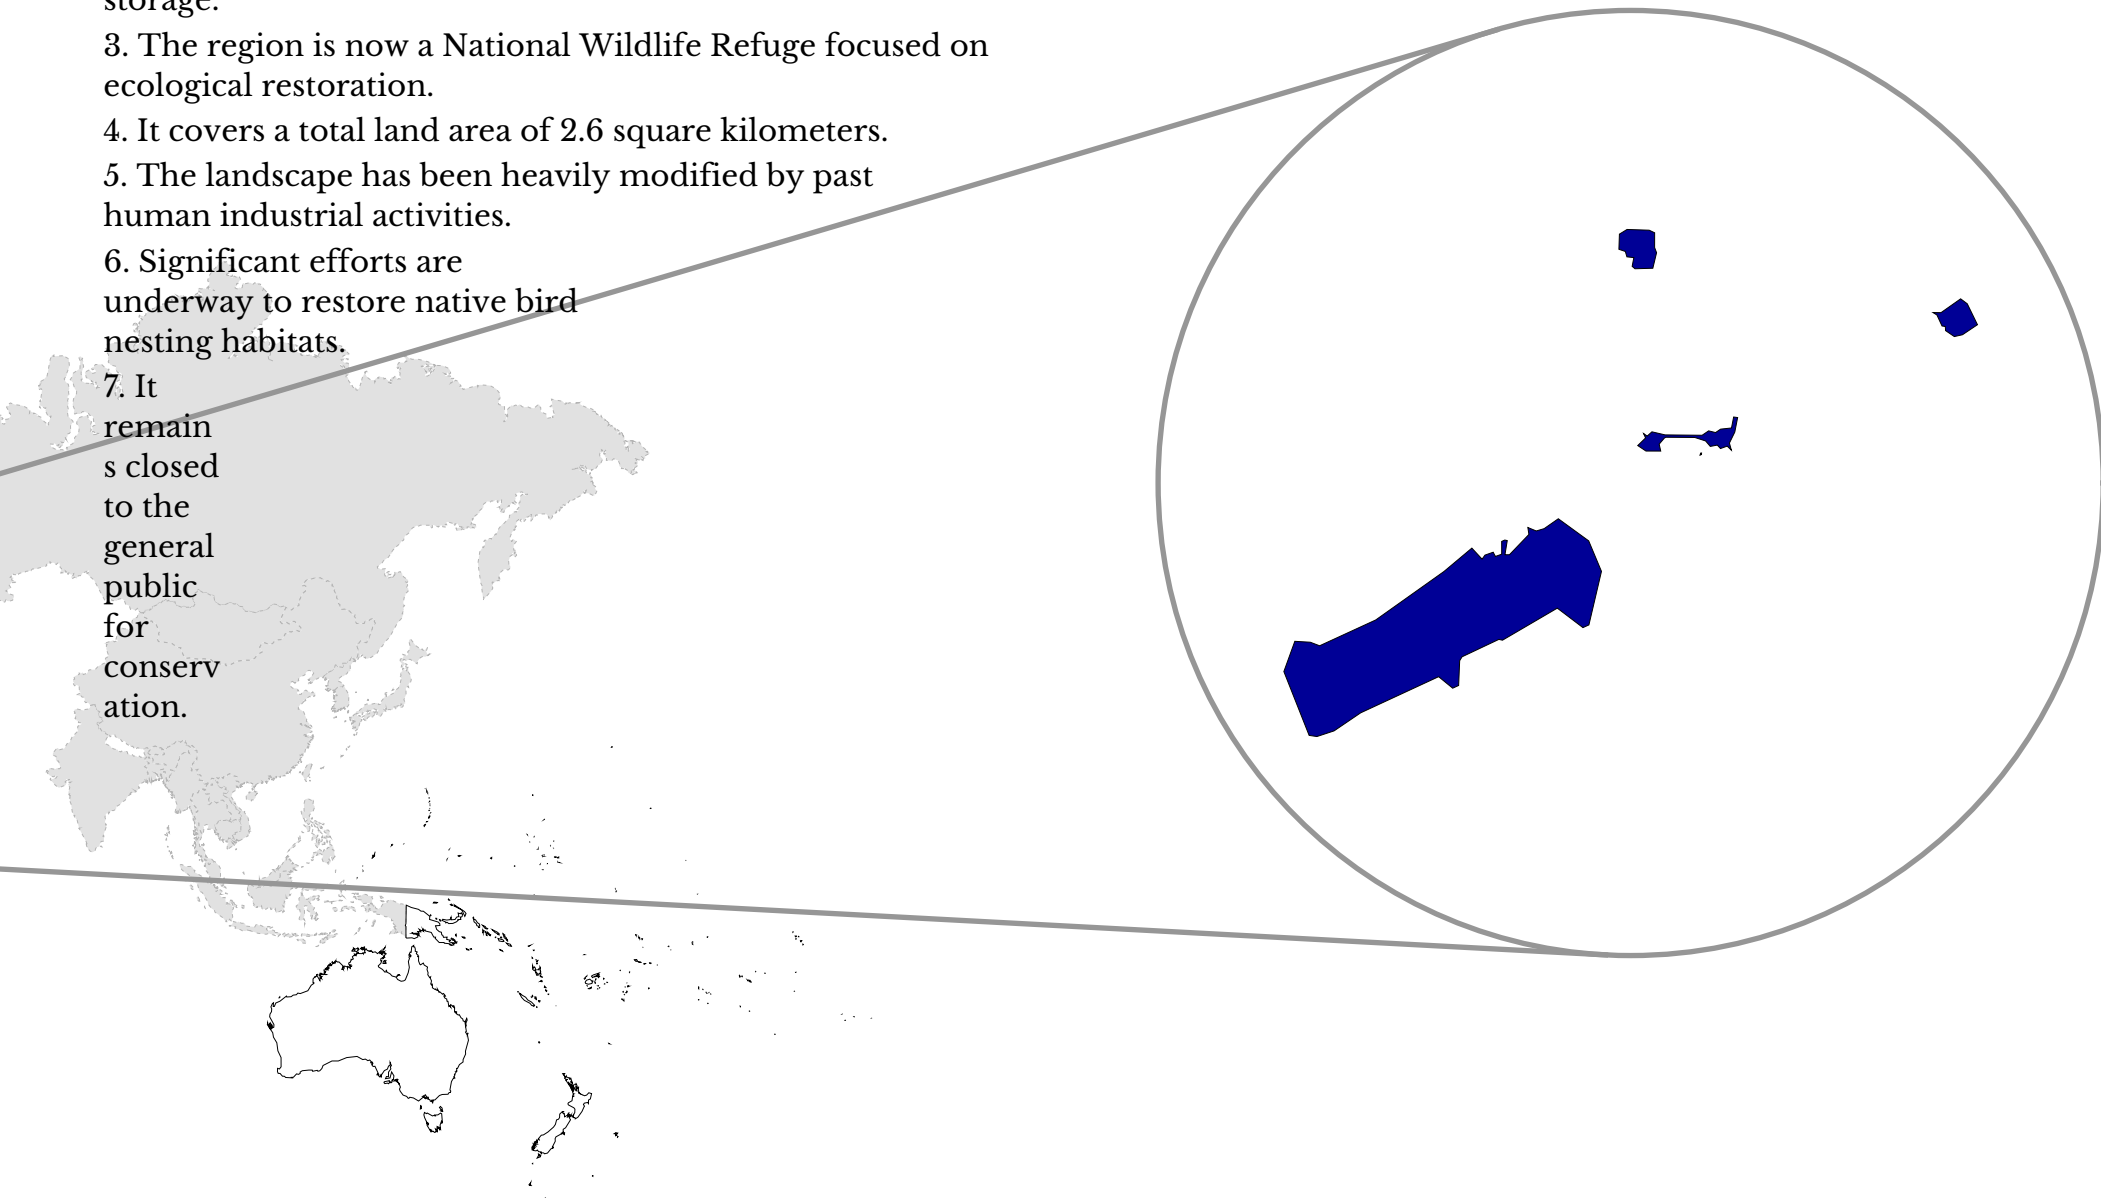

Fun Facts about Jarvis Island

1. This uninhabited, unincorporated U.S. territory is a coral island in the central Pacific.
2. It spans 4.5 square kilometers of land area.
3. The island is now managed as a National Wildlife Refuge for conservation.
4. It was once a site for guano mining in the 19th century.
5. The landscape features low, sandy terrain with sparse vegetation.
6. It is an important habitat for migratory birds and marine wildlife.
7. Strict access regulations are enforced to protect the environment.

Fun Facts about Johnston Atoll

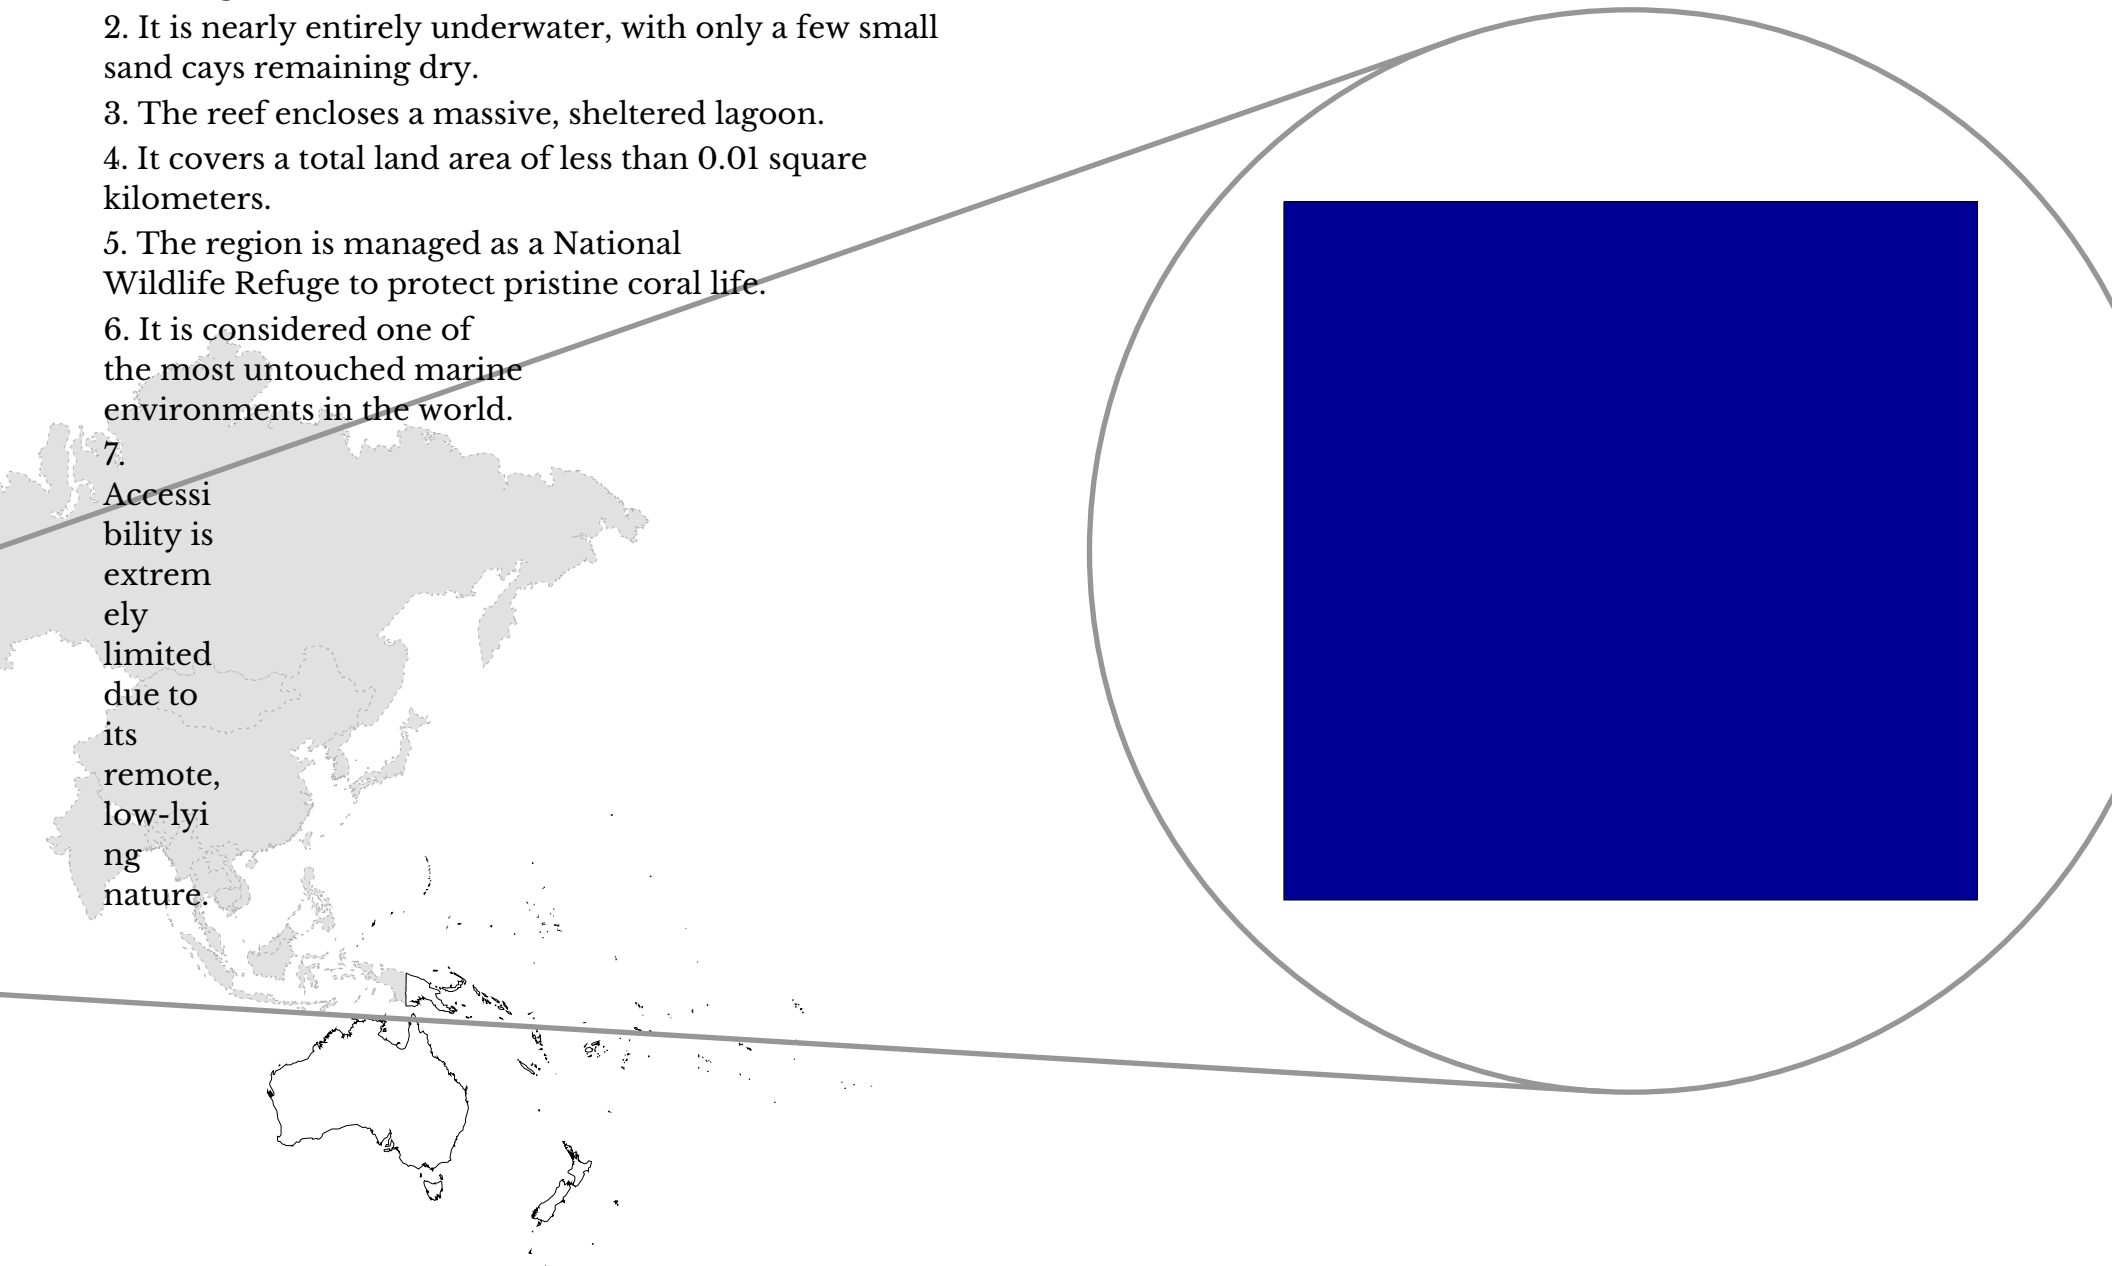

1. This unincorporated U.S. territory consists of four islands atop a coral platform.
2. It was historically used for military testing and chemical storage.
3. The region is now a National Wildlife Refuge focused on ecological restoration.
4. It covers a total land area of 2.6 square kilometers.
5. The landscape has been heavily modified by past human industrial activities.
6. Significant efforts are underway to restore native bird nesting habitats.
7. It remains closed to the general public for conservation.

Fun Facts about Kingman Reef

1. This uninhabited, unincorporated U.S. territory is a submerged coral reef in the northern Pacific.
2. It is nearly entirely underwater, with only a few small sand cays remaining dry.
3. The reef encloses a massive, sheltered lagoon.
4. It covers a total land area of less than 0.01 square kilometers.
5. The region is managed as a National Wildlife Refuge to protect pristine coral life.
6. It is considered one of the most untouched marine environments in the world.

7. Accessibility is extremely limited due to its remote, low-lying nature.

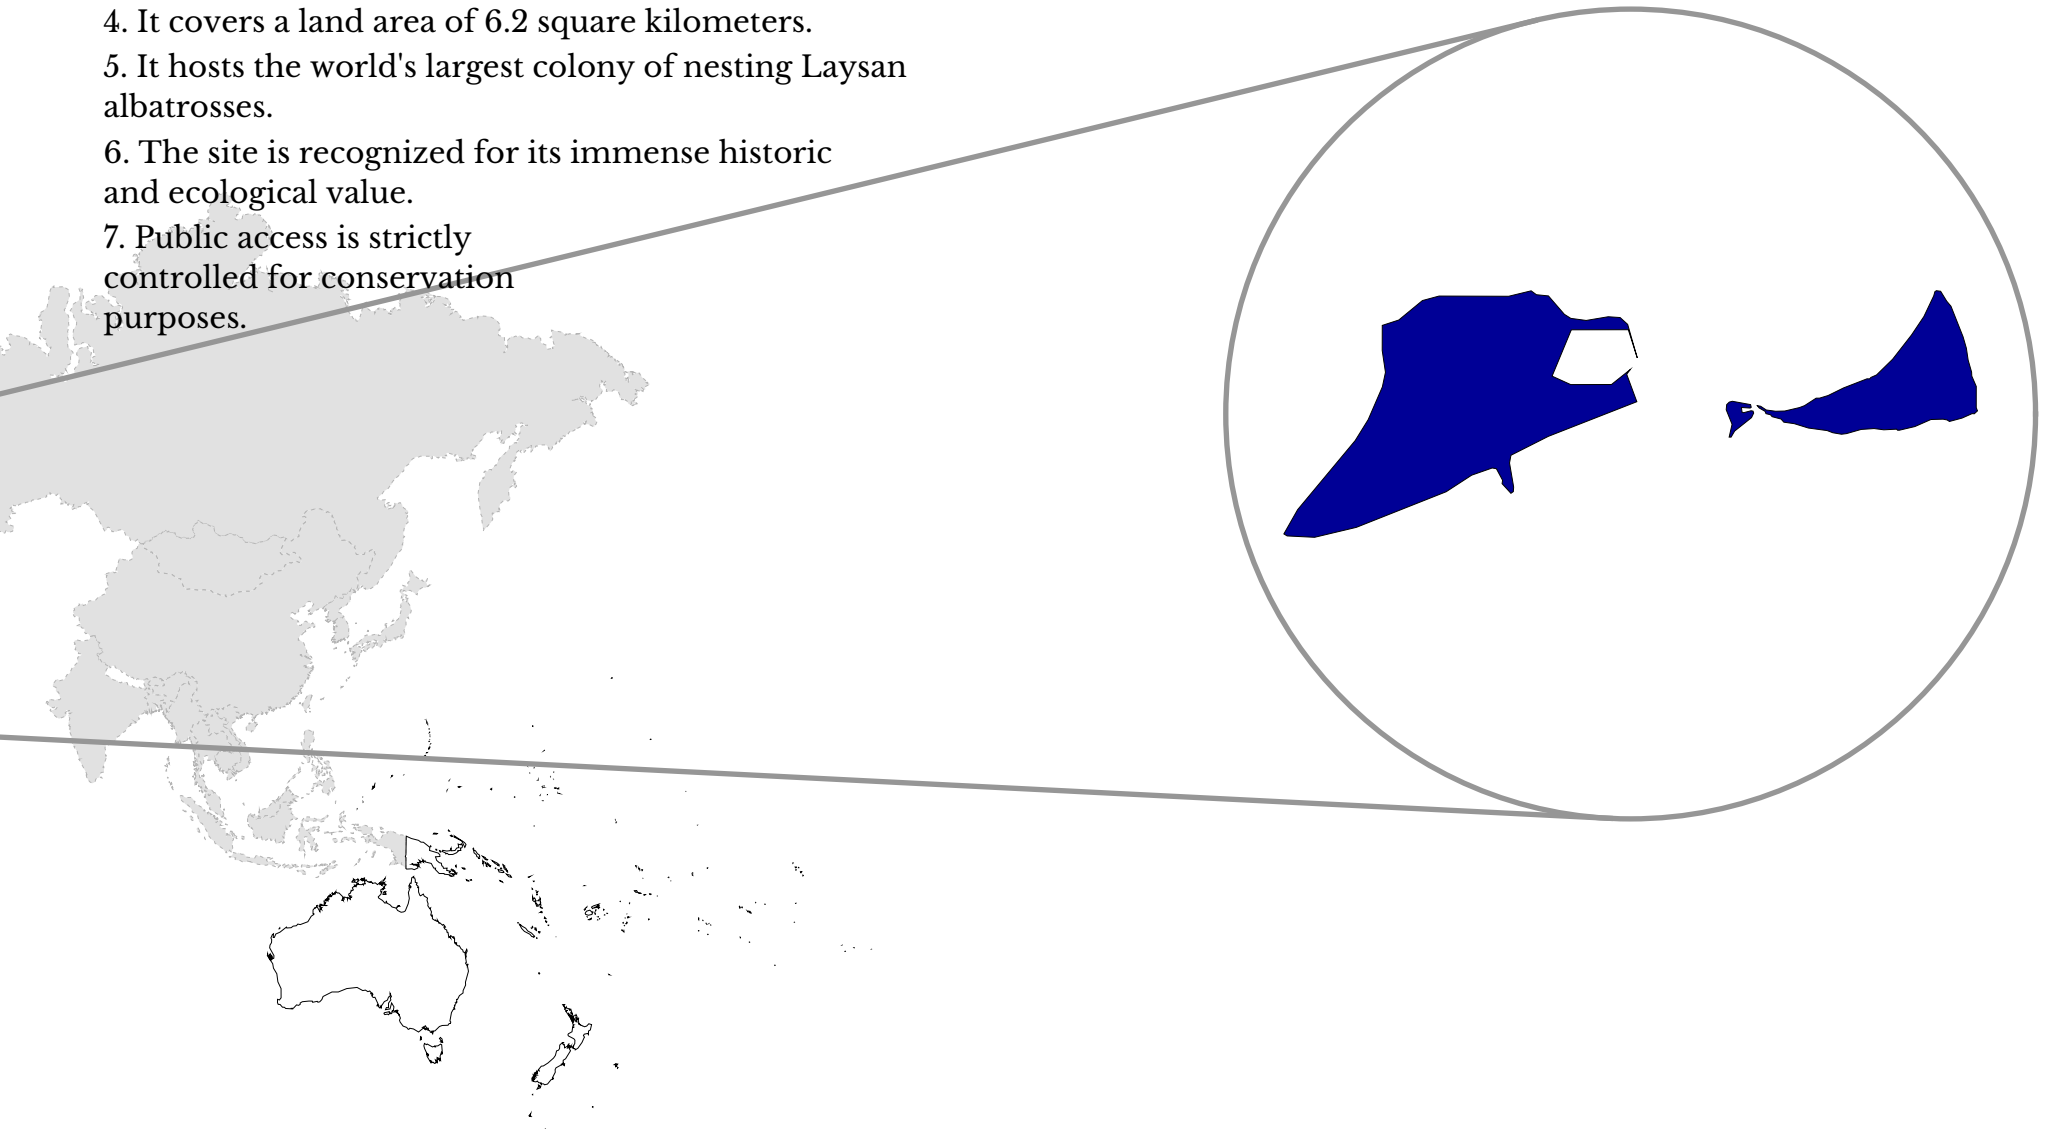

Fun Facts about Marshall Islands

1. This nation consists of 29 coral atolls and five islands.
2. It covers a total land area of 181 square kilometers.
3. Majuro is the capital and largest population center.
4. Historically, the islands were used for nuclear testing in the mid-20th century.
5. It maintains a Compact of Free Association with the United States.
6. The economy is largely supported by foreign assistance and maritime services.
7. The culture is deeply connected to its maritime and navigating traditions.

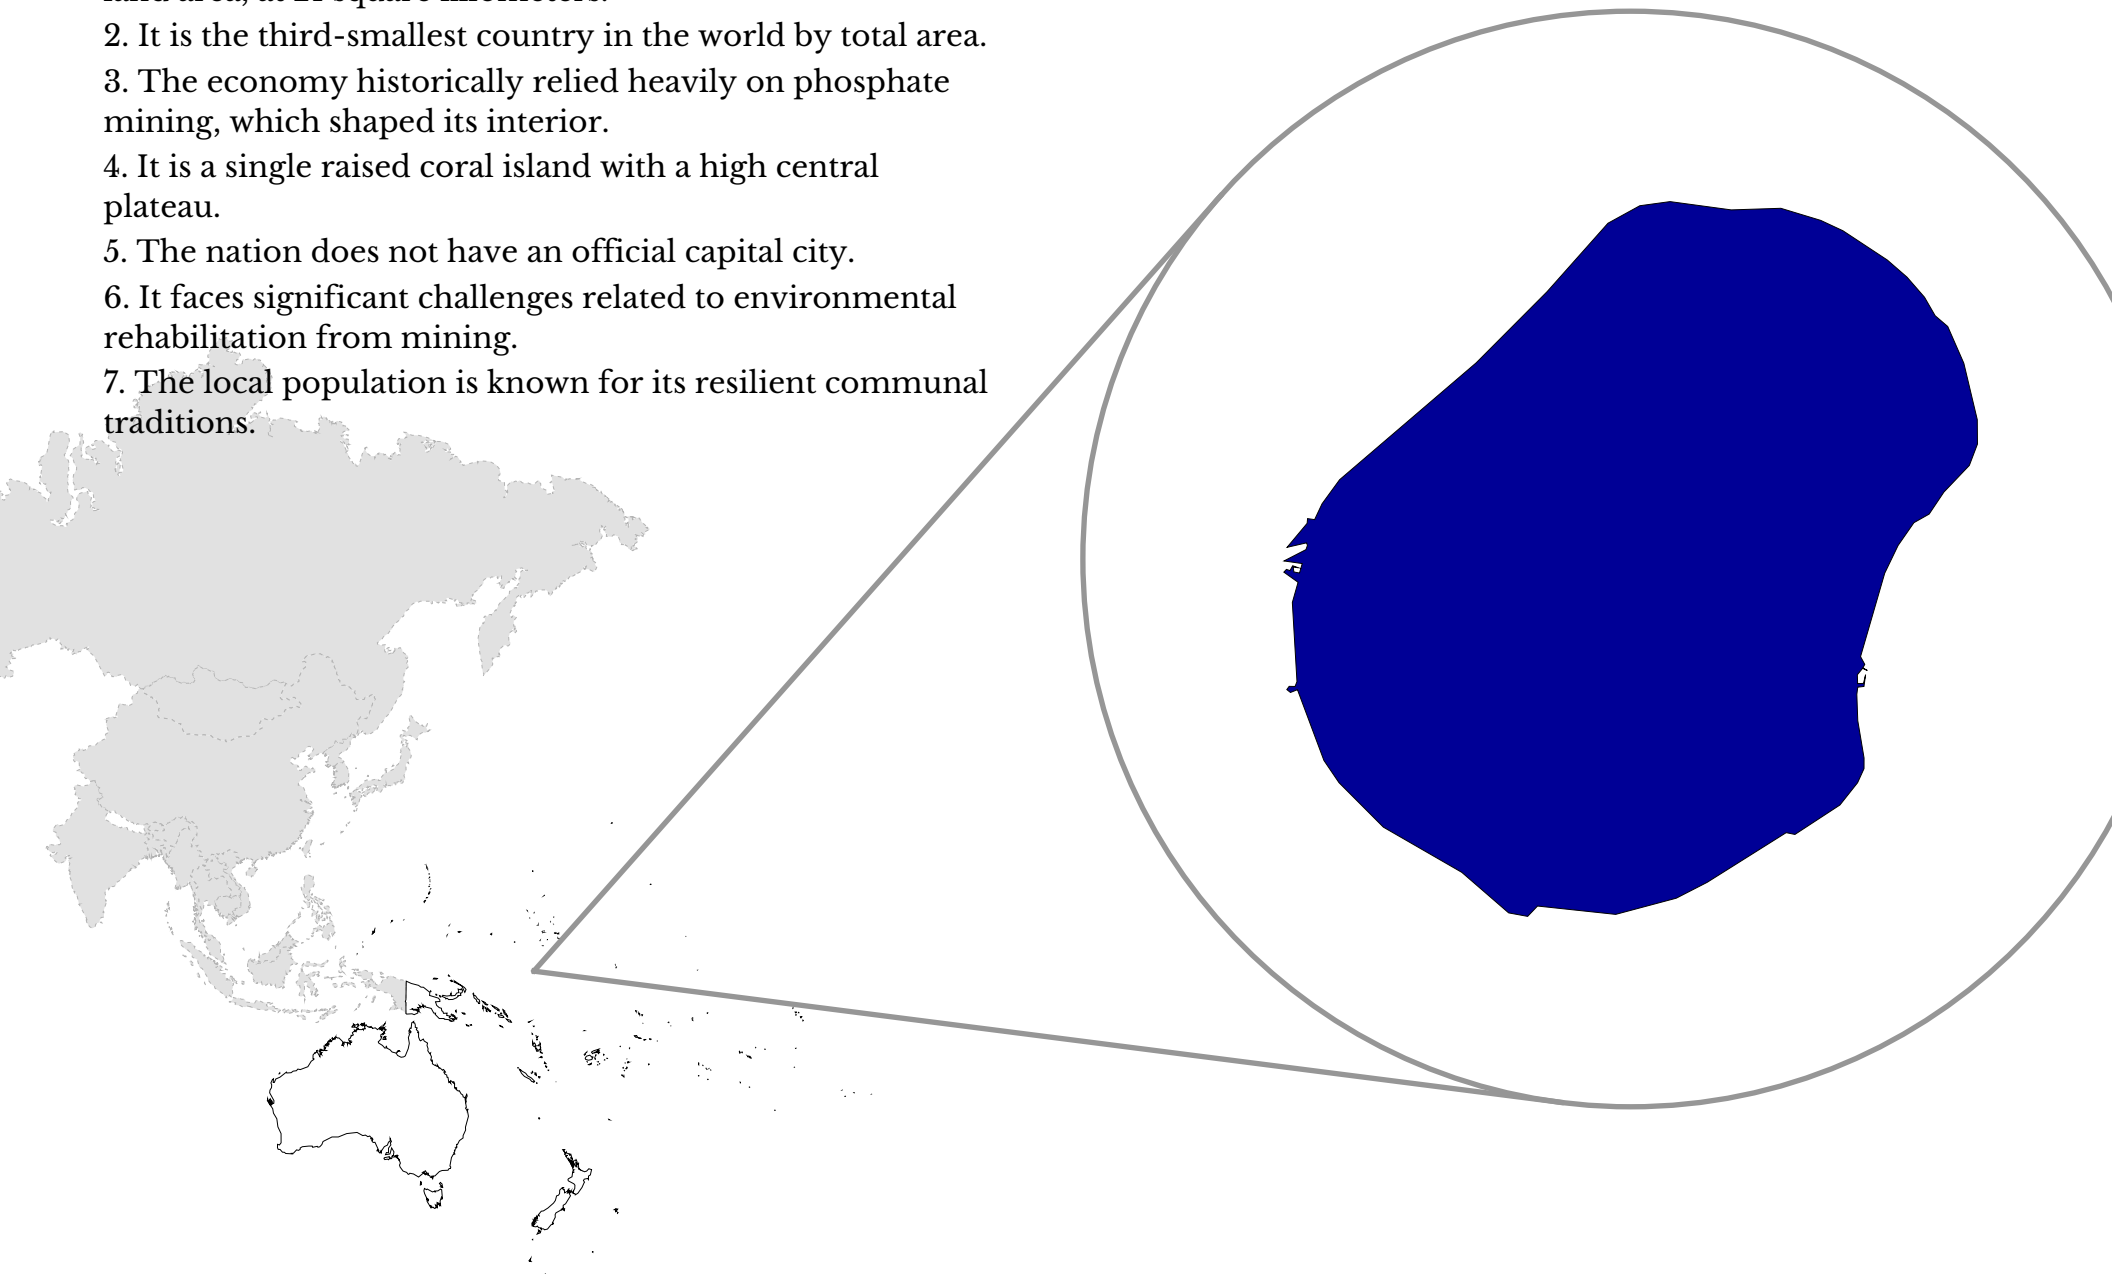

Fun Facts about Midway Atoll

1. This unincorporated U.S. territory is famous for a decisive 1942 naval battle.
2. It consists of three islands surrounding a protected coral lagoon.
3. The atoll is now managed as a National Wildlife Refuge.
4. It covers a land area of 6.2 square kilometers.
5. It hosts the world's largest colony of nesting Laysan albatrosses.
6. The site is recognized for its immense historic and ecological value.
7. Public access is strictly controlled for conservation purposes.

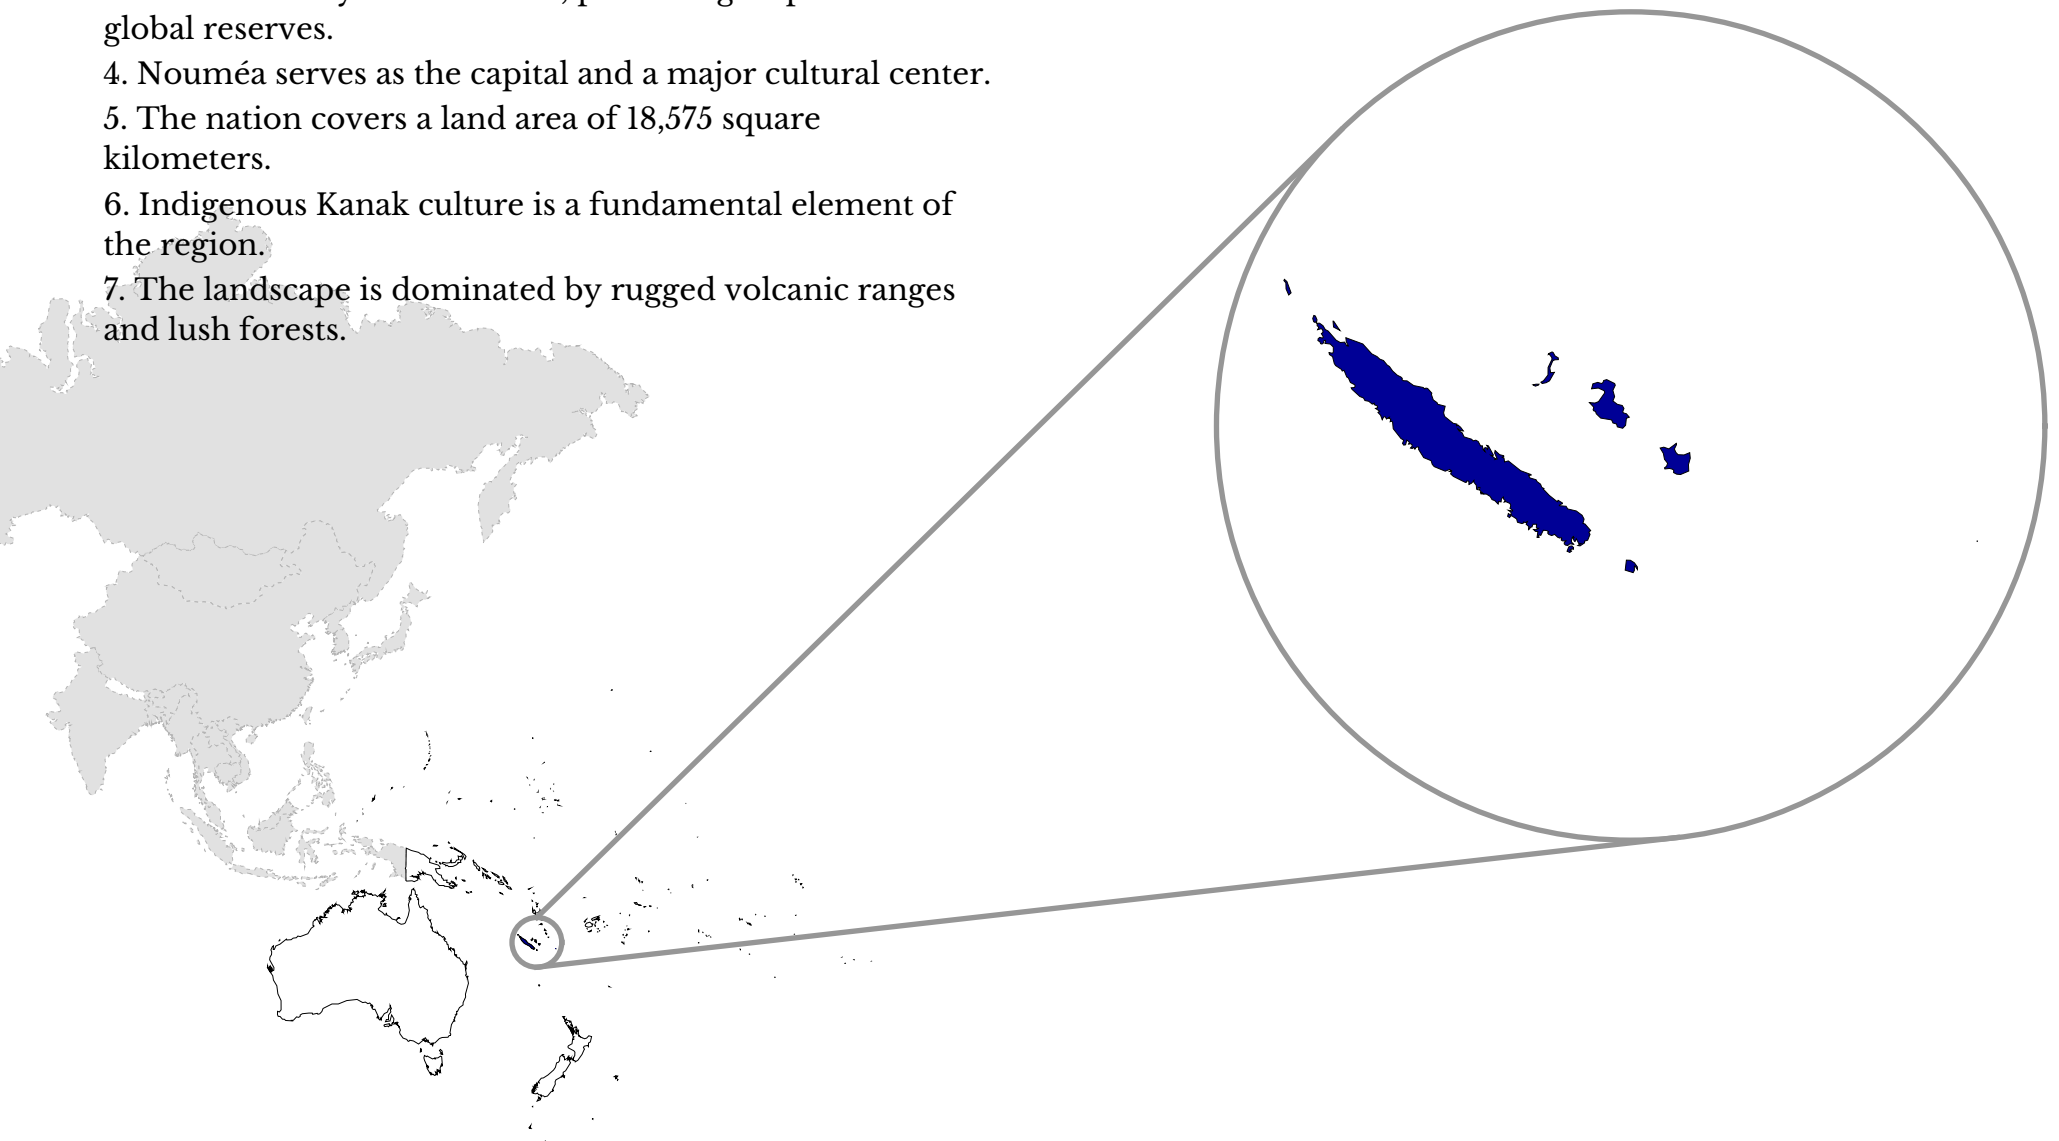

Fun Facts about Nauru

1. This sovereign nation is the smallest island country by land area, at 21 square kilometers.
2. It is the third-smallest country in the world by total area.
3. The economy historically relied heavily on phosphate mining, which shaped its interior.
4. It is a single raised coral island with a high central plateau.
5. The nation does not have an official capital city.
6. It faces significant challenges related to environmental rehabilitation from mining.
7. The local population is known for its resilient communal traditions.

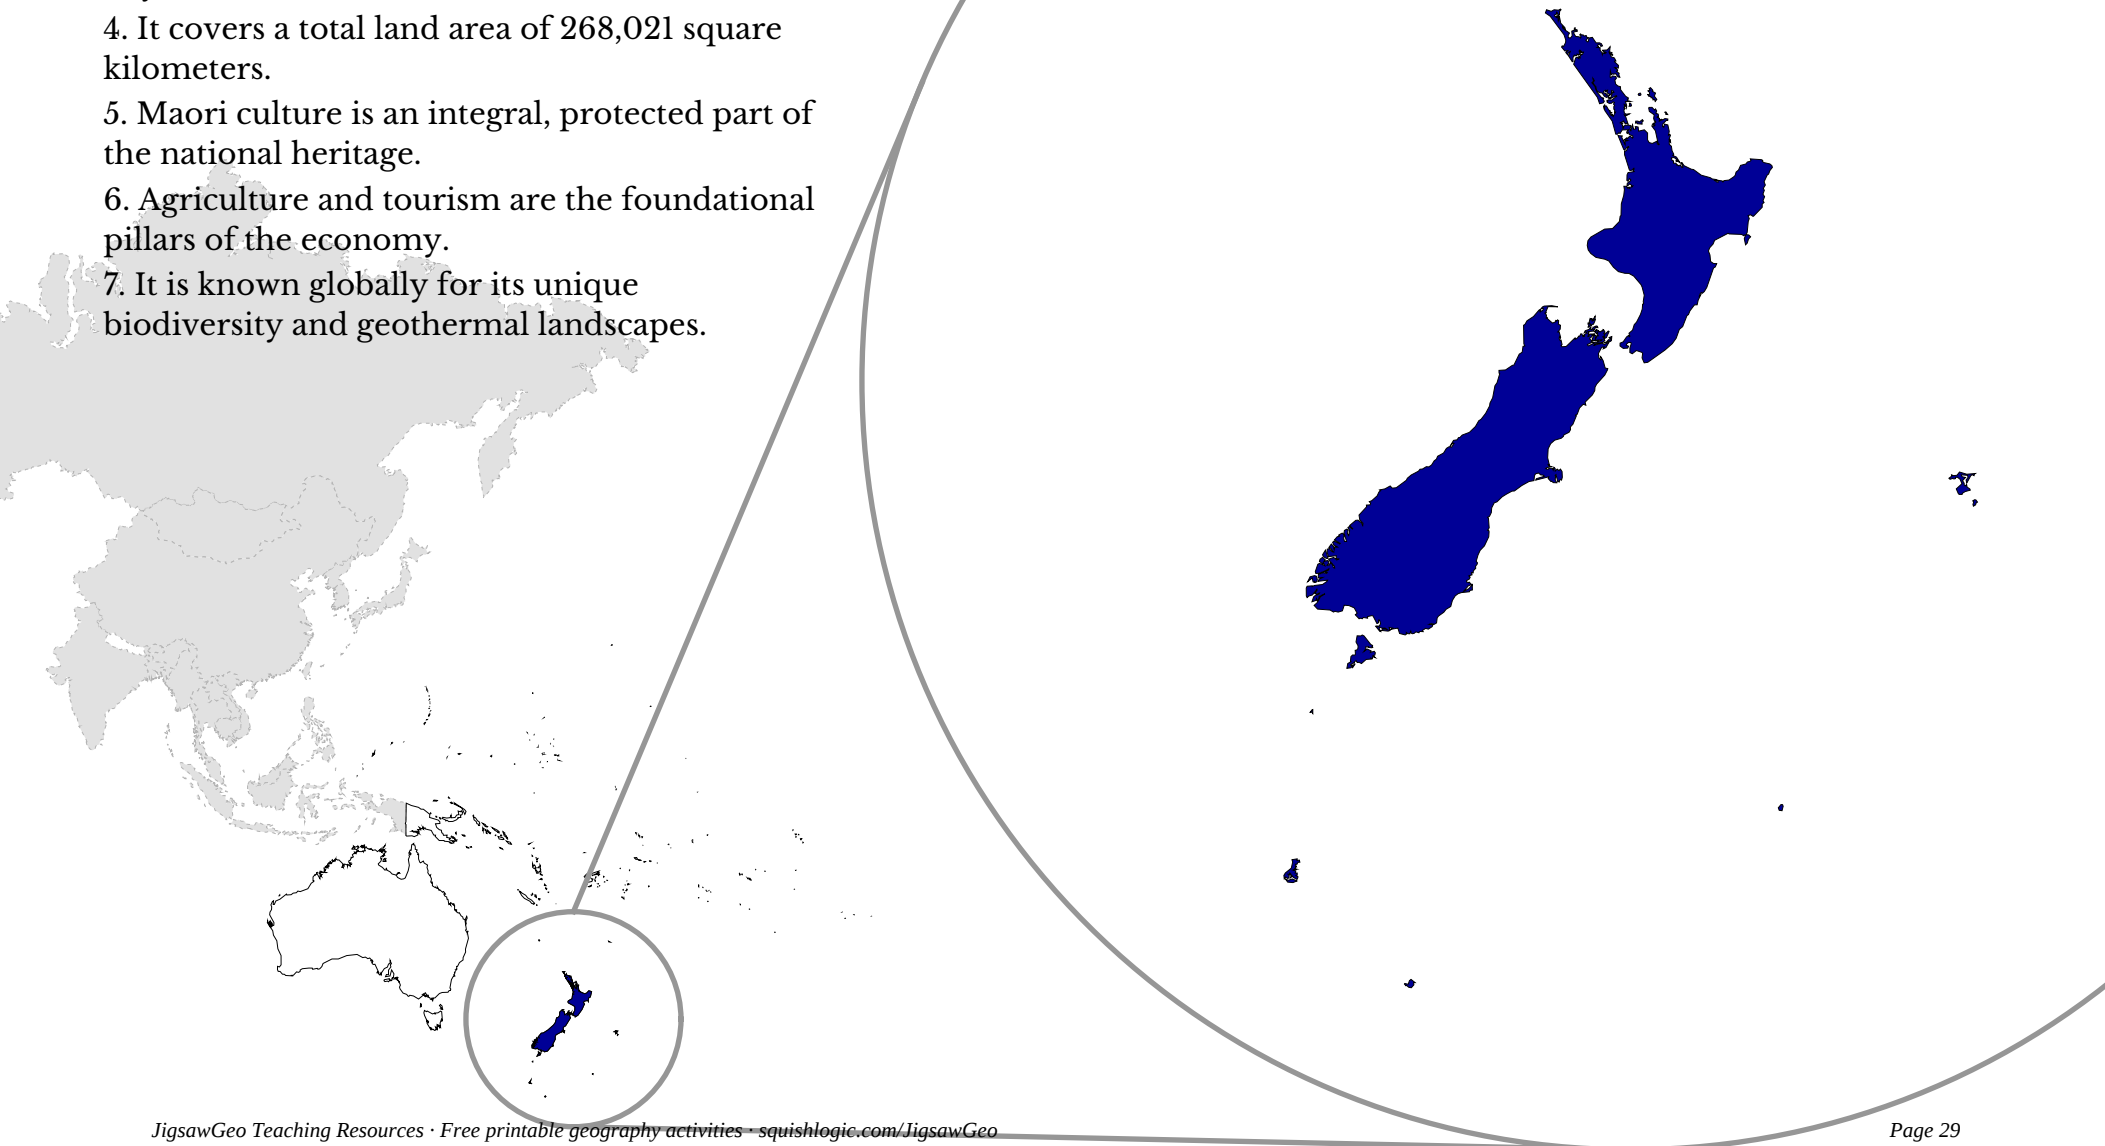

Fun Facts about New Caledonia

1. This French overseas special collectivity is located in the Southwest Pacific.
2. Its barrier reef is the second-largest globally, behind the Great Barrier Reef.
3. It is incredibly rich in nickel, possessing 25 percent of global reserves.
4. Nouméa serves as the capital and a major cultural center.
5. The nation covers a land area of 18,575 square kilometers.
6. Indigenous Kanak culture is a fundamental element of the region.
7. The landscape is dominated by rugged volcanic ranges and lush forests.

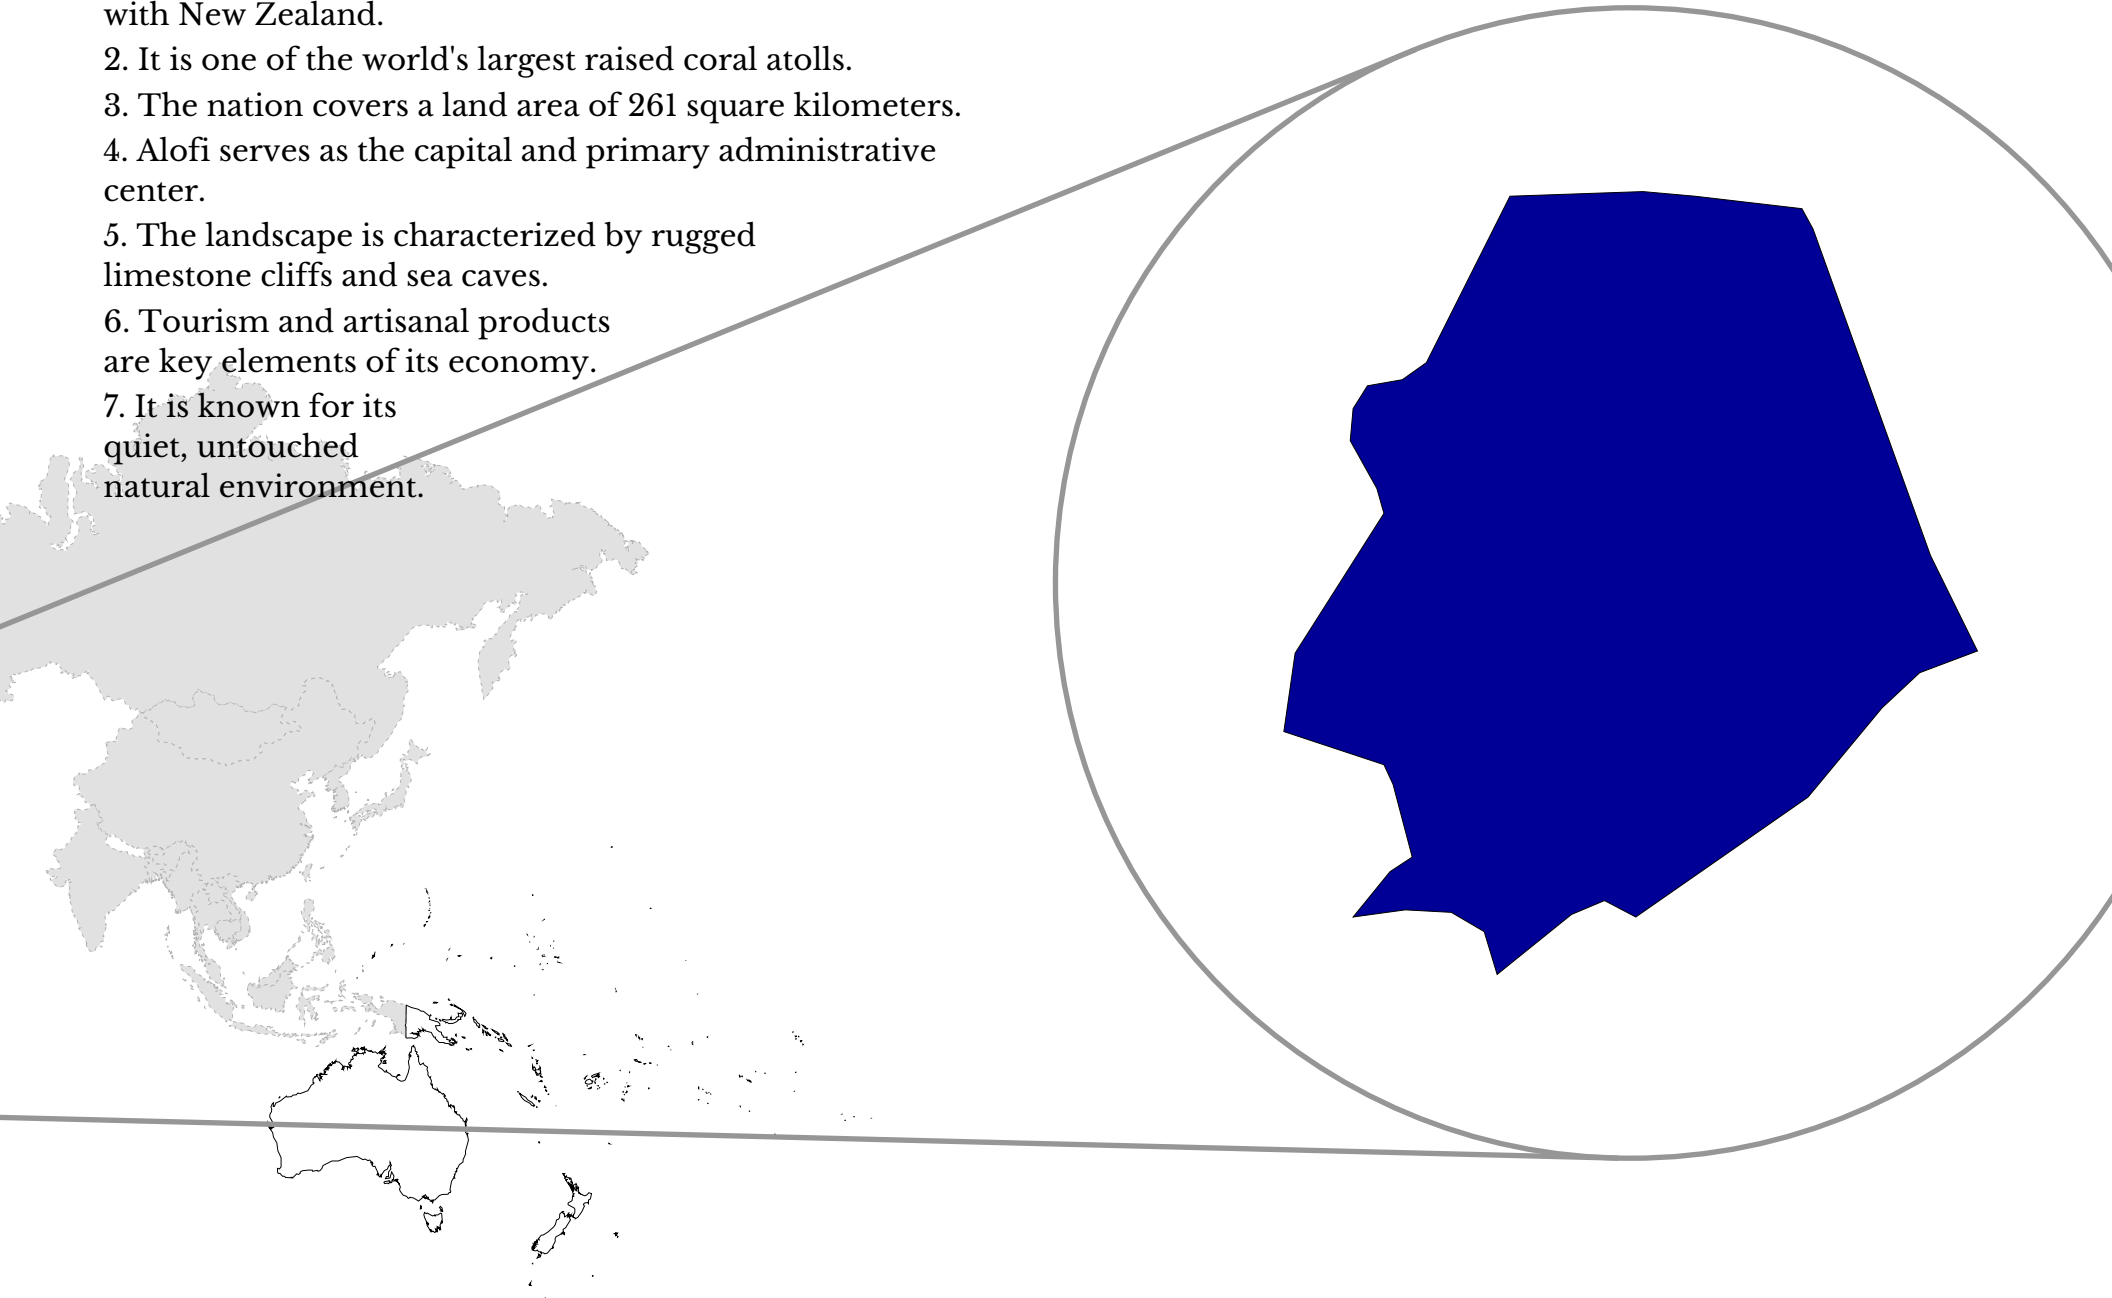

Fun Facts about New Zealand

1. This nation consists of two primary islands and numerous smaller ones.
2. Its geography is characterized by dramatic mountains, including the Southern Alps.
3. The capital, Wellington, is the southernmost capital city in the world.
4. It covers a total land area of 268,021 square kilometers.
5. Maori culture is an integral, protected part of the national heritage.
6. Agriculture and tourism are the foundational pillars of the economy.
7. It is known globally for its unique biodiversity and geothermal landscapes.

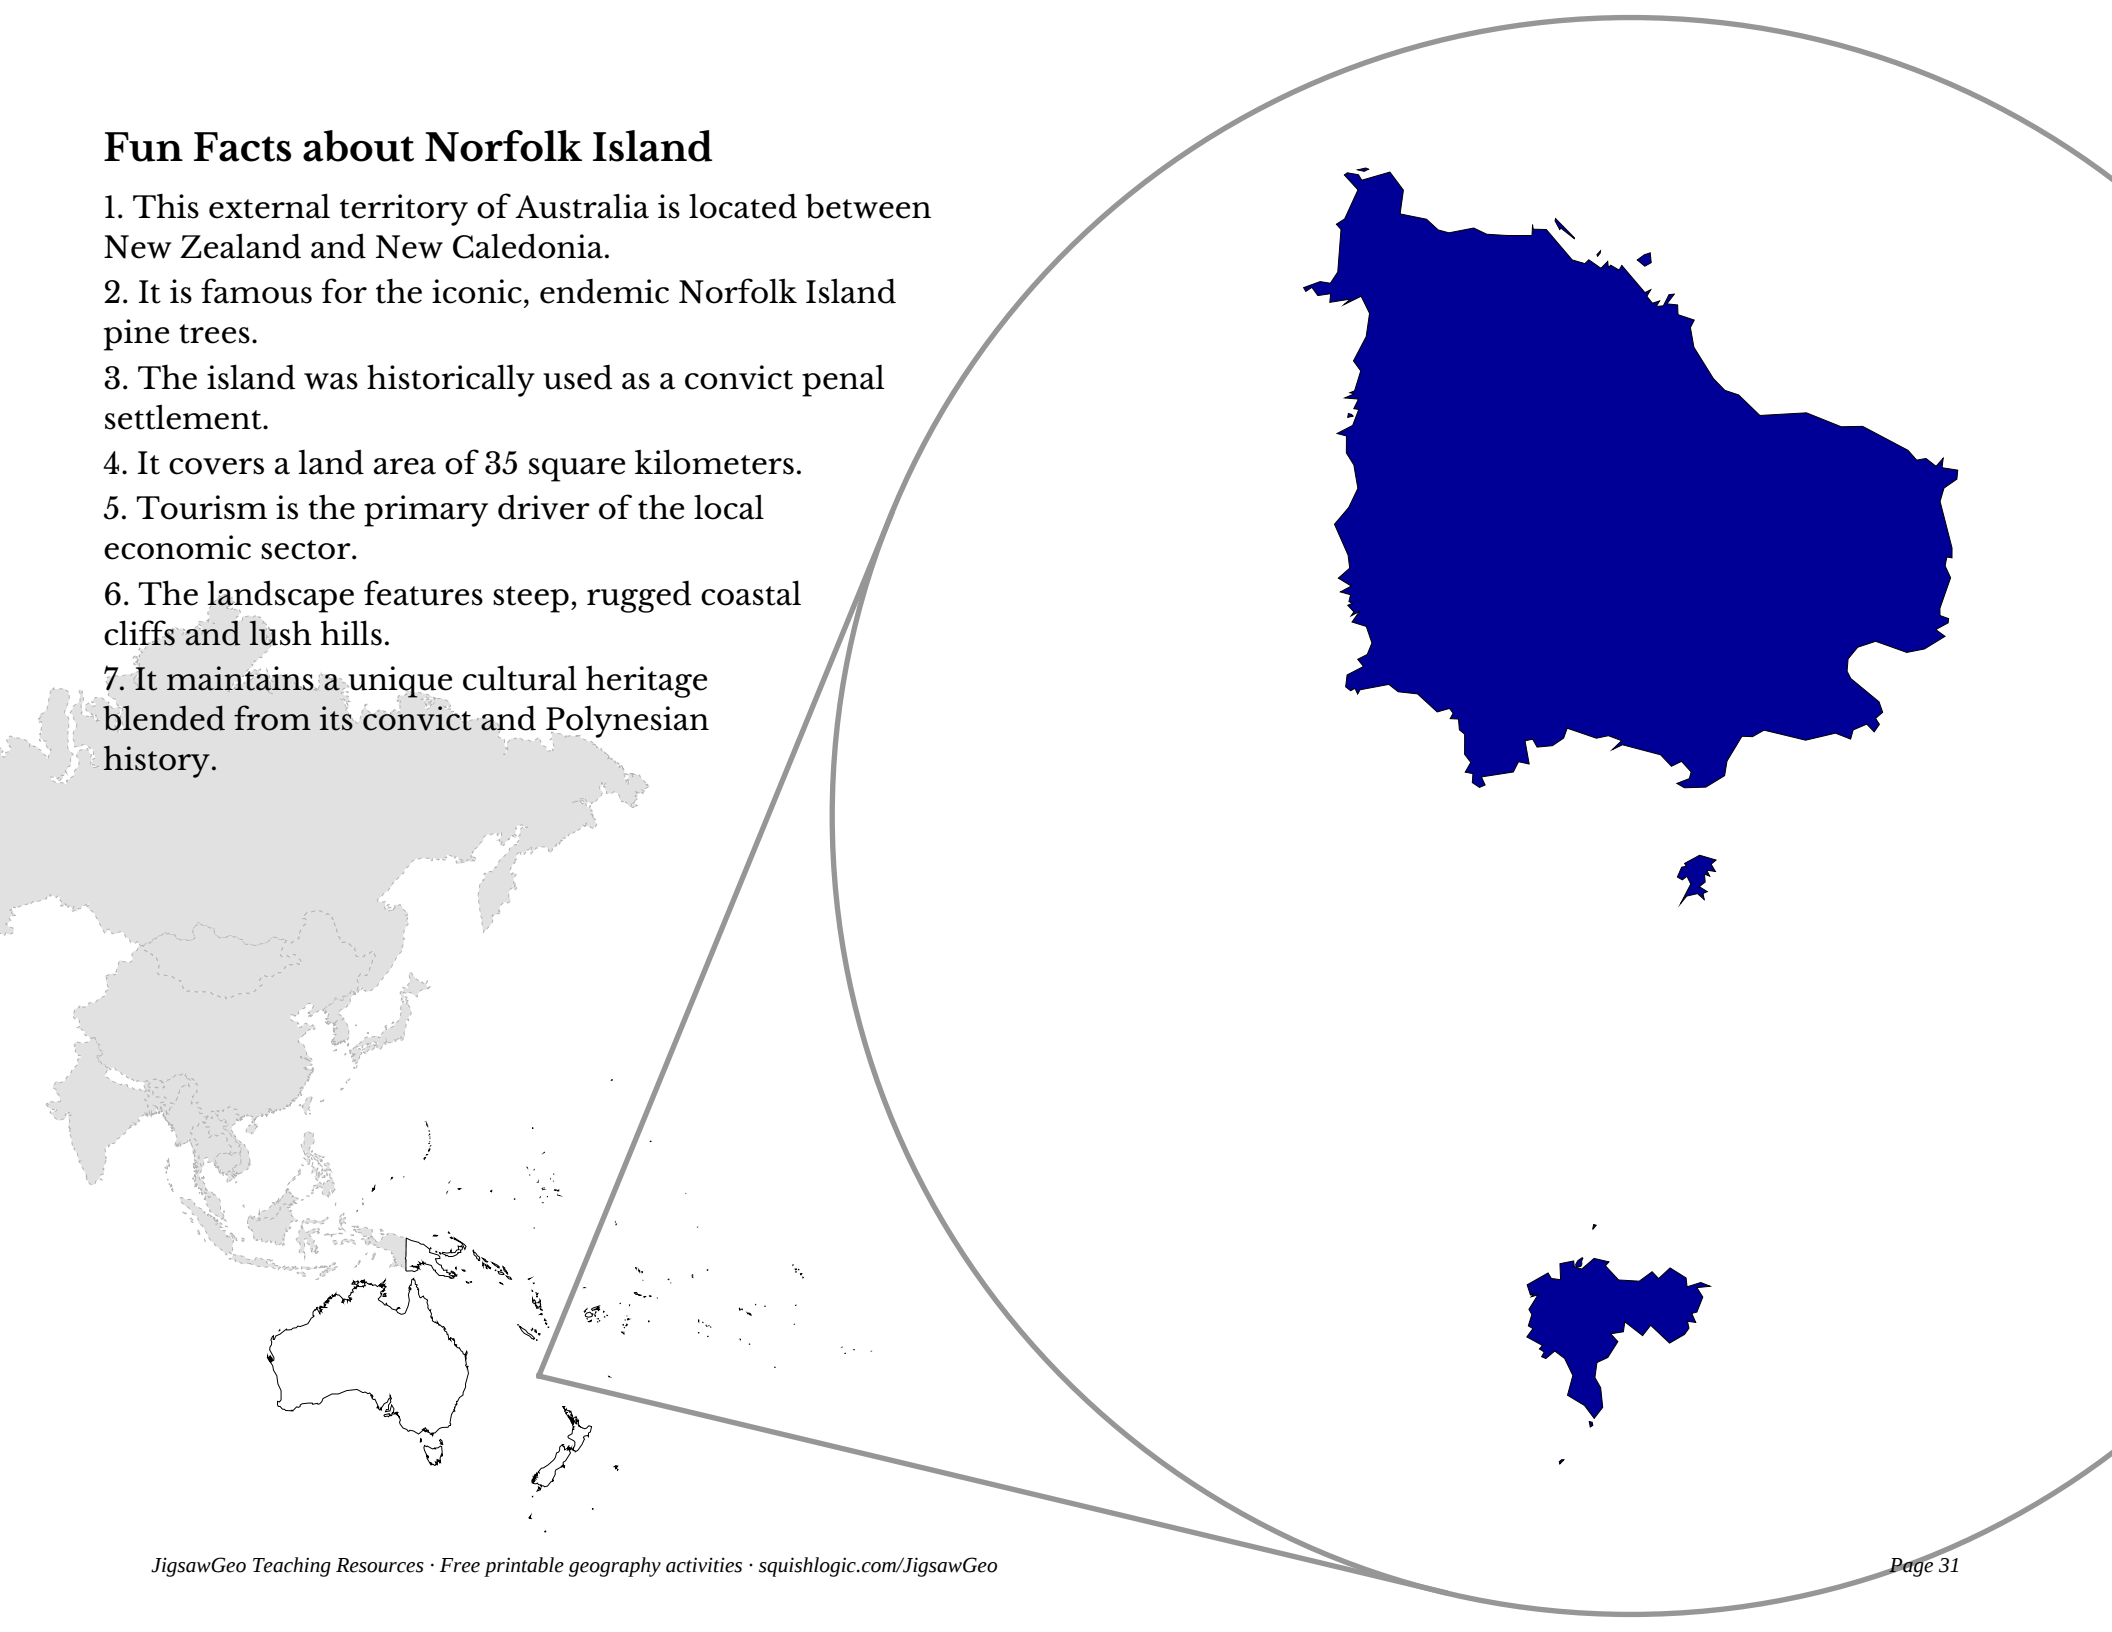

Fun Facts about Niue

1. This self-governing island nation is in free association with New Zealand.
2. It is one of the world's largest raised coral atolls.
3. The nation covers a land area of 261 square kilometers.
4. Alofi serves as the capital and primary administrative center.
5. The landscape is characterized by rugged limestone cliffs and sea caves.
6. Tourism and artisanal products are key elements of its economy.
7. It is known for its quiet, untouched natural environment.

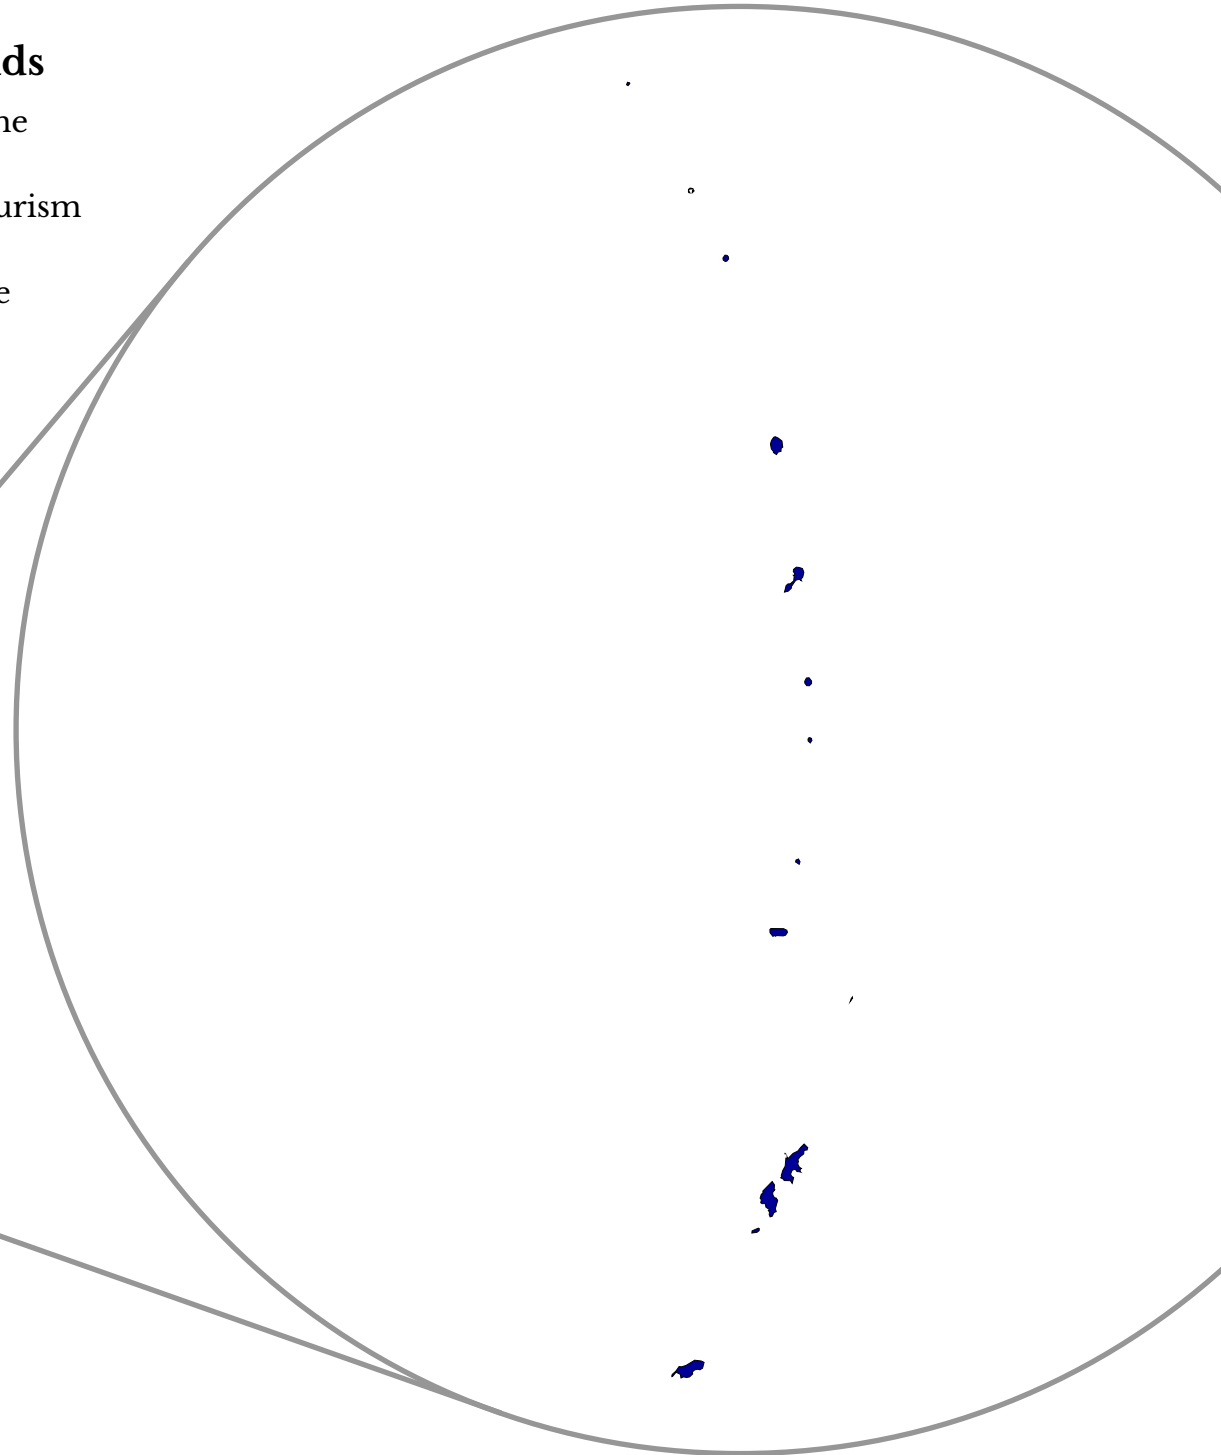

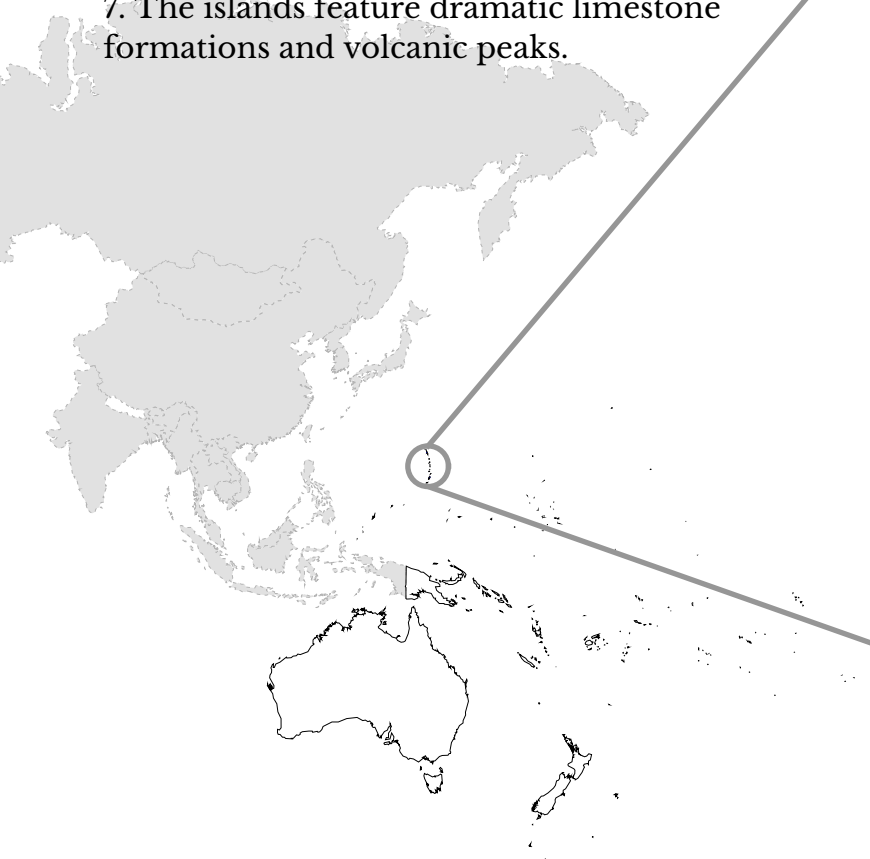

Fun Facts about Norfolk Island

1. This external territory of Australia is located between New Zealand and New Caledonia.
2. It is famous for the iconic, endemic Norfolk Island pine trees.
3. The island was historically used as a convict penal settlement.
4. It covers a land area of 35 square kilometers.
5. Tourism is the primary driver of the local economic sector.
6. The landscape features steep, rugged coastal cliffs and lush hills.
7. It maintains a unique cultural heritage blended from its convict and Polynesian history.

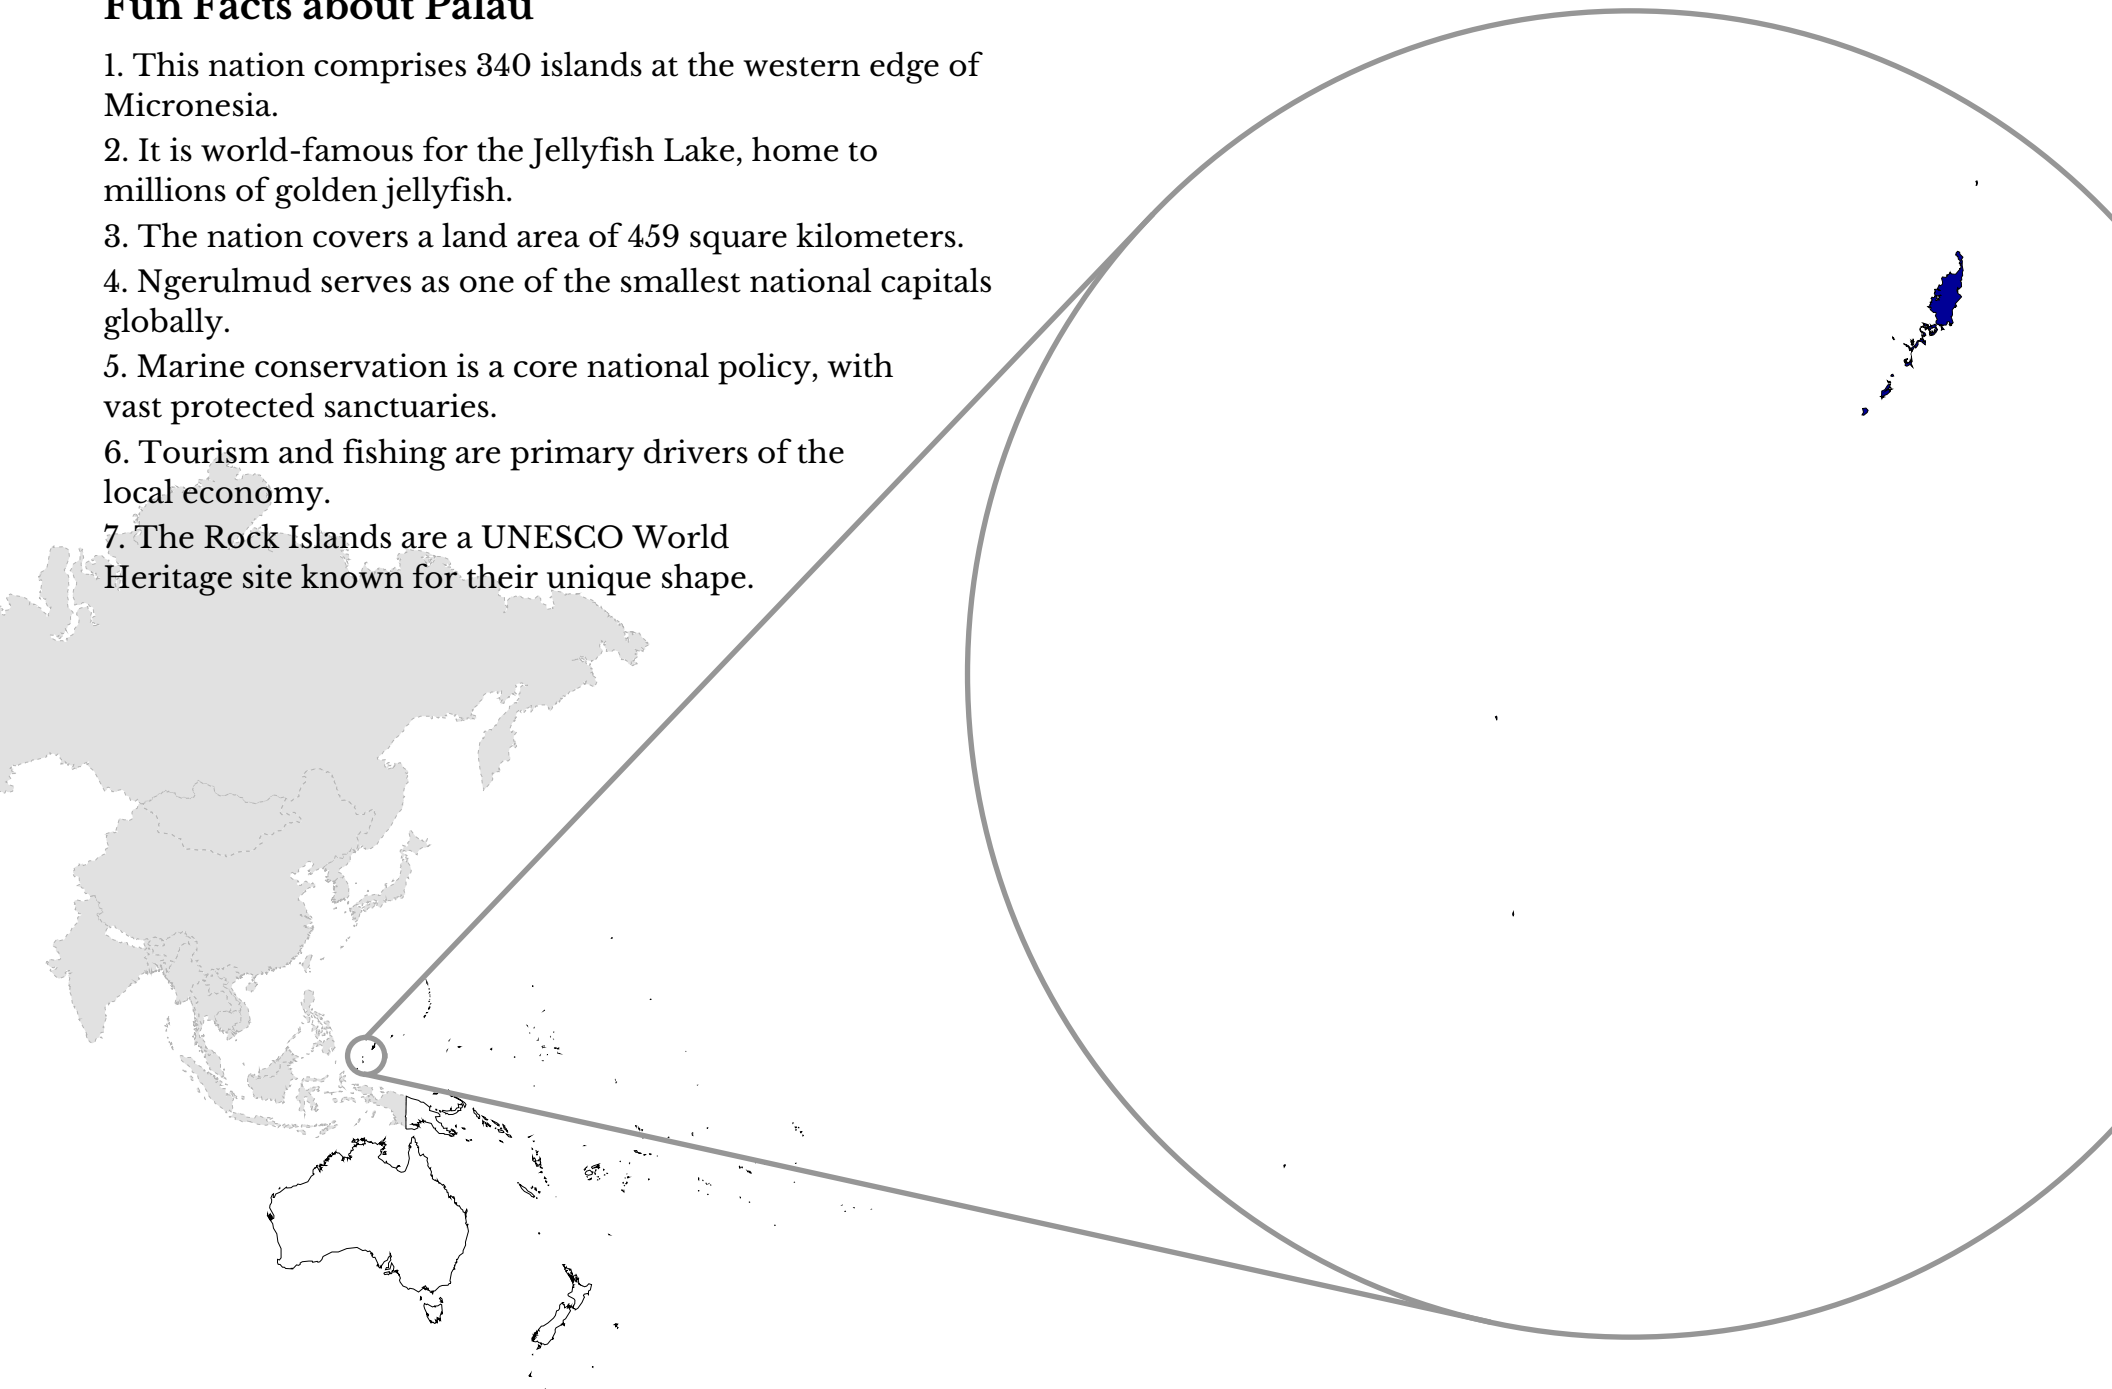

Fun Facts about Northern Mariana Islands

1. This U.S. commonwealth comprises 14 islands in the Western Pacific.
2. Saipan is the capital and the primary center for tourism and commerce.
3. The region is located near the Mariana Trench, the deepest point on Earth.
4. It covers a land area of 464 square kilometers.
5. The economy is heavily influenced by the tourism and hospitality sectors.
6. Indigenous Chamorro and Carolinian cultures define the local identity.
7. The islands feature dramatic limestone formations and volcanic peaks.

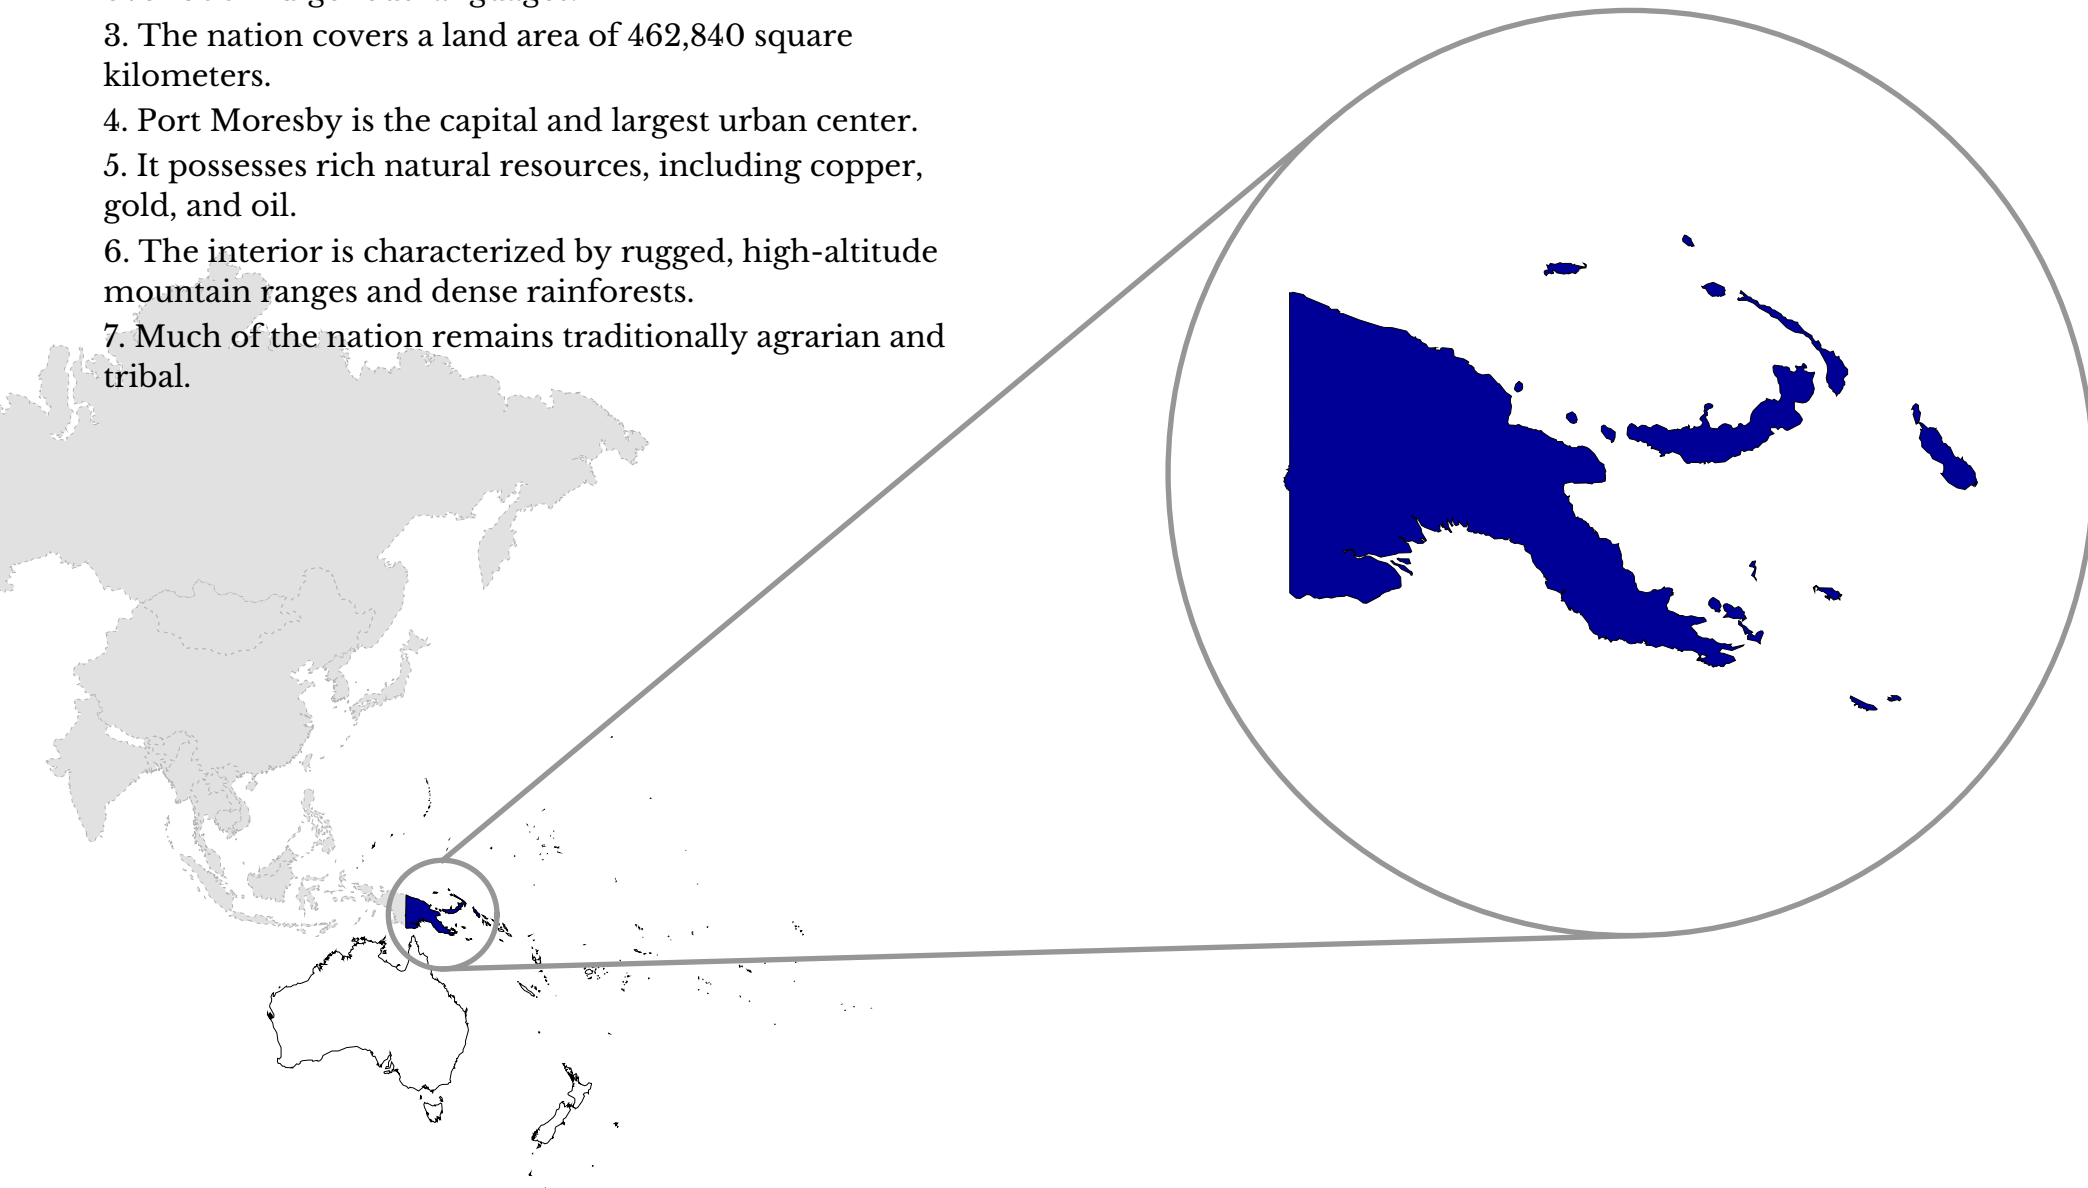

Fun Facts about Palau

1. This nation comprises 340 islands at the western edge of Micronesia.
2. It is world-famous for the Jellyfish Lake, home to millions of golden jellyfish.
3. The nation covers a land area of 459 square kilometers.
4. Ngerulmud serves as one of the smallest national capitals globally.
5. Marine conservation is a core national policy, with vast protected sanctuaries.
6. Tourism and fishing are primary drivers of the local economy.
7. The Rock Islands are a UNESCO World Heritage site known for their unique shape.

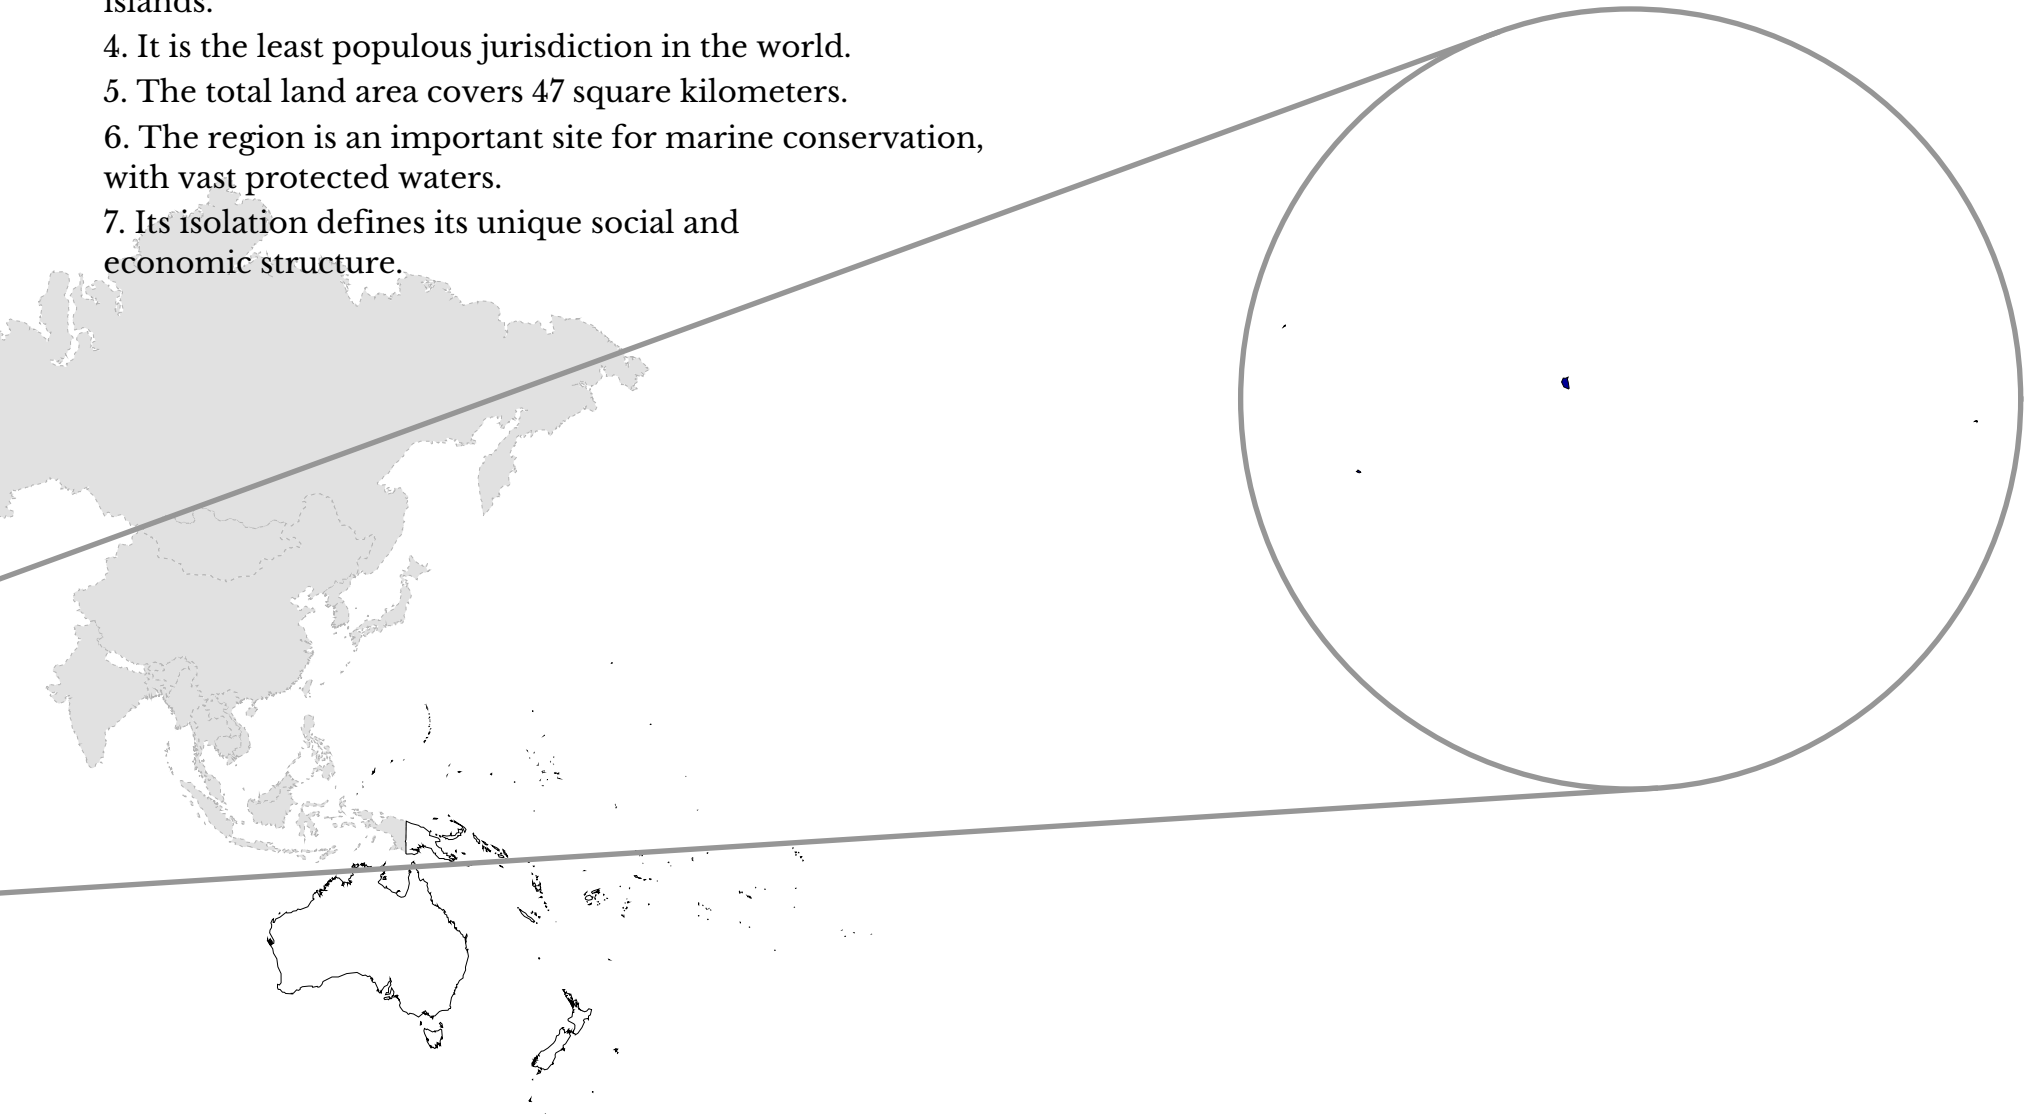

Fun Facts about Papua New Guinea

1. This nation shares the island of New Guinea with Indonesia.
2. It is one of the most culturally diverse countries, with over 800 indigenous languages.
3. The nation covers a land area of 462,840 square kilometers.
4. Port Moresby is the capital and largest urban center.
5. It possesses rich natural resources, including copper, gold, and oil.
6. The interior is characterized by rugged, high-altitude mountain ranges and dense rainforests.
7. Much of the nation remains traditionally agrarian and tribal.

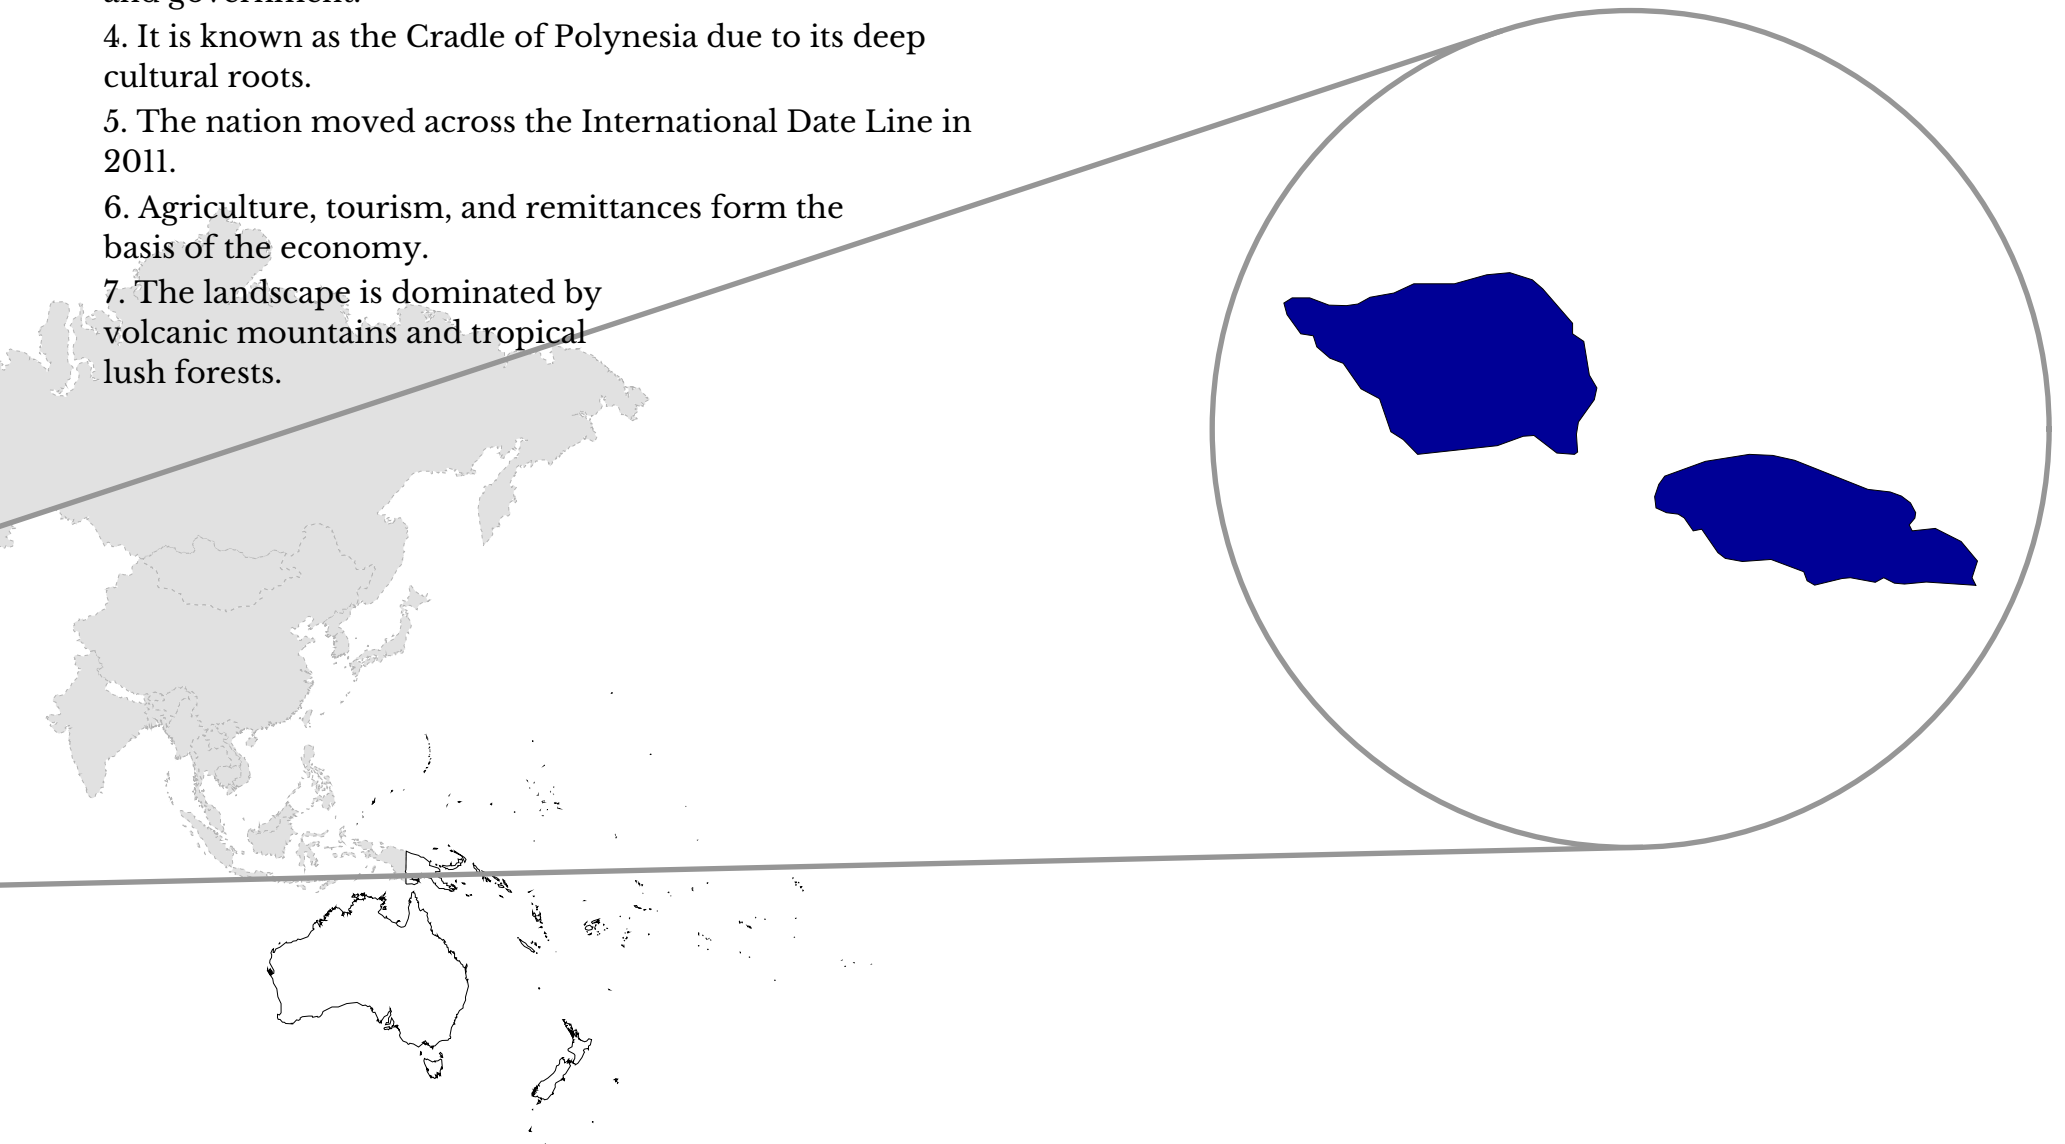

Fun Facts about Pitcairn Islands

1. This British Overseas Territory consists of four remote volcanic islands.
2. It is famous as the refuge for the mutineers of the HMS Bounty.
3. Adamstown is the capital and the only settlement on the islands.
4. It is the least populous jurisdiction in the world.
5. The total land area covers 47 square kilometers.
6. The region is an important site for marine conservation, with vast protected waters.
7. Its isolation defines its unique social and economic structure.

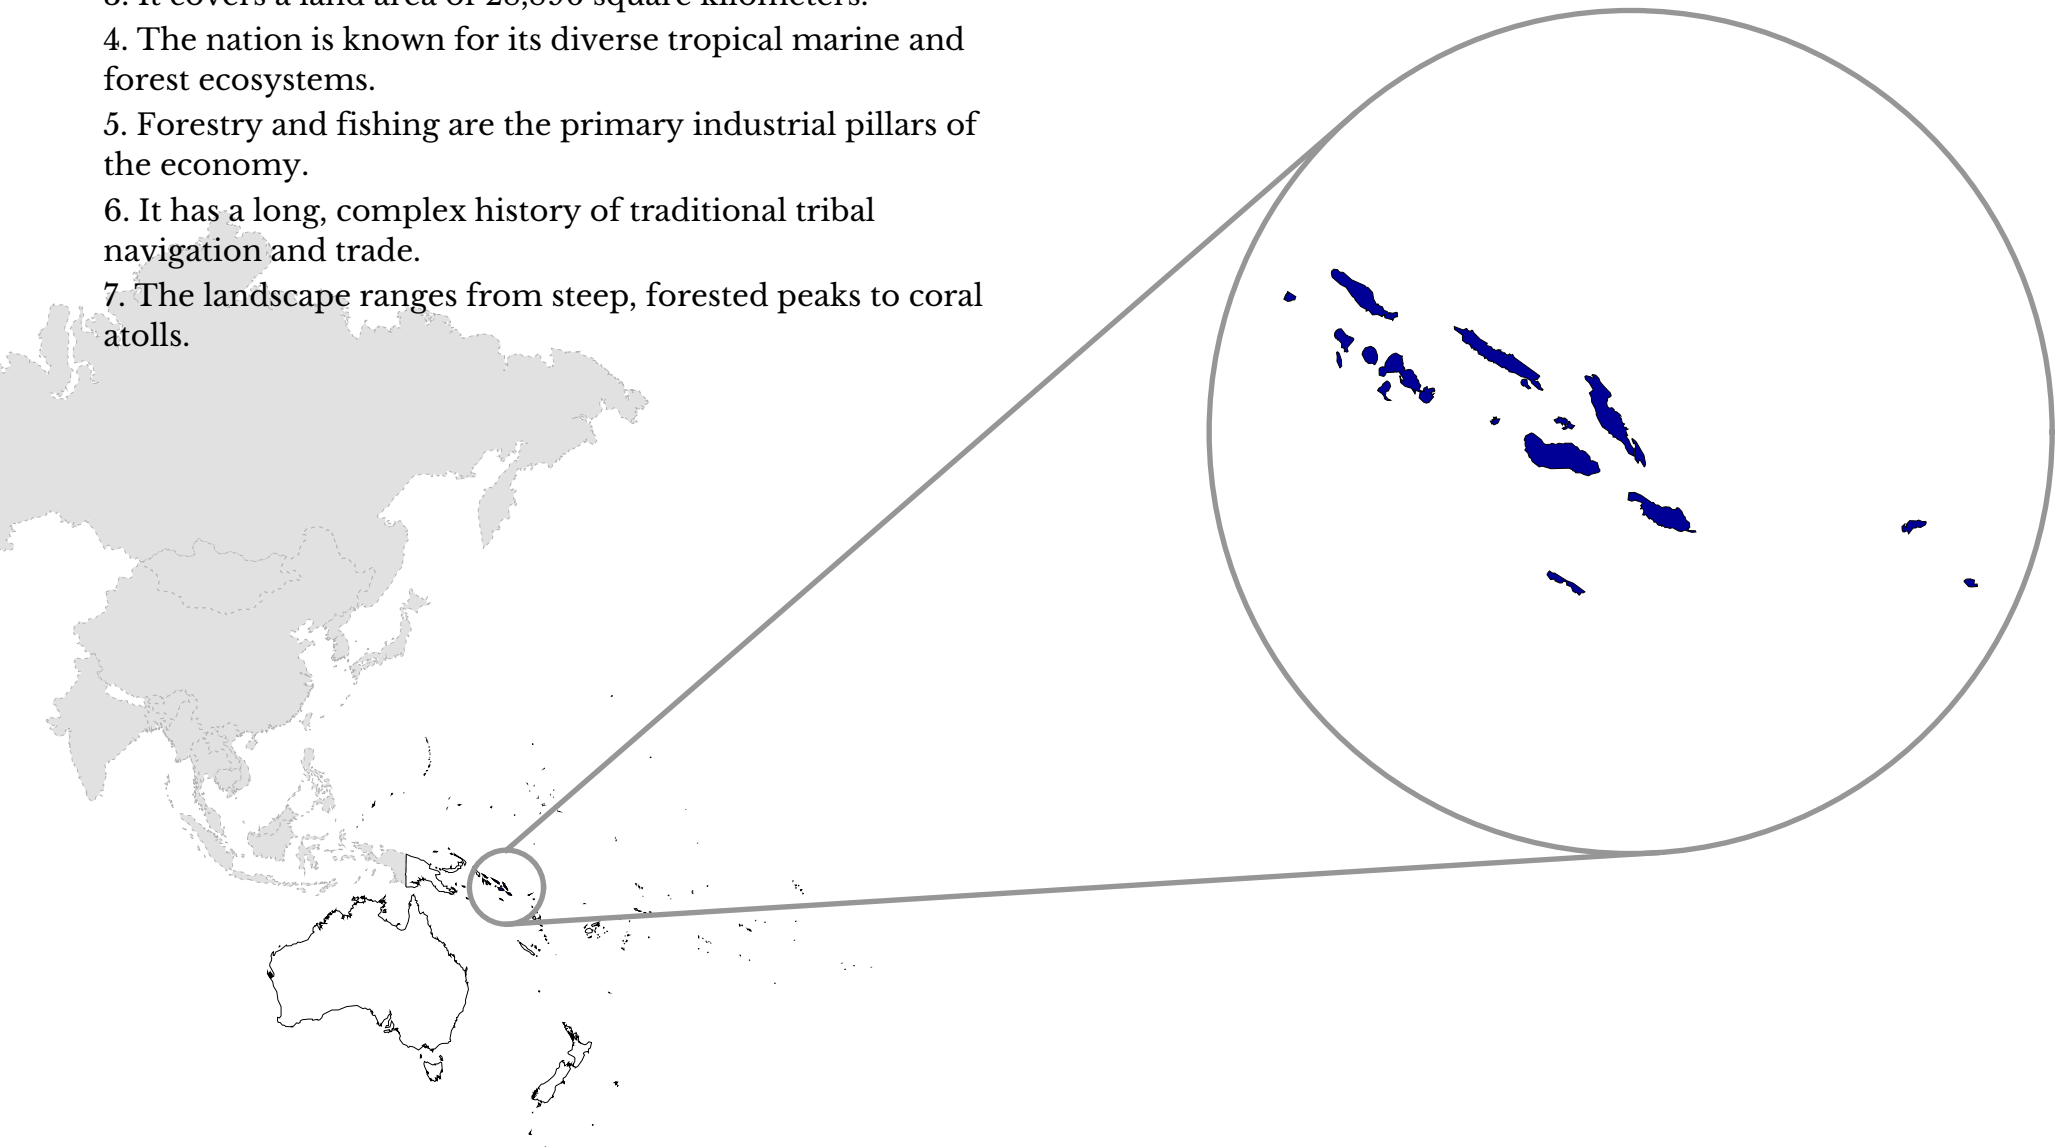

Fun Facts about Samoa

1. This sovereign nation comprises two main islands and several smaller islets.
2. It covers a land area of 2,842 square kilometers.
3. Apia is the capital and the primary center for commerce and government.
4. It is known as the Cradle of Polynesia due to its deep cultural roots.
5. The nation moved across the International Date Line in 2011.
6. Agriculture, tourism, and remittances form the basis of the economy.
7. The landscape is dominated by volcanic mountains and tropical lush forests.

Fun Facts about Solomon Islands

1. This nation consists of an archipelago of nearly 1,000 islands.
2. Honiara is the capital, located on the island of Guadalcanal.
3. It covers a land area of 28,896 square kilometers.
4. The nation is known for its diverse tropical marine and forest ecosystems.
5. Forestry and fishing are the primary industrial pillars of the economy.
6. It has a long, complex history of traditional tribal navigation and trade.
7. The landscape ranges from steep, forested peaks to coral atolls.

Fun Facts about Tokelau

1. This non-self-governing territory of New Zealand consists of three coral atolls.
2. It has no capital city; administration rotates between the three atolls.
3. The nation covers a land area of 10 square kilometers.
4. It is one of the most remote and isolated inhabited places on Earth.
5. The entire nation runs on 100 percent solar energy.
6. Subsistence fishing and agriculture form the basis of local life.
7. Traditional culture and communal decision-making remain vital.

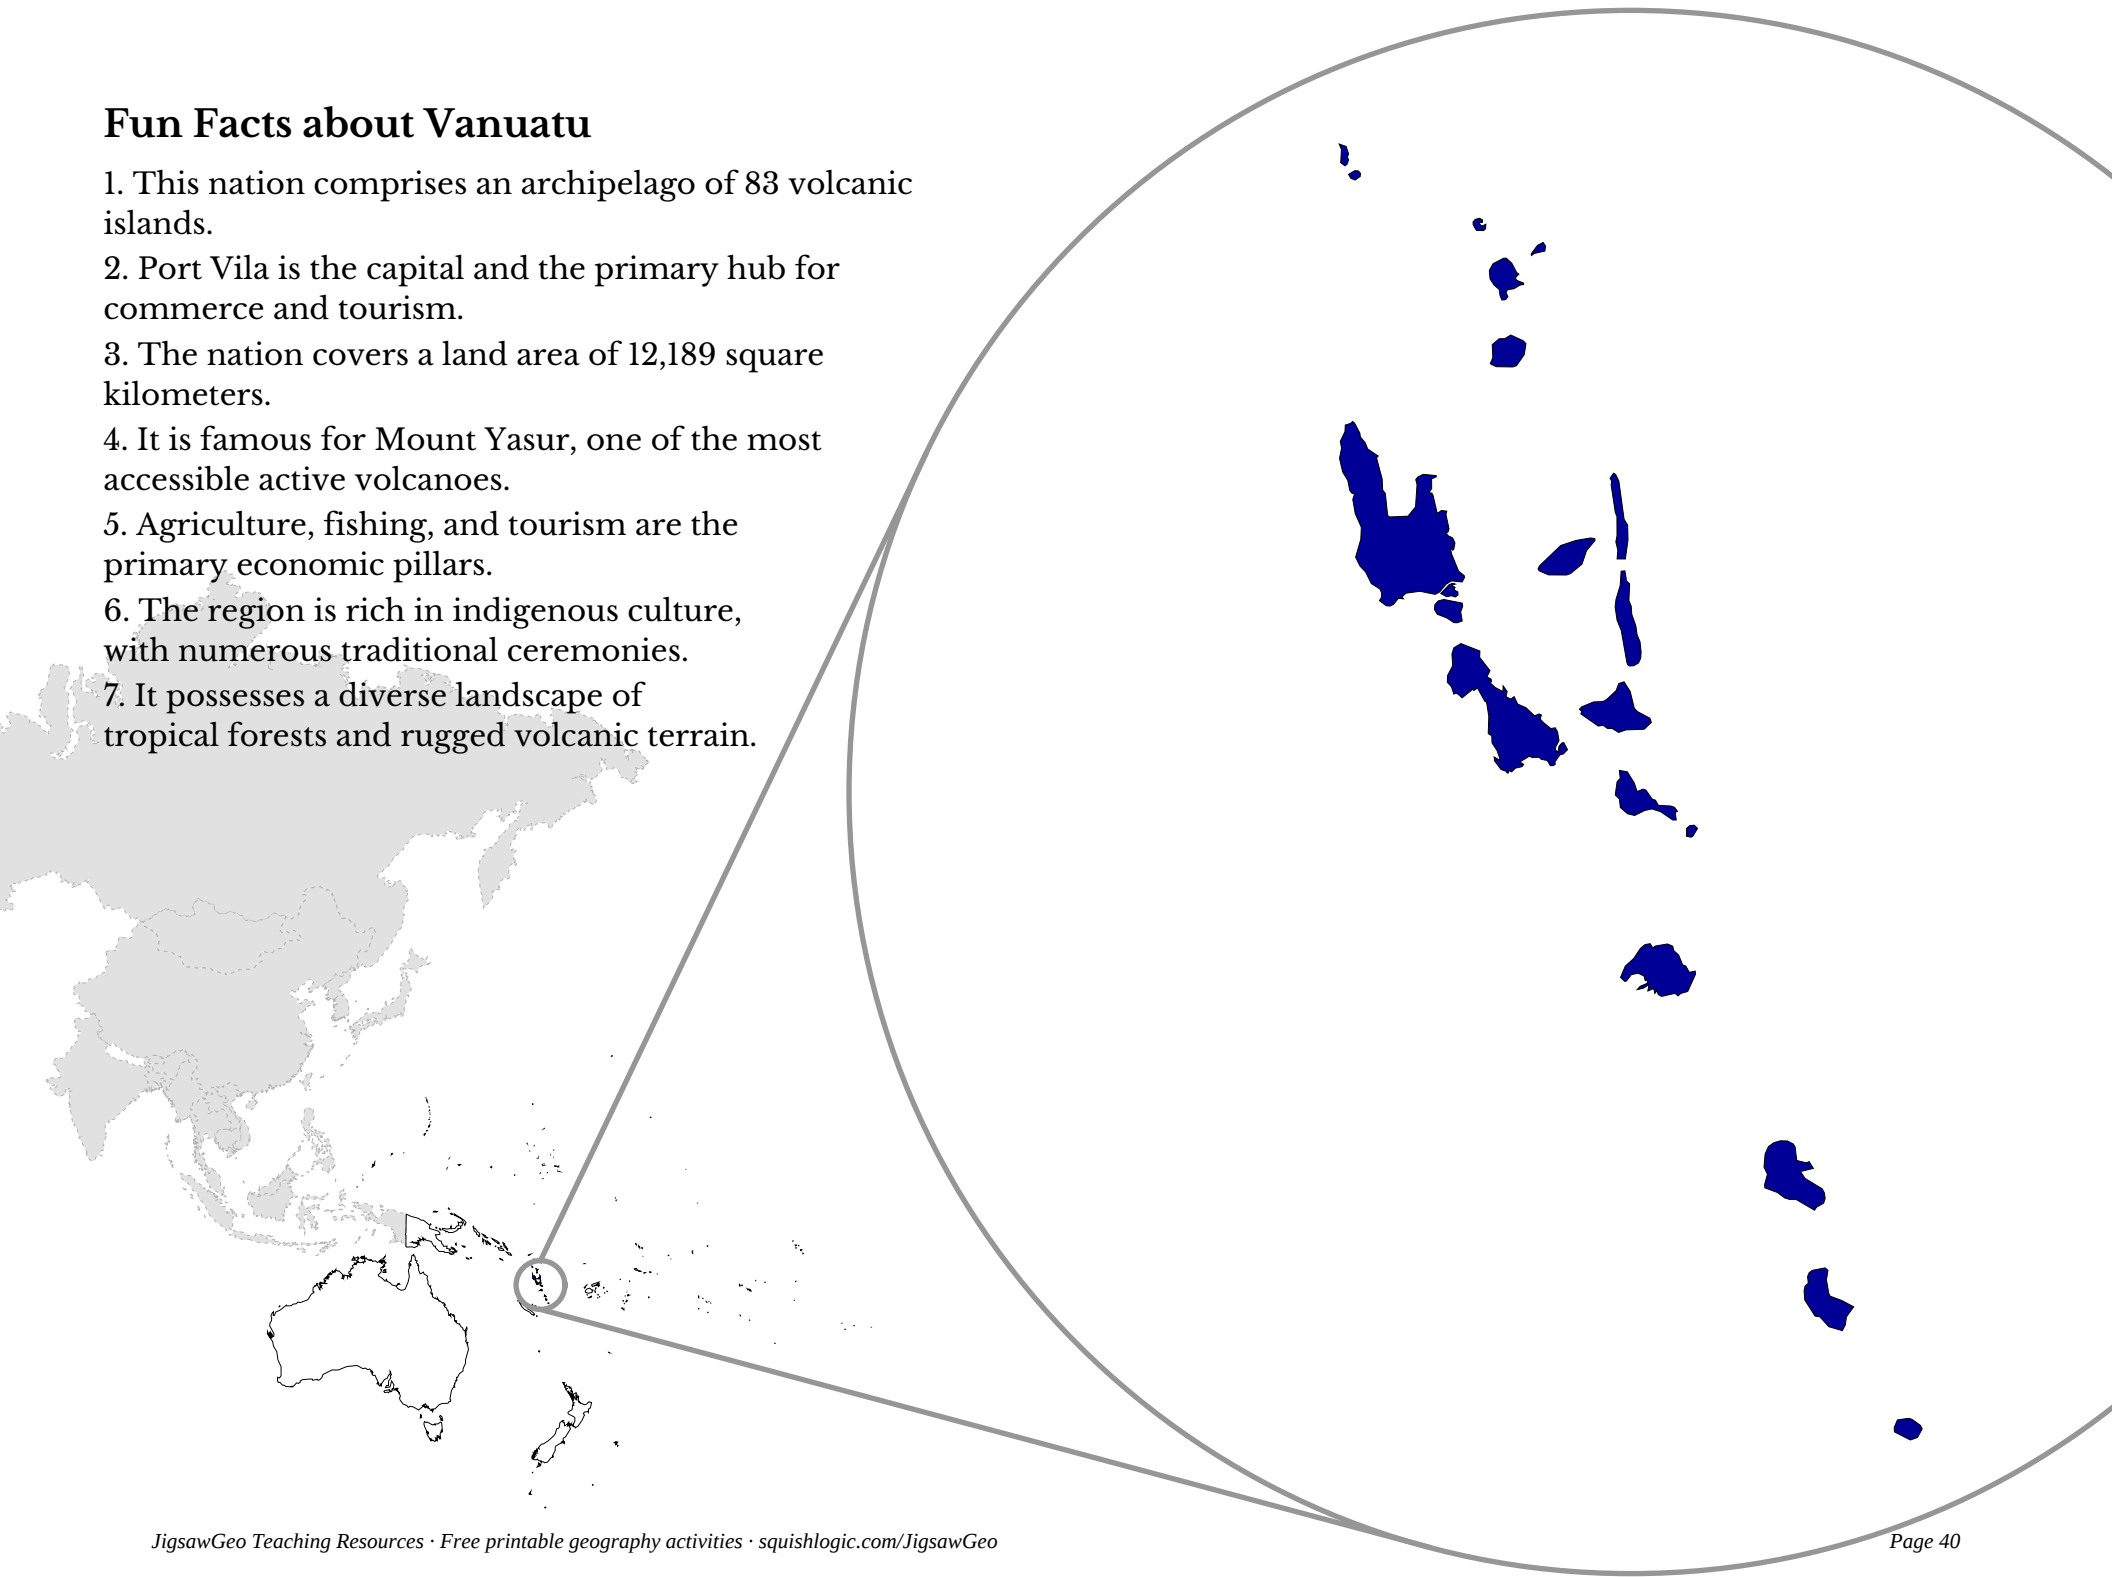

Fun Facts about Tonga

1. This sovereign nation is an archipelago of 171 islands, 45 of which are inhabited.
2. It is the only Pacific nation that was never colonized by a foreign power.
3. Nuku'alofa is the capital and primary commercial center.
4. The nation covers a land area of 747 square kilometers.
5. It is known as the Friendly Islands, a name given by explorer James Cook.
6. Agriculture and tourism are the foundational pillars of the economy.
7. Traditional

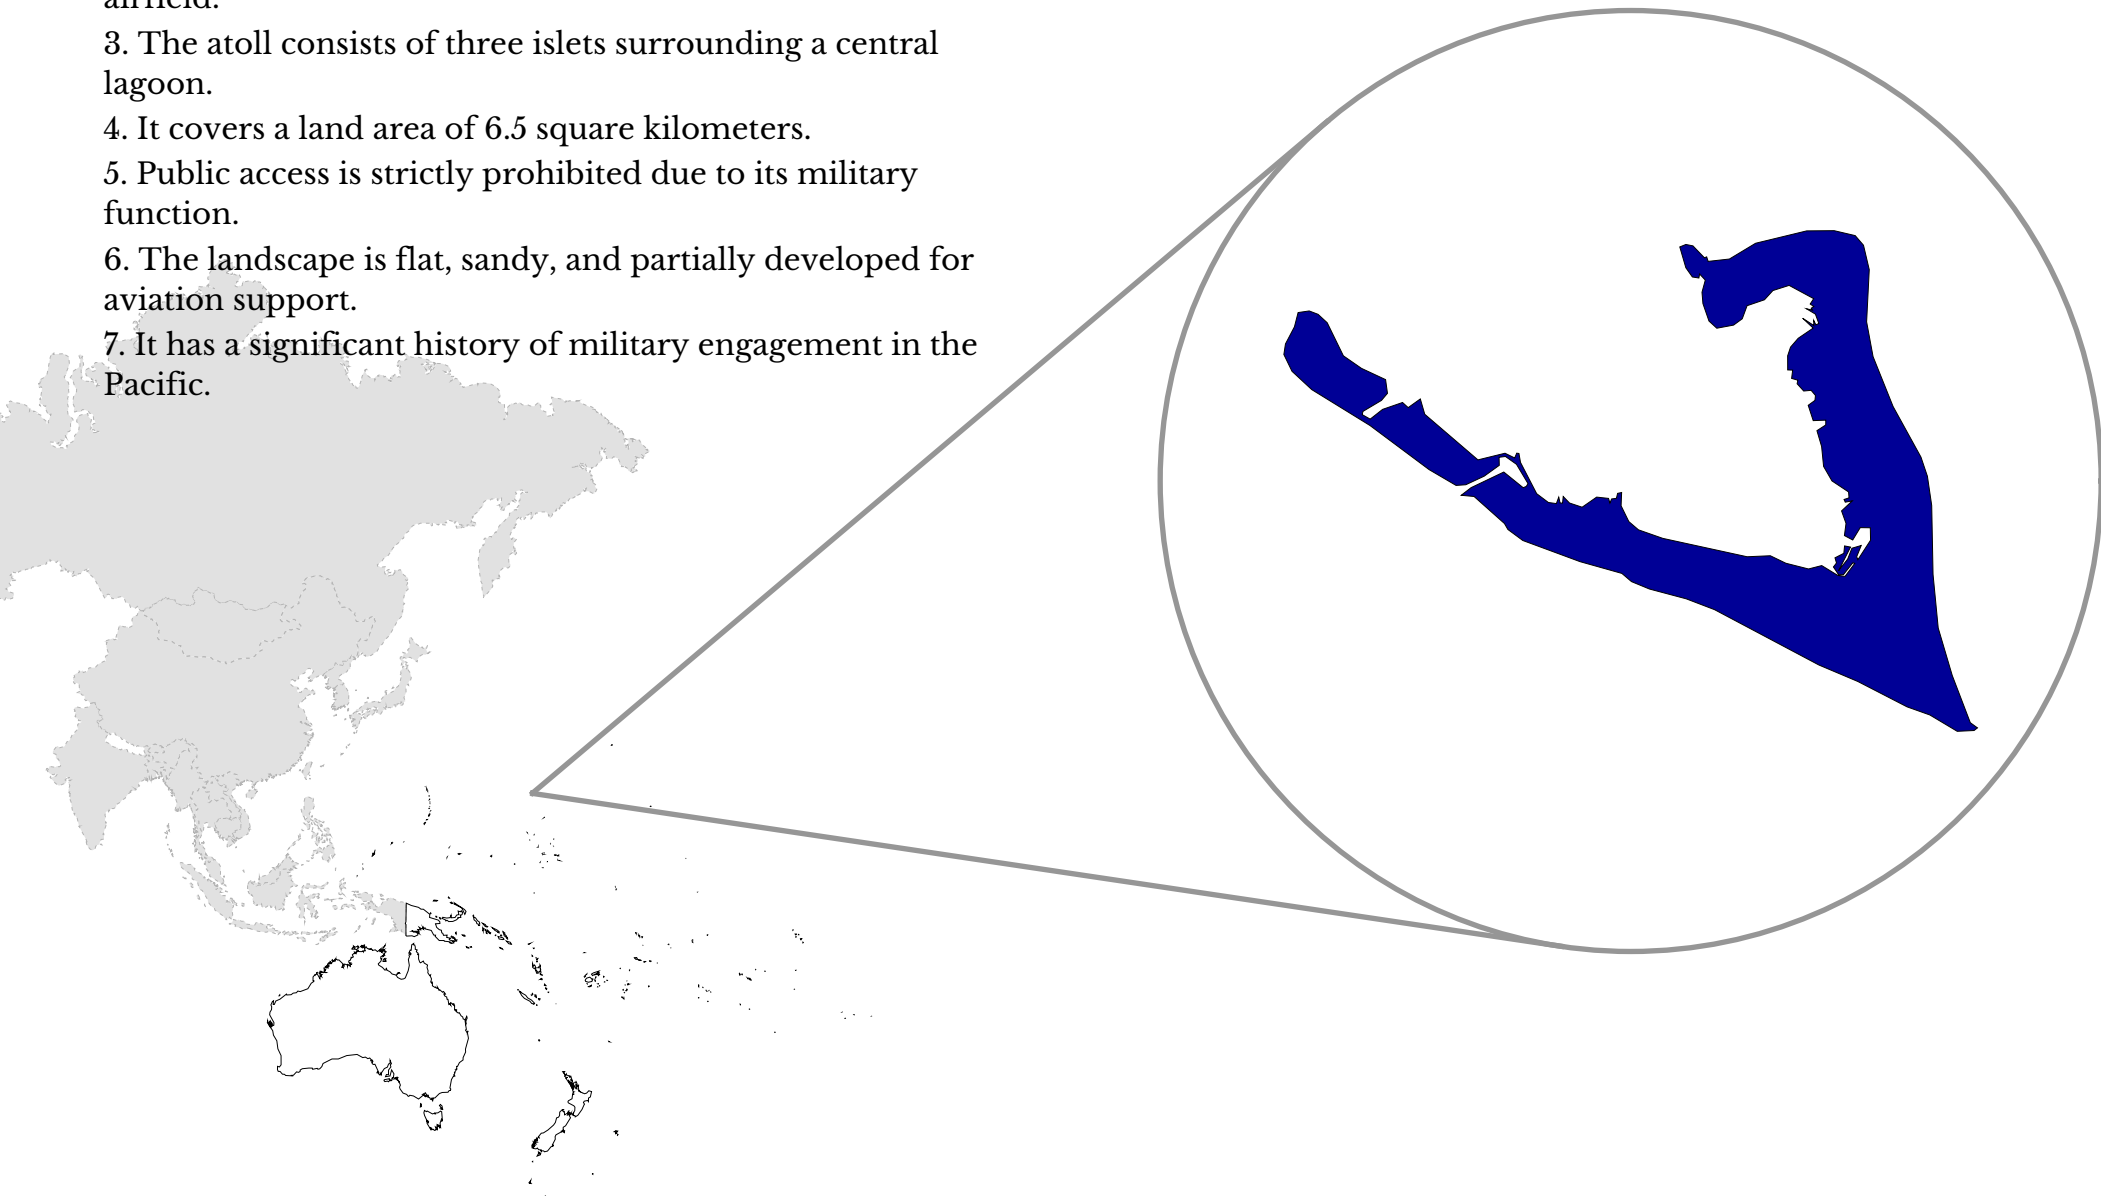

Fun Facts about Vanuatu

1. This nation comprises an archipelago of 83 volcanic islands.
2. Port Vila is the capital and the primary hub for commerce and tourism.
3. The nation covers a land area of 12,189 square kilometers.
4. It is famous for Mount Yasur, one of the most accessible active volcanoes.
5. Agriculture, fishing, and tourism are the primary economic pillars.
6. The region is rich in indigenous culture, with numerous traditional ceremonies.
7. It possesses a diverse landscape of tropical forests and rugged volcanic terrain.

Fun Facts about Wake Island

1. This unincorporated, unorganized U.S. territory is a remote coral atoll.
2. It is primarily utilized as a strategic military base and airfield.
3. The atoll consists of three islets surrounding a central lagoon.
4. It covers a land area of 6.5 square kilometers.
5. Public access is strictly prohibited due to its military function.
6. The landscape is flat, sandy, and partially developed for aviation support.
7. It has a significant history of military engagement in the Pacific.

Teacher Guide to Heat Maps

Heat maps in geography education serve as a powerful visualization tool for students in grades 2-8, enabling them to intuitively grasp spatial patterns by representing data density through color intensity. Often referred to in educational contexts as choropleth maps, these tools translate abstract statistical information-such as population distribution, weather phenomena, or wildlife sightings-into a tangible spectrum where 'warm' colors denote high concentrations and 'cool' colors signify scarcity. By removing the need to interpret complex bar graphs or raw numerical tables, these maps allow teachers to facilitate immediate classroom discussions on why certain features cluster in specific locations, effectively bridging the gap between basic map reading and the foundational concepts of spatial analysis and human-environment interaction.

3rd to 4th Grade: Introduction to Spatial Patterns

At this stage, students are learning to read basic map keys and categorize information. The focus should be on simple datasets with only 3-4 categories (e.g., 'high,' 'medium,' 'low' population density).

Activity: Color-coding counties or states using a simple progression (e.g., light green to dark green).

Focus: Understanding that one color represents a range of numbers rather than a single value.

5th to 6th Grade: Data Grouping and Analysis

Students here can handle more complex datasets and are beginning to understand fractions and intervals. They are ready to create their own "bins" for data.

Activity: Deciding where to set the breaks for their data (e.g., 0-1,000, 1,001-5,000, 5,001+).

Focus: Recognizing how changing the intervals changes the "story" the map tells.

7th to 8th Grade and Above: Quantitative Accuracy

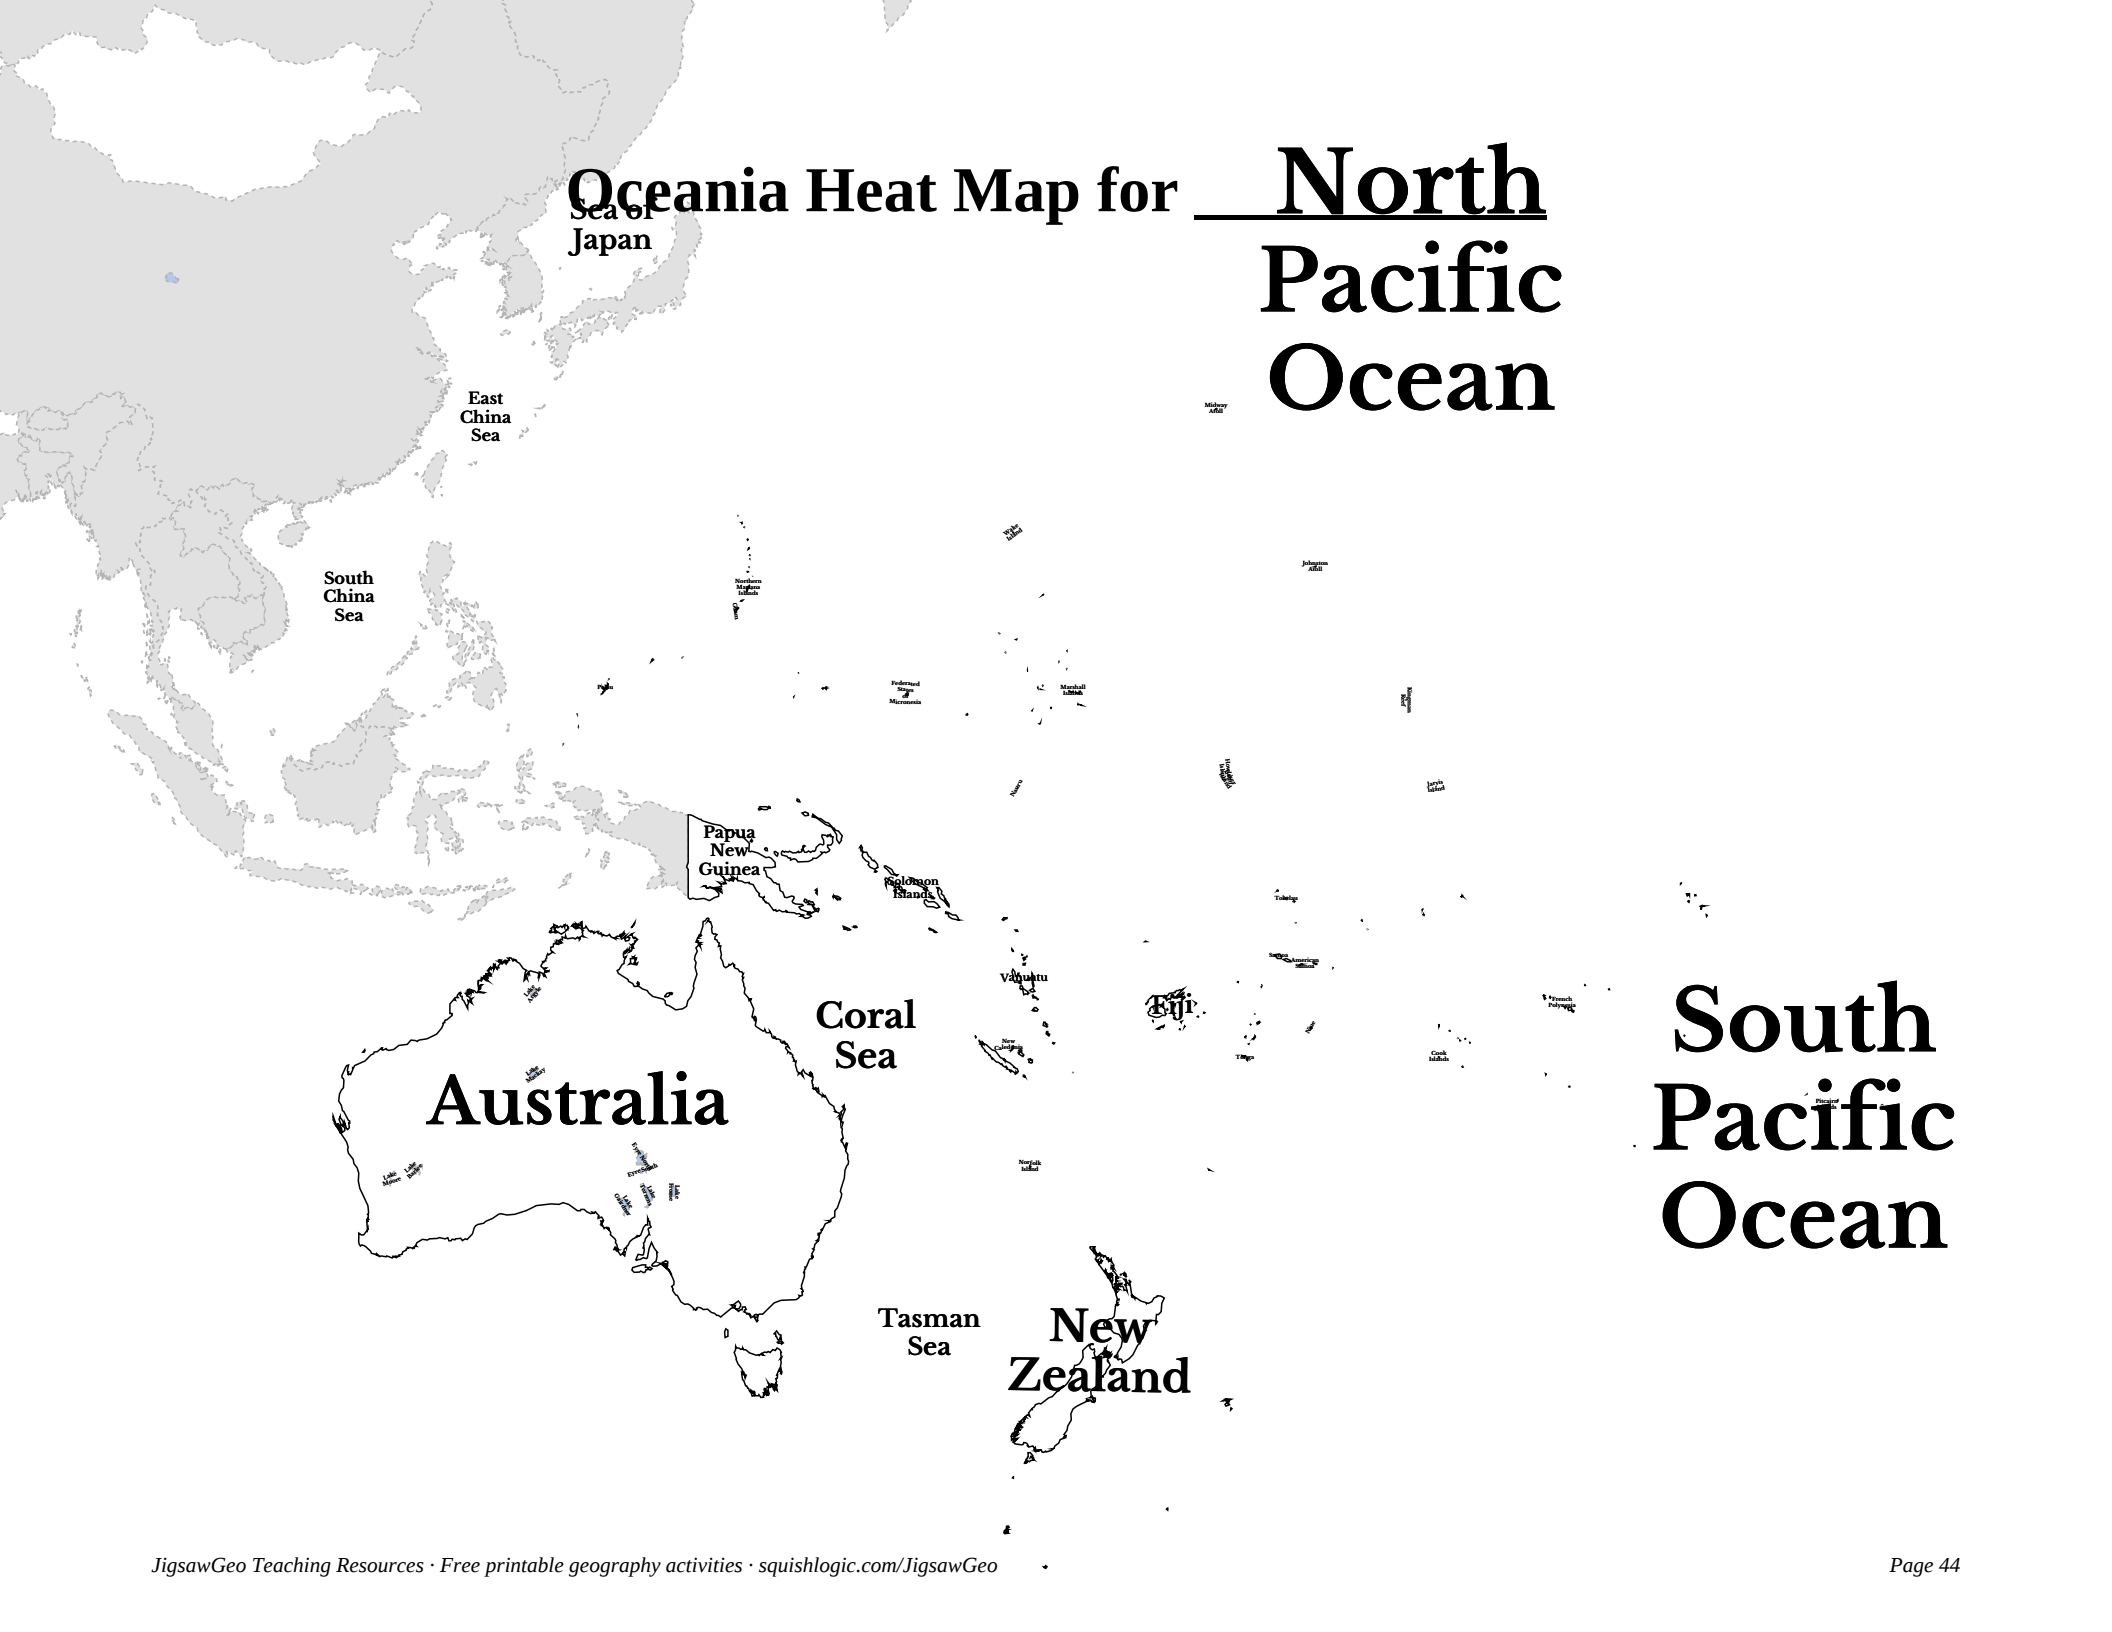

At the middle and high school levels, students should focus on the ethics and accuracy of data representation. They can incorporate more complex statistics like population per square mile rather than raw totals.

Activity: Using real-world census data to create choropleth maps using more sophisticated color gradients (sequential vs. diverging scales).

Focus: Analyzing how map projections and data normalization affect the viewer's perception.
